## SUMMARY

*This summary highlights certain information appearing elsewhere in this prospectus. For a more complete understanding of this offering, you should read the entire prospectus carefully, including the information under “Risk Factors” and our financial statements and the related notes included elsewhere in this prospectus before investing in our common stock.*

### Overview

We currently operate and provide a wide range of business solution services to small and medium-size businesses located in Asia, with an initial focus on Hong Kong, China and Malaysia. Our comprehensive range of services includes cross-border business solutions, record management services, and accounting outsourcing services. Our cross border business services include, among other services, tax planning, trust and wealth management, cross border listing advisory services and transaction services. As part of the cross border business solutions, we have developed a package solution of services (“Package Solution”) that can reduce business costs and improve revenues.

We also operate a venture capital business through Greenpro Venture Capital Limited, an Anguilla corporation. Our venture capital business is focused on (1) establishing a business incubator for start-up and high growth companies to support such companies during critical growth periods, which includes education and support services, and (2) searching for investment opportunities in selected start-up and high growth companies, which we expect can generate significant returns to the Company. We expect to target companies located in Asia and South-East Asia including Hong Kong, Malaysia, China, Thailand and Singapore. We anticipate our venture capital business will also engage in the purchase, acquisition and rental of commercial properties in the same Asia and South-East Asia region.

To support our venture capital business, we partnered with QSC Asia Sdn. Bhd., an education and training company that arranges seminars and courses in Malaysia, to provide business, educational and support services. We operate our venture capital related education and support services through our subsidiary, Greenpro Capital Village Sdn. Bhd. We have started arranging seminars called the CEO & Business Owners Strategic Session (CBOSS) in Malaysia and Singapore for business owners who are interested in the following:

- Developing business globally,
- Expanding business with increased capital funds,
- Creating a sustainable SME business model,
- Accelerating the growth of the business, or
- Increasing company cash flow significantly.

The objective of the CBOSS seminars is to educate the chief executive officers or business owners on how to acquire “smart capital” and the considerations involved. The seminars include an introduction to the basic concepts of “smart capital,” “wealth and value creation,” recommendation and planning and similar topics. We believe that the seminar will synergistically support our venture capital business segment.

### Our Growth Strategy

Our growth strategy is highly dependent on our ability to market our services effectively. We are focused on three primary marketing strategies, which include offline marketing, online marketing and content marketing.

#### Offline Marketing

Due to the nature of our business where trust is a critical element in client engagement, we are focusing approximately 60% of our time on our offline marketing activities and approximately 40% of our time on our online marketing activities. For offline marketing, we believe physical presence in the market is a key to build trust from the public and targeted marketing.

## *Educational Events & Seminars*

Consistent with this principal of physical engagement, we organize frequent and targeted events, such as workshops, industry conferences and other investor education and social events to share our knowledge with prospective clients. We invite potential clients and prospects through our collaborated partners and existing database to attend our events. At these events, we introduce our services to see if any potential clients would like to engage in any of our services. These events are often organized in cooperation with chambers of commerce, distinguished alumni associations and high-profile entrepreneurs.

## *Roadshow Platform & Networking Events*

For our venture capital portfolio and our business solution services, our priority objective is to identify potential investments with solid and sound businesses. Consistent with this objective, we participate in company roadshow events. These roadshow events allow companies to showcase themselves and their potential for future development. From these events, we are able to promote and source potential projects or companies that need our business solution services in their corporate development.

## *Word of Mouth*

Word of mouth is one of the most effective marketing tools for our business. We intend to engage in nationwide marketing initiatives to further raise our brand awareness while continuing to improve client satisfaction to strengthen our word of mouth referrals. We intend to continue to focus on referrals as the major avenue of new client development. We also encourage our employees to introduce or recommend new clients to us by providing incentive bonuses.

## **Online Marketing**

We believe our public brand awareness will further contribute to our brand recognition and improve our performance. We also believe the most cost effective way to gain awareness is by leveraging the use of the internet and various mobile social network applications.

### *Social Network Marketing*

Wechat has been the mainstream mobile online marketing tool for companies in China. According to a 2017 Wechat User Behavior Report, published by Tencent Penguin Intelligence as of the fourth quarter of 2016, Wechat had 889 million monthly active users worldwide. The top two reasons for group chats through Wechat are corporate internal communications and professional networking. As a result of the work-related features of Wechat, we believe that using Wechat can bolster our brand and networking opportunities.

Weibo is a leading social media platform for people to create, distribute and discover Chinese-language content. Weibo combines the means of public self-expression in real time with a powerful platform for social interaction, as well as content aggregation and distribution. Weibo Corporation reported in their official website that in December 2016, Weibo had 313 million monthly active users, which had increased from 236 million monthly active users in December 2015. Weibo serves a wide range of users including ordinary citizens, celebrities and other public figures, as well as media outlets, businesses, government agencies, charities and other organizations, making it a microcosm of Chinese society. For many people in China, Weibo allows them to be heard publicly and exposed to the rich ideas, cultures and experiences of the broader world.

We have an official company account in Wechat and Weibo, serving as contact platforms for potential clients to contact us. At the same time, we continuously introduce basic products and services information, market research and updates to our members, as well as publish articles and proprietary research reports on major business and finance to our accounts.

## *Search Engine Optimization (SEO) & Search Engine Marketing*

Search Engine Optimization and Search Engine Marketing are current strategies we implement to enhance our online appearance in search engines. We have recruited an internal SEO team to handle technical operations in order to improve our exposure by enhancing higher rankings in key word searching.

## **Content Marketing**

### *Knowledge sharing & publication*

We have a team of editors who prepare market research and updates to our members. We also publish articles and proprietary research reports in major business and finance. These contents are the substance and tools to support our existing marketing channel and activities.

## **Competitive Advantages**

### *Cross Border Advantages :*

- With our offices setup across the East Asia and South-East Asia regions, we have better information flow within those markets and a better understanding of the needs in those markets, which allow us to provide services to our clients and fulfill their needs in a better manner.
- We have an advantage in sourcing better investment opportunities with our local teams who understand risk-opportunity in the local industry.
- With our offices throughout the regions we serve, we have better connectivity as we have more contact points reaching out to potential local clients, in another way, achieving timely and effective communication.

- Our professional teams are multi nationals who add value to our operations. They are proficient in English, Chinese, Malay, Thai, Cantonese Dialect, and other local dialects in the East Asia and South-East Asia regions. The multi-national teams allow us to easily adapt and communicate with clients from all areas in the regions. Such strength is an added value as we are facing clients from all over the East Asia and South-East Asia regions with different default languages during interaction.
- Such capabilities enable us to produce efficient and effective communication with our clients.

### *Company Secretarial Services :*

- We have professional and experienced teams established in Hong Kong, China and Malaysia specializing in corporate advisory services and company secretarial services that range from advising local and overseas clients for company formation in Hong Kong, U.S., China and other overseas jurisdictions, maintaining of statutory records and filing statutory returns of respective clients with local companies' registry, applying for business licenses and preparing meeting minutes or resolutions.
- With our offices and experienced teams in Hong Kong, China and Malaysia, we have better knowledge, skills and resources for servicing our clients.

### **Risk Related to Our Business**

Our ability to implement our business strategy is subject to numerous risks and uncertainties that you should be aware of before making an investment decision. As a technology company, we face many risks inherent in our business and our industry generally. You should carefully consider all of the information set forth in this prospectus and, in particular, the information under the heading “Risk Factors,” prior to making an investment in our common stock. These risks include, among others, the following:

- We have business operations in Hong Kong, China and Malaysia and we may be negatively affected by any instability in the economic and political development of any of the above region.
- We have incurred operating losses since we began operations and may not be profitable in the future.
- We may be unable to gain any significant market acceptance for our services and establish a significant market presence to attract customers under increasing competition.

## RISK FACTORS

You should carefully consider the risks described below and elsewhere in this report, which could materially and adversely affect our business, results of operations or financial condition. Our business faces significant risks and the risks described below may not be the only risks we face. Additional risks not presently known to us or that we currently believe are immaterial may materially affect our business, results of operations, or financial condition. If any of these risks occur, the trading price of our common stock could decline and you may lose all or part of your investment.

### ***Risks Related to our Business***

**We have a limited operating history that you can use to evaluate us, and the likelihood of our success must be considered in light of the problems, expenses, difficulties, complications and delays frequently encountered by a small developing company.**

We were incorporated in Nevada in July 2013. We have significant financial resources and as of December 31, 2016, we have generated \$2,776,435 in revenues and incurred net losses of \$222,323. The likelihood of our success must be considered in light of the problems, expenses, difficulties, complications and delays frequently encountered by a small company starting a new business enterprise and the highly competitive environment in which we will operate. We have a limited operating history upon which an evaluation of our future success or failure can be made. Our ability to achieve and maintain profitability and positive cash flow is dependent upon:

- our ability to market our product and services;
- our ability to generate revenues; and
- our ability to raise the capital necessary to continue marketing and developing our product.

### **We are not currently profitable and may not become profitable.**

As of December 31, 2016, we had \$1,021,351 cash on hand, our stockholder's equity was \$6,093,071. We have generated \$2,776,435 in revenue to date and have incurred operating losses of \$139,374 and net losses of \$222,323. We expect to incur losses and negative operating cash flows for the foreseeable future, and we may not achieve profitability. We also expect to experience negative cash flow for the foreseeable future as we fund our operating losses and capital expenditures. As a result, we will need to generate significant revenues in order to achieve and maintain profitability. We may not be able to generate these revenues or achieve profitability in the future. Our failure to achieve or maintain profitability could negatively impact the value of our business.

**We are dependent upon the proceeds of this offering to fund our business. If we do not sell enough shares in this offering to continue operations, this could have a negative effect on the value of your common stock.**

As of December 31, 2016, we had \$8,429,602 in assets and limited capital resources. In order to continue operating for the next twelve months, in the event that we do not generate sufficient revenues, we must raise approximately \$[●] in gross proceeds from this offering.

Unless we begin to generate sufficient revenues to finance operations as a going concern, we may experience liquidity and solvency problems. Such liquidity and solvency problems may force us to cease operations if additional financing is not available.

Also, as a public company, we will incur professional and other fees in connection with our quarterly and annual reports and other periodic filings with the SEC. Such costs can be substantial and we must generate enough revenue or raise money from offerings of securities or loans in order to meet these costs and our SEC filing requirements. We are offering our securities to the public; however, there is no guarantee that we will be able to sell the securities. And even if we sell the securities, there is no guarantee that the proceeds will be sufficient to fund our planned operations. We anticipate a burn rate of approximately \$200,000 per month. At 10% of the minimum offering sold, our burn rate would be \_\_\_ months, if 25% of the minimum offering is sold, our burn rate would be \_\_\_ months, if 50% of the minimum offering is sold, our burn rate would be \_\_\_ months, and if 100% of the minimum offering is sold, our burn rate would be \_\_\_ months. At 10% of the maximum offering sold, our burn rate would be \_\_\_ months, if 25% of the maximum offering is sold, our burn rate would be \_\_\_ months, if 50% of the maximum offering is sold, our burn rate would be \_\_\_ months, and if 100% of the maximum offering shares is sold, our burn rate would be \_\_\_ months.

**The report of our independent registered public accounting firm has previously expressed substantial doubt about the Company's ability to continue as a going concern and future reports may similarly express a going concern.**

Our auditors indicated in their report on the Company's financial statements for the fiscal year ended December 31, 2015 that conditions existed that raise a substantial doubt about our ability to continue as a going concern due to our net loss for the year ended December 31, 2015. A similar future "going concern" opinion could impair our ability to finance our operations through the sale of equity, incurring debt, or other financing alternatives and/or negatively affect our relationships with customers and suppliers and/or negatively affect the willingness of our suppliers to allow us to maintain credit with them. Our ability to continue as a going concern will depend upon our ability to grow our operations and integrate newly acquired assets and operations, our ability to acquire additional assets and operations, and our ability to improve operating margins and regain profitability. If we are unable to achieve these goals, our business would be jeopardized and the Company may not be able to continue. If we ceased operations, it is likely that all of our investors would lose their investment.

**Our operating results may prove unpredictable which could negatively affect our profit.**

Our operating results are likely to fluctuate significantly in the future due to a variety of factors, many of which we have no control. Factors that may cause our operating results to fluctuate significantly include: our inability to generate enough working capital from future equity sales; the level of commercial acceptance by clients of our services; fluctuations in the demand for our service the amount and timing of operating costs and capital expenditures relating to expansion of our business, operations and infrastructure and general economic conditions. If realized, any of these risks could have a material adverse effect on our business, financial condition and operating results.

**If we are unable to gain any significant market acceptance for our service or establish a significant market presence, we may be unable to generate sufficient revenue to continue our business.**

Our growth strategy is substantially dependent upon our ability to successfully market our service to prospective clients. However, our planned services may not achieve significant acceptance. Such acceptance, if achieved, may not be sustained for any significant period of time. Failure of our services to achieve or sustain market acceptance could have a material adverse effect on our business, financial conditions and the results of our operations.

**Management's ability to implement the business strategy may be slower than expected and we may be unable to generate a profit.**

Our business plans, including offering a cloud auditing system and consulting services, may not occur. Our growth strategy is subject to significant risks which you should carefully consider before purchasing the shares we are offering.

Our services may be slow to achieve profitability, or may not become profitable at all, which will result in losses. There can be no assurance that we will succeed.

We may be unable to enter into our intended markets successfully. The factors that could affect our growth strategy include our success in (a) developing the our business plan, (b) obtaining our clients, (c) obtaining adequate financing on acceptable terms, and (d) adapting our internal controls and operating procedures to accommodate our future growth.

Our systems, procedures and controls may not be adequate to support the expansion of our business operations. Significant growth will place managerial demands on all aspects of our operations. Our future operating results will depend substantially upon our ability to manage changing business conditions and to implement and improve our technical, administrative and financial controls and reporting systems.

**Competitors may enter this sector with superior service which would affect our business adversely.**

We have identified a market opportunity for our business. We believe that barriers to entry are low to medium because of economies of scale, cost advantage and brand identity. Potential competitors may enter this sector with superior services. This would have an adverse effect upon our business and our results of operations. In addition, a high level of support is critical for the successful marketing and recurring sales of our services. Despite having accumulated customers from the past four years, we may still need to continue to improve our platform and software in order to assist potential customers in using our platform, and we also need to provide effective support to future clients. If we are unable to increase customer support and improve our platform in the face of increasing competition, with the increase in competition, our ability to sell our services to potential customers could adversely affect our brand, which would harm our reputation.

**Our use of open source and third-party software could impose limitations on our ability to commercialize our services.**

We intend to incorporate open source software into our platform. Although we monitor our use of open source closely, the terms of many open source licenses have not been interpreted by U.S. courts or jurisdictions elsewhere, and there is a risk that such licenses could be construed in a manner that could impose unanticipated conditions or restrictions on our ability to commercialize our services. We could also be subject to similar conditions or restrictions should there be any changes in the licensing terms of the open source software incorporated into our products. In either event, we could be required to seek licenses from third parties in order to continue our services in the event re-engineering cannot be accomplished on a timely or successful basis, any of which could adversely affect our business, operating results and financial condition.

We also intend to incorporate certain third-party technologies, including software programs, into our website and may need to utilize additional third-party technologies in the future. However, licenses to relevant third-party technology may not continue to be available to us on commercially reasonable terms, or at all. Therefore, we could face delays in releases of our platform until equivalent technology can be identified, licensed or developed, and integrated into our current products. These delays, if they occur, could materially adversely affect our business, operating results and financial condition. Any disruption in our access to software programs or third-party technologies could result in significant delays in releases of our platform and could require substantial effort to locate or develop a replacement program. If we decide in the future to incorporate into our products any other software program licensed from a third party, and the use of such software program is necessary for the proper operation of our appliances, then our loss of any such license would similarly adversely affect our ability to release our products in a timely fashion.

**The security of our computer systems may be compromised and harm our business.**

A significant portion of our business operations is conducted through use of our computer network. Although we intend to implement security systems and procedures to protect the confidential information stored on these computer systems, experienced computer programmers and hackers may be able to penetrate our network security and misappropriate our confidential information or that of third parties. As well, they may be able to create system disruptions, shutdowns or effect denial of service attacks. Computer programmers and hackers also may be able to develop and deploy viruses, worms, and other malicious software programs that attack our networks or client computers, or otherwise exploit any security vulnerabilities, or that misappropriate and distribute confidential information stored on these computer systems. Any of the foregoing could result in damage to our reputation and customer confidence in the security of our products and services, and could require us to incur significant costs to eliminate or alleviate the problem. Additionally, our ability to transact business may be affected. Such damage, expenditures and business interruption could seriously impact our business, financial condition and results of operations.

**Adverse developments in our existing areas of operation could adversely impact our results of operations, cash flows and financial condition.**

Our operations are focused on utilizing our sales efforts which are principally located in South-East Asia. As a result, our results of operations, cash flows and financial condition depend upon the demand for our services in these regions. Due to the lack of broad diversification in industry type and geographic location, adverse developments in our current segment of the midstream industry, or our existing areas of operation, could have a significantly greater impact on our results of operations, cash flows and financial condition than if our operations were more diversified.

**We are an “emerging growth company” and we cannot be certain if the reduced disclosure requirements applicable to emerging growth companies will make our common stock less attractive to investors.**

We are an “emerging growth company,” as defined in the JOBS Act, and we may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not “emerging growth companies” including not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved. We cannot predict if investors will find our common stock less attractive because we may rely on these exemptions. If some investors find our common stock less attractive as a result, there may be a less active trading market for our common stock and our stock price may be more volatile.

In addition, Section 107 of the JOBS Act also provides that an “emerging growth company” can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. An “emerging growth company” can therefore delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We are choosing to follow the extended transition period, and as a result, we will delay adoption of certain new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies.

## **Risks Related to Doing Business in East Asia and South-East Asia**

### **Our contractual arrangements may not be as effective in providing control over the variable interest entities as direct ownership.**

We rely on contractual arrangements with our variable interest entities to hold part of our assets in Hong Kong. For a description of these contractual arrangements, see “Acquisition and Reorganization History - VIE Structure And Arrangements.” These contractual arrangements may not be as effective as direct ownership in providing us with control over our variable interest entities.

If we had direct ownership of the variable interest entities, we would be able to exercise our rights as an equity holder directly to effect changes in the boards of directors of those entities, which could effect changes at the management and operational level. Under our contractual arrangements, we may not be able to directly change the members of the boards of directors of these entities and would have to rely on the variable interest entities and the variable interest entity equity holders to perform their obligations in order to exercise our control over the variable interest entities. The variable interest entity equity holders may have conflicts of interest with us or our shareholders, and they may not act in the best interests of our company or may not perform their obligations under these contracts. For example, our variable interest entities and their respective equity holders could breach their contractual arrangements with us by, among other things, failing to conduct their operations, including maintaining our websites and using our domain names and trademarks which the relevant variable interest entities have exclusive rights to use, in an acceptable manner or taking other actions that are detrimental to our interests. Pursuant to the call option, we may replace the equity holders of the variable interest entities at any time pursuant to the contractual arrangements. Consequently, the contractual arrangements may not be as effective in ensuring our control over the relevant portion of our business operations as direct ownership.

### **Our business is subject to the risks of international operations.**

Substantially all of our business operations are conducted in South-East Asia. Accordingly, our results of operations, financial condition and prospects are subject to a significant degree to economic, political and legal developments in the Asian countries we intend to develop business. Following the closing of our initial public offering, we will derive a significant portion of our revenue and earnings from the operation in Hong Kong, our principal business place and also in Malaysia and other South-East Asian countries. Operating in multiple foreign countries involves substantial risk. For example, our business activities subject us to a number of laws and regulations, such as anti-corruption laws, tax laws, foreign exchange controls and cash repatriation restrictions, data privacy and security requirements, labor laws, intellectual property laws, privacy laws, and anti-competition regulations. As we expand into additional countries, the complexity inherent in complying with these laws and regulations increases, making compliance more difficult and costly and driving up the costs of doing business in foreign jurisdictions. Any failure to comply with foreign laws and regulations could subject us to fines and penalties, make it more difficult or impossible to do business in that country and harm our reputation.

### **We may be exposed to liabilities under the Foreign Corrupt Practices Act, and any determination that we violated the foreign corrupt practices act could have a material adverse effect on our business.**

We are subject to the Foreign Corrupt Practice Act, or FCPA, and other laws that prohibit improper payments or offers of payments to foreign governments and their officials and political parties by U.S. persons and issuers as defined by the statute for the purpose of obtaining or retaining business. We will have operations, agreements with third parties and make sales in South-East Asia, which may experience corruption. Our proposed activities in Asia create the risk of unauthorized payments or offers of payments by one of the employees, consultants, or sales agents of our Company, because these parties are not always subject to our control. It will be our policy to implement safeguards to discourage these practices by our employees. Also, our existing safeguards and any future improvements may prove to be less than effective, and the employees, consultants, or sales agents of our Company may engage in conduct for which we might be held responsible. Violations of the FCPA may result in severe criminal or civil sanctions, and we may be subject to other liabilities, which could negatively affect our business, operating results and financial condition. In addition, the government may seek to hold our Company liable for successor liability FCPA violations committed by companies in which we invest or that we acquire.

**You may have difficulty enforcing judgments against us.**

We are a Nevada corporation and most of our assets are and will be located outside of the United States. Almost all of our operations will be conducted in Hong Kong. In addition, our officers and directors are nationals and residents of a country other than the United States. All of their assets are located outside the United States. As a result, it may be difficult for you to effect service of process within the United States upon them. It may also be difficult for you to enforce in U.S. courts judgments on the civil liability provisions of the U.S. federal securities laws against us and our officer and director, since he is not a resident in the United States. In addition, there is uncertainty as to whether the courts of Hong Kong or other Asian countries would recognize or enforce judgments of U.S. courts.

**Payment of dividends is subject to restrictions under Nevada, Hong Kong, Malaysia and the PRC laws.**

Under Nevada law, we may only pay dividends subject to our ability to service our debts as they become due and provided that our assets will exceed our liabilities after the dividend. Our ability to pay dividends will therefore depend on our ability to generate sufficient profits. Under the Hong Kong Companies Ordinance, we are permitted to make payments of dividends from distributable profits (that is, accumulated realized profits less its accumulated realized losses). Under the Laws of Malaysia, we may only make a distribution to the shareholders out of our profits available if we are solvent. The Company is regarded as solvent if the Company is able to pay its debts as and when the debts become due within twelve months immediately after the distribution is made. In addition, because of the various rules applicable to our operations in China and the regulations on foreign investments as well as the applicable tax law, we may be subject to further limitations on our ability to declare and pay dividends to our shareholders.

We can give no assurance that we will declare dividends of any amounts, at any rate or at all in the future. The declaration of future dividends, if any, will be at the discretion of our board of directors and will depend upon our future operations and earnings, capital requirements, general financial conditions, legal and contractual restrictions and other factors that our board of directors may deem relevant.

**We face the risk that changes in the policies of the PRC government could have a significant impact upon the business we may be able to conduct in the PRC and the profitability of such business.**

The PRC's economy is in a transition from a planned economy to a market oriented economy subject to five-year and annual plans adopted by the central government that set national economic development goals. Policies of the PRC government can have significant effects on the economic conditions of the PRC. The PRC government has confirmed that economic development will follow the model of a market economy. Under this direction, we believe that the PRC will continue to strengthen its economic and trading relationships with foreign countries and business development in the PRC will follow market forces. While we believe that this trend will continue, we cannot assure you that this will be the case. A change in policies by the PRC government could adversely affect our interests by, among other factors: changes in laws, regulations or the interpretation thereof, confiscatory taxation, restrictions on currency conversion, imports or sources of supplies, or the expropriation or nationalization of private enterprises. Although the PRC government has been pursuing economic reform policies for more than two decades, we cannot assure you that the government will continue to pursue such policies or that such policies may not be significantly altered, especially in the event of a change in leadership, social or political disruption, or other circumstances affecting the PRC's political, economic and social environment.

**Introduction of new laws or changes to existing laws by the PRC government may adversely affect our business.**

The PRC legal system is a codified legal system made up of written laws, regulations, circulars, administrative directives and internal guidelines. Unlike common law jurisdictions like the U.S., decided cases (which may be taken as reference) do not form part of the legal structure of the PRC and thus have no binding effect on subsequent cases with similar issues and fact patterns. Furthermore, in line with its transformation from a centrally-planned economy to a more free market-oriented economy, the PRC government is still in the process of developing a comprehensive set of laws and regulations. As the legal system in the PRC is still evolving, laws and regulations or the interpretation of the same may be subject to further changes. For example, the PRC government may impose restrictions on the amount of service fees that may be payable by municipal governments to wastewater and sludge treatment service providers. Also, the PRC central and municipal governments may impose more stringent environmental regulations which would affect our ability to comply with, or our costs to comply with, such regulations. Such changes, if implemented, may adversely affect our business operations and may reduce our profitability

### **The Hong Kong economy may be vulnerable to slowdown in Chinese activity and world trade.**

Since Hong Kong is now closely linked to China with respect to economic and political development, Hong Kong economic and political development will be more likely to be affected by China's development. As there are more and more mainland Chinese companies listed on The Hong Kong Stock Exchange and industries in general are becoming delocalized to mainland China, the Hong Kong stock market and local economy will become more vulnerable to the economic development in the mainland China. If the economic development in China becomes unstable, the Hong Kong economy will be negatively affected. Besides, the Hong Kong economy is externally oriented and highly dependent on trade with the rest of the world. Our business may be subject to the cyclical effect of the economic development in the world.

### **We face the risk that changes in the world economy and political developments in Malaysia may adversely affect our business.**

In recent years, there have been political instabilities in Malaysian government which may reduce investors' confidence, result in reduction in foreign direct investment and weigh on consumer and business sentiment, depressing growth. In addition, the Malaysian economy is reliant on external demand. Any possible worsening global demand is likely to hinder the export development and any economic weakness may possibly lead to market intervention and the government may impose capital controls. Under these circumstances, our business operation may be adversely affected.

### **Risks Related to this Offering**

#### **Prior to this offering, we had a limited public market for our shares of common stock and you may not be able to resell our shares at or above the price you paid, or at all.**

Prior to this offering, there was a limited public market for our common stock in the OTC Market. We cannot assure you that an active public market for our common stock will develop or that the market price of our shares will not decline below the public offering price. The public offering price of our shares may not be indicative of prices that will prevail in the trading market following the offering.

#### **Together, our Chief Executive Officer, Mr. Lee Chong Kuang, and our Chief Financial Officer, Mr. Loke Che Chan Gilbert, own a large percentage of our outstanding stock and could significantly influence the outcome of our corporate matters.**

Mr. Lee Chong Kuang, our CEO, beneficially owns 47.15% of our outstanding shares of common stock, and Mr. Loke Che Chan Gilbert, our CFO, beneficially owns 44.03% of our outstanding shares of common stock. As a result, Messrs. Lee and Loke are able to exercise significant influence over all matters that require us to obtain shareholder approval, including the election of directors to our board and approval of significant corporate transactions that we may consider, such as a merger or other sale of our company or its assets. This concentration of ownership in our shares by executive officers will limit the other shareholders' ability to influence corporate matters and may have the effect of delaying or preventing a third party from acquiring control over us.

#### **Future sales of substantial amounts of the shares of common stock by existing shareholders could adversely affect the price of our common stock.**

If our existing shareholders sell substantial amounts of the shares following this offering, the market price of our common stock could fall. Such sales by our existing shareholders might make it more difficult for us to issue new equity or equity-related securities in the future at a time and place we deem appropriate. The shares of common stock offered in this offering will be eligible for immediate resale in the public market without restrictions. All remaining shares, which are currently held by our existing shareholders, may be sold in the public market in the future subject to the lock-up agreements and the restrictions contained in Rule 144 under the Securities Act. If any existing shareholders sell a substantial amount of shares, the prevailing market price for our shares could be adversely affected.

**The market price of our shares is likely to be highly volatile and subject to wide fluctuations in response to factors such as:**

- variations in our actual and perceived operating results;
- news regarding gains or losses of customers or partners by us or our competitors;
- news regarding gains or losses of key personnel by us or our competitors;
- announcements of competitive developments, acquisitions or strategic alliances in our industry by us or our competitors;
- changes in earnings estimates or buy/sell recommendations by financial analysts;
- potential litigation;
- general market conditions or other developments affecting us or our industry; and
- the operating and stock price performance of other companies, other industries and other events or factors beyond our control.

In addition, the securities markets have from time to time experienced significant price and volume fluctuations that are not related to the operating performance of particular companies. These market fluctuations may also materially and adversely affect the market price of the shares.

**In the event that our shares are traded, they may trade under \$5.00 per share and thus will be a penny stock. Trading in penny stocks has many restrictions and these restrictions could severely affect the price and liquidity of our shares.**

In the event that our shares are traded, and our stock trades below \$5.00 per share, our stock would be known as a “penny stock”, which is subject to various regulations involving disclosures to be given to you prior to the purchase of any penny stock. The U.S. Securities and Exchange Commission (the “SEC”) has adopted regulations which generally define a “penny stock” to be any equity security that has a market price of less than \$5.00 per share, subject to certain exceptions. Depending on market fluctuations, our common stock could be considered to be a “penny stock”. A penny stock is subject to rules that impose additional sales practice requirements on broker/dealers who sell these securities to persons other than established Members and accredited investors. For transactions covered by these rules, the broker/dealer must make a special suitability determination for the purchase of these securities. In addition, he must receive the purchaser’s written consent to the transaction prior to the purchase. He must also provide certain written disclosures to the purchaser. Consequently, the “penny stock” rules may restrict the ability of broker/dealers to sell our securities, and may negatively affect the ability of holders of shares of our common stock to resell them. These disclosures require you to acknowledge that you understand the risks associated with buying penny stocks and that you can absorb the loss of your entire investment. Penny stocks are low priced securities that do not have a very high trading volume. Consequently, the price of the stock is often volatile and you may not be able to buy or sell the stock when you want to.

**We do not anticipate paying cash dividends on our common stock in the foreseeable future.**

We do not anticipate paying cash dividends in the foreseeable future. Presently, we intend to retain all of our earnings, if any, to finance development and expansion of our business. Consequently, your only opportunity to achieve a positive return on your investment in us will be if the market price of our common stock appreciates.

**We will have discretion in applying a portion of the net proceeds of this offering and may not use these proceeds in ways that will enhance the market value of our common stock.**

Our management will have considerable discretion in the application of the proceeds received by us from this offering. Such proceeds may be used to development of Financial Technology, China Service Centre Expansion and Worldwide Business Expansion and for working capital and general corporate purposes. You will not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately. You must rely on the judgment of our management regarding the application of the net proceeds of this offering. The net proceeds may be used for corporate purposes that do not improve our profitability or increase our common stock price. The net proceeds from this offering may also be placed in investments that do not produce income or that lose value. Future issuances of capital stock may depress the trading price of our common stock. Any issuance of shares of our common stock after this offering could dilute the interests of our existing stockholders and could substantially decrease the trading price of our common stock. We may issue additional shares of common stock in the future for a number of reasons, including to finance our operations and business strategy (including in connection with acquisitions, strategic collaborations or other transactions).

Sales of a substantial number of shares of our common stock in the public market could depress the market price of our common stock, and impair our ability to raise capital through the sale of additional equity securities. We cannot predict the effect that future sales of our common stock or other equity-related securities would have on the market price of our common stock.

#### **CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS**

Statements in this prospectus that are not descriptions of historical facts are forward-looking statements that are based on management's current expectations and are subject to risks and uncertainties that could negatively affect our business, operating results, financial condition and stock price. We have attempted to identify forward-looking statements by terminology including "anticipates," "believes," "can," "continue," "could," "estimates," "expects," "intends," "may," "plans," "potential," "predicts," "should," or "will" or the negative of these terms or other comparable terminology.

We may not actually achieve the plans, intentions or expectations disclosed in our forward-looking statements. We operate in a very competitive and rapidly changing environment. It is not possible for our management to predict all risks, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements we may make. Accordingly, you should not place undue reliance on our forward-looking statements. We have included important factors in the cautionary statements included in this prospectus, particularly in the "Risk Factors" section, that we believe could cause actual results or events to differ materially from the forward-looking statements that we make.

(1) The pro forma number of shares to be outstanding immediately after this offering as shown above is based on shares outstanding as of March 31, 2017,

assumes the maximum offering amount ([●] shares) has been sold assuming a public offering price of \$[●] which is set forth on the cover page of this prospectus, and after deducting the estimated placement agent commissions and estimated offering expenses payable by us.

## DILUTION

If you invest in our common stock, your interest will be diluted immediately to the extent of the difference between the public offering price per share you will pay in this offering and the pro forma as adjusted net tangible book value per share of our common stock after this offering. Our net tangible book value as of March 31, 2017 was \$4,977,331, or \$0.09 per share of common stock. Our pro forma net tangible book value per share set forth below represents our total tangible assets less total liabilities, divided by the number of shares of our common stock outstanding.

If the minimum offering amount is sold at an assumed public offering price of \$[●] per share, which is set forth on the cover page of this prospectus, after deducting the estimated placement agent commissions and offering expenses payable by us, the pro forma as adjusted net tangible book value as of March 31, 2017 would have been \$[●], or \$[●] per share. This represents an immediate increase in net tangible book value to existing shareholders of \$[●] per share. The public offering price per share will significantly exceed the net tangible book value per share. Accordingly, new investors who purchase shares of common stock in this offering will suffer an immediate dilution of their investment of \$[●] per share.

The following table illustrates this per share dilution to the new investors assuming the minimum offering amount is sold:

Assumed public offering price per share	\$	[●]
Net tangible book value per share as of March 31, 2017	\$	0.09
Increase in net tangible book value per share attributable to the offering	\$	[●]
Pro forma net tangible book value per share as of after giving effect to the offering	\$	[●]
Dilution per share to new investors	\$	[●]

A \$1.00 increase in the assumed public offering price of \$[●] per share, which is set forth on the cover page of this prospectus, would increase the pro forma net tangible book value by \$[●], the pro forma net tangible book value per share after this offering by \$[●] per share and the dilution in pro forma net tangible book value per share to investors in this offering by \$[●] per share, assuming that all of the shares offered by us, as set forth on the cover page of this prospectus, remains the same and after deducting the estimated offering expenses payable by us.

If the maximum offering amount is sold at an assumed public offering price of \$[●] per share, which is set forth on the cover page of this prospectus, after deducting the estimated placement agent commissions and offering expenses payable by us, the pro forma as adjusted net tangible book value as of March 31, 2017 would have been \$[●], or \$[●] per share. This represents an immediate increase in net tangible book value to existing shareholders of \$[●] per share. The public offering price per share will significantly exceed the net tangible book value per share. Accordingly, new investors who purchase shares of common stock in this offering will suffer an immediate dilution of their investment of \$[●] per share. The following table illustrates this per share dilution to the new investors assuming the minimum offering amount is sold:

Increase in net tangible book value per share attributable to the offering	\$	[●]

A \$1.00 increase in the assumed public offering price of \$[●] per share, which is set forth on the cover page of this prospectus, would increase the pro forma net tangible book value by \$[●], the pro forma net tangible book value per share after this offering by \$[●] per share and the dilution in pro forma net tangible book value per share to investors in this offering by \$[●] per share, assuming that all of the shares offered by us, as set forth on the cover page of this prospectus, remains the same and after deducting the estimated offering expenses payable by us.

Total revenue was \$2,776,435 and \$2,946,164 for the years ended December 31, 2016 and December 31, 2015, respectively. The decrease was primarily due to no revenue received from the sale of properties, an increase in service income of \$1,419,140 and an increase in rental income of \$48,679.

#### Rental Income

Revenue from rental was \$100,143 and \$51,464 for the years ended December 31, 2016 and December 31, 2015, respectively. It was derived principally from leasing properties in Malaysia and Hong Kong. We believe our rental income will be stable in the near future.

It was derived principally from the provision of business consulting and advisory services as well as company secretarial, accounting and financial review. We experienced an increase in service income as a result of our integration of clients in connection with our acquisitions and increased focus on high-end services.

#### Sale of properties

There was no revenue generated from the sale of properties for the year ended December 31, 2016. Revenue from the sale of properties was \$1,637,548 for the year ended December 31, 2015, which was derived from the sale of certain commercial properties located in Hong Kong. During the same period ended December 31, 2015, the Company also purchased property located at Tuen Mun, Hong Kong.

As opportunities permit, management expects to continue to purchase and sell commercial real estate in the near future. Accordingly, we expect revenue and costs attributable to the sale of properties to fluctuate on a going forward basis.

#### Cost of Revenues

Total cost of revenues was \$1,046,315 and \$1,852,865 for the years ended December 31, 2016 and December 31, 2015, respectively. The decrease was primarily attributed to the lack of activity in the real estate business in 2016.

The overall gross profit for the Company was \$1,730,120 and \$1,093,299 for the years ended December 31, 2016 and December 31, 2015, respectively. Gross profit as a percentage of total revenues was 62.3% and 37.1% for the same period ended December 31, 2016 and 2015, respectively. The increase was due to cost savings and no sale of properties with lower profit margin ratios.

We expect the increase in the cost of service to be aligned with an increase in service income.

#### Cost of properties sold

Cost of revenue on properties sold was \$1,308,205 for the year ended December 31, 2015. It primarily consisted of the purchase price of property located at Tuen Mun, Hong Kong, legal fees, improvement costs to the building structure and other acquisition costs.

As opportunities permit, management expects to continue to purchase and sell commercial real estate in the near future. Accordingly, we expect revenue and costs attributable to the sale of properties to fluctuate on a going forward basis.

##### General and administrative expenses

General and administrative expenses were \$1,869,494 and \$1,382,424 for the years ended December 31, 2016 and December 31, 2015, respectively. The increase in general and administrative expenses was primarily due to the increase in directors' remuneration and housing allowance, salary, office rent, professional and legal fees. We expect our G&A to continue to increase as we integrate our business acquisitions, expand our offices into Thailand and Australia and deepen our existing businesses.

##### Other Incomes (Expenses)

Other incomes were \$12,064 and \$0 for the years ended December 31, 2016 and December 31, 2015, respectively. Other expenses were \$76,405 and \$52,371 for the years ended December 31, 2016 and December 31, 2015, respectively. The increase was primarily due to the interest expense paid to a shareholder for a loan advance and bank loan borrowed by our subsidiary in Malaysia.

### **Critical Accounting Policies and Estimates**

Our unaudited condensed interim consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States, or US GAAP. The preparation of these unaudited condensed interim consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, costs and expenses and related disclosures. We base our estimates on historical experience, as appropriate, and on various other assumptions that we believe to be reasonable under the circumstances. Changes in the accounting estimates are reasonably likely to occur from period to period. Accordingly, actual results could differ significantly from the estimates made by our management. We evaluate our estimates and assumptions on an ongoing basis. To the extent that there are material differences between these estimates and actual results, our future financial statement presentation, financial condition, results of operations and cash flows will be affected. We believe that the following critical accounting policies involve a greater degree of judgment and complexity than our other accounting policies. Accordingly, these are the policies we believe are the most critical to understanding and evaluating our unaudited condensed interim consolidated financial condition and results of operations.

- Inventory – finished property

Inventory – finished property represents a multi-unit property developed for resale on a unit by unit basis. Inventory is stated at cost unless the inventory is determined to be impaired in which case the impaired inventory is written down to fair value. The cost of inventory – finished property includes the purchase price of property, legal fees, improvement costs to the building structure, and other acquisition costs. Project wide costs such as land acquisition and certain development costs are allocated to the specific units based upon their relative fair value before construction. All property is finished and ready for sale.

In conducting its reviews for indicators of impairment, the Company evaluates, among other things, the margins on units already sold within the project, margins on units under contract but not closed (none as of March 31, 2017 and December 31, 2016), and projected margin on future unit sales. The Company pays particular attention to discern if inventory is moving at a slower than expected pace or where margins are trending downward.

- Investment Property

Investment Property is stated at cost less accumulated depreciation and accumulated impairment losses, if any. Depreciation is calculated on the straight-line basis over the following expected useful lives from the date on which they become fully operational and after taking into account their estimated residual values:

Categories	Expected useful life	Residual value
Leasehold land and buildings	50 years	-
Furniture and fixtures	3 - 10 years	5%
Office equipment	3 - 10 years	5% - 10%
Leasehold improvement	Over the shorter of estimated useful life or term of lease	-

The cost of leasehold land and buildings includes the purchase price of property, legal fees, and other acquisition costs.

- Plant and equipment

Plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Depreciation is calculated on the straight-line basis over the following expected useful lives from the date on which they become fully operational and after taking into account their estimated residual values:

Categories	Expected useful life	Residual value
Furniture and fixtures	3 - 10 years	5%
Office equipment	3 - 10 years	5% - 10%
Leasehold improvement	Over the shorter of estimated useful life or term of lease	-

Expenditures for maintenance and repairs are expensed as incurred. The gain or loss on the disposal of plant and equipment is the difference between the net sales proceeds and the carrying amount of the relevant assets and is recognized in the statement of operations.

- Intangible assets

Intangible assets are stated at cost less accumulated amortization. Intangible assets represented the registration costs of trademarks registered in Hong Kong, the PRC, and Malaysia, which are amortized on a straight-line basis over a useful life of ten year. Intangible assets acquired in business combinations are provisionally considered customer lists amortized on a straight-line basis over a useful life of five year.

The Company follows ASC Topic 350 in accounting for intangible assets, which requires impairment losses to be recorded when indicators of impairment are present and the undiscounted cash flows estimated to be generated by the assets are less than the assets' carrying amounts. There were no impairment losses recorded on intangible assets for the three months ended March 31, 2017 and 2016 and for the year ended December 31, 2016 and 2015

- Goodwill

Goodwill is the excess of cost of an acquired entity over the fair value of amounts assigned to assets acquired and liabilities assumed in a business combination. With the provision of ASC 350 "*Goodwill and Other*", goodwill is not amortized, rather it is tested for impairment annually, and will be tested for impairment between annual tests if an event occurs or circumstances change that would indicate the carrying amount may be impaired. An impairment loss generally would be recognized when the carrying amount of the reporting unit's net assets exceeds the estimated fair value of the reporting unit and would be measured as the excess carrying value of goodwill over the derived fair value of goodwill. The Company's policy is to perform its annual impairment testing for its reporting units on December 31, of each fiscal year.

In assessing the fair value of goodwill, we first make a qualitative assessment of whether it is more likely than not that a reporting unit's fair value is less than its carrying amount before applying the two-step goodwill impairment test. If, after completing our qualitative assessment, we determine that it is more likely than not that the carrying value exceeds estimated fair value, we compare the fair value to our carrying value (including goodwill). If the estimated fair value is greater than the carrying value, we conclude that no impairment exists. If the estimated fair value of the reporting unit is less than the carrying value, a second step is performed in which the implied fair value of goodwill is compared to its carrying value. If the implied fair value of goodwill is less than its carrying value, goodwill must be written down to its implied fair value, resulting in goodwill impairment.

The qualitative analysis included assessing the impact of changes in certain factors including: (1) changes in the overall economy, our market share and market interest rates (2) changes in forecasted operating results and a comparison of actual results to projections, (3) changes in the industry or our competitive environment since the acquisition date.

Based on our qualitative assessment performed during the fourth quarter of 2016, we concluded that it was more likely than not that the estimated fair values of our reporting units exceeded their carrying values as of December 31, 2016 and, therefore, determined it was not necessary to perform the two-step goodwill impairment test.

- Impairment of long-lived assets

Long-lived assets primarily include property, plant and equipment and intangible assets. In accordance with the provision of ASC Topic 360-10-5, “*Impairment or Disposal of Long-Lived Assets*”, the Company generally conducts its annual impairment evaluation to its long-lived assets, usually in the fourth quarter of each year, or more frequently if indicators of impairment exist, such as a significant sustained change in the business climate. The recoverability of long-lived assets is measured at the reporting unit level. If the total of the expected undiscounted future net cash flows is less than the carrying amount of the asset, a loss is recognized for the difference between the fair value and carrying amount of the asset. There has been no impairment charge for the periods presented.

- Investments in unconsolidated entities

Under the equity method of accounting, investments in unconsolidated entities are initially recognized in the consolidated balance sheet at cost and are subsequently adjusted to reflect the Company’s proportionate share of net earnings or losses of the entity, distributions received, contributions and certain other adjustments, as appropriate. The Company’s share of the income or loss of the unconsolidated entity is reflected in the consolidated statements of operations and will increase or decrease, as applicable, the carrying value of the Company’s investments in unconsolidated entities on the consolidated balance sheet.

When the investment cost in an unconsolidated entity is reduced to zero, the Company records no further losses in its consolidated statements of operations unless the Company has an outstanding guarantee obligation or has committed additional funding to the entity. When such entity subsequently reports income, the Company will not record its share of such income until it exceeds the amount of the Company’s share of losses not previously recognized.

- Revenue recognition

The Company recognizes its revenue in accordance with ASC Topic 605, “*Revenue Recognition*”, upon the delivery of its products when: (1) delivery has occurred or services rendered; (2) persuasive evidence of an arrangement exists; (3) there are no continuing obligations to the customer; and (4) the collection of related accounts receivable is probable.

- (a) Rental income

Revenue from rental of leasehold land and buildings are recognized on a straight-line basis over the lease term when collectability is reasonably assured and the tenant has taken possession or controls the physical use of the leased assets.

- (b) Service income

Revenue from the provision of (i) business consulting and advisory services and (ii) company secretarial, accounting and financial review services are recognized when there is (i) an existence of contract or an arrangement (ii) services are rendered, (iii) the service price is fixed or determinable, and (iv) collectability is reasonably assured.

- (c) Sale of properties

Revenue from the sale of properties is recognized at the time each unit is delivered and title and possession are transferred to the buyer. Specifically, the Company utilizes the full accrual method where recognition occurs when (i) the collectability of the sales price is reasonably assured, (ii) the seller is not obligated to perform significant activities after the sale, (iii) the initial investment from the buyer is sufficient, and (iv) the Company recognizes revenue when it satisfies a performance obligation by transferring control of a promised property to a customer.

Revenue on sales of properties may be deferred in whole or in part until the requirements for revenue recognition have been met.

- Cost of revenues

Cost of revenue on rental shown on the accompanying statements of operations include costs associated with government rent and rates, repairs and maintenance, property insurance, depreciation and other related administrative costs. Property management fee and utility expenses are paid directly by tenants.

Costs of revenue on provision of services primarily consist of employee compensation and related payroll benefits, company formation cost and other professional fees directly attributable to cost in relation to the services rendered.

Cost of revenues on sale of properties primarily consist of the purchase price of property, legal fees, improvement costs to the building structure, and other acquisition costs. Selling and advertising costs are expensed as incurred.

- Income taxes

Income taxes are determined in accordance with the provisions of ASC Topic 740, “*Income Taxes*” (“ASC 740”). Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted income tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Any effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

ASC 740 prescribes a comprehensive model for how companies should recognize, measure, present, and disclose in their financial statements uncertain tax positions taken or expected to be taken on a tax return. Under ASC 740, tax positions must initially be recognized in the financial statements when it is more likely than not the position will be sustained upon examination by the tax authorities. Such tax positions must initially and subsequently be measured as the largest amount of tax benefit that has a greater than 50% likelihood of being realized upon ultimate settlement with the tax authority assuming full knowledge of the position and relevant facts.

Furthermore, significant judgment is required in evaluating our tax positions. In the ordinary course of business, there are many transactions and calculations for which the ultimate tax settlement is uncertain. As a result, we recognize the effect of this uncertainty on our tax attributes based on our estimates of the eventual outcome. These effects are recognized when, despite our belief that our tax return positions are supportable, we believe that it is more likely than not that those positions may not be fully sustained upon review by tax authorities. The Company conducts major businesses in Hong Kong, Malaysia and China and is subject to tax in its own jurisdiction. As a result of its business activities, the Company will file separate tax returns that are subject to examination by the foreign tax authorities. Such returns are subject to audit by the various foreign taxing authorities, who may disagree with respect to our tax positions. We believe that our consideration is adequate for all open audit years based on our assessment of many factors, including past experience and interpretations of tax law. We review and update our estimates in light of changing facts and circumstances, such as the closing of a tax audit, the lapse of a statute of limitations or a change in estimate. To the extent that the final tax outcome of these matters differs from our expectations, such differences may impact income tax expense in the period in which such determination is made. The eventual impact on our income tax expense depends in part if we still have a valuation allowance recorded against our deferred tax assets in the period that such determination is made.

- Related parties

Related parties, which can be a corporation or individual, are considered to be related if the Company has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Companies are also considered to be related if they are subject to common control or common significant influence.

- Segment reporting

ASC Topic 280, “ *Segment Reporting* ” establishes standards for reporting information about operating segments on a basis consistent with the Company’s internal organization structure as well as information about geographical areas, business segments and major customers in financial statements. The Company operates in two reportable operating segments in Hong Kong, China, and Malaysia.

#### **Liquidity and Capital Resources**

As of March 31, 2017, we had working capital of \$4,177,782 as compared to working capital of \$3,541,077 as of December 31, 2016. The increase was due to increase in cash and cash equivalents, and prepayment and other receivables. We had total current assets of \$5,909,660 consisting of cash on hand of \$1,459,608 and Inventory – finished property of \$3,747,732 compared to total current assets of \$5,323,480 as of December 31, 2016. The increase was due to the increase in cash and cash equivalents. We had current liabilities of \$1,731,878 consisting of amounts due to related parties of \$1,443,760, and accounts payable and accrued liabilities of \$205,402. The Company’s net loss was \$108,488 and \$235,263 for the three months ended March 31, 2017 and 2016, respectively. The Company’s comprehensive loss was \$114,919 and \$188,753 for the three months ended March 31, 2017 and 2016, respectively. The decrease in net loss and comprehensive loss were due to a significant increase in revenue from the service income as a result of the acquisitions in previous years.

As of March 31, 2017, the Company had cash on hand of \$1,459,608 and expects to be able to maintain its basic operating requirements for approximately twelve months and to meet its current obligations.

As of March 31, 2017, a related party advanced \$1,443,760 to the Company for purchasing the inventory – finished property. This loan carries no interest and is convertible into shares of our common stock in the future at the discretion of the holder.

As of March 31, 2017, our long-term liabilities consist of bank loans from Standard Chartered Saadiq Berhad, with 300 monthly installments of MYR9,287 (approximately \$2,840) each and will mature in May 2038, and from United Overseas Bank (Malaysia) Berhad, with 360 monthly installments of MYR5,382 (approximately \$1,645) each and will mature in August 2043. The maturities of the long-term bank loans for each of the five years and thereafter following March 31, 2017 are as follows:

Year ending March 31:

2018	\$	13,451
2019		14,416
2020		15,040
2021		15,831
2022		16,592
Thereafter		495,180
 Total	\$	 570,510

We believe long maturity and relatively small amounts outstanding for the current portion of our bank loans will not impair our ability to improve our operating margins and regain profitability. Therefore, we believe they do not cause a substantial doubt over going concern.

#### **Operating activities**

Net cash used in operating activities was \$263,089 for the three months ended March 31, 2017 as compared to net cash used in operating activities of \$304,033 for the three months ended March 31, 2016. Less operating cash was used in 2017 because of the decrease in net loss.

The cash used in operating activities in 2017 was mainly from the net loss for the period, an increase in prepayment and other receivables and a decrease in other payable and accrued liabilities, while the cash used in operating activities in 2016 consisted primarily of a net loss for the period, a decrease in payables and accrued liabilities, offset by a decrease in prepayments and other receivables. Non-cash expenses totaled \$40,862 and \$23,125 for the three months ended March 31, 2017 and 2016, respectively, which were primarily composed of depreciation and amortization of \$41,677 and a decrease in surrender charge on life insurance of \$815 for the three months ended March 31, 2017.

The Company has incurred operating losses and used cash in its operating activities for the past two years. In fiscal 2016, the Company suffered an increase in accounts receivable and decrease in other payable and accrued liabilities and deferred revenue, which resulted in negative operating cash flow. The increase in accounts receivable was due to pending receipt of service income. The Company believes it will have an improvement in accounts receivable turnover and accounts payable turnover ratios in fiscal 2017. Nevertheless, the cash inflow may be still insufficient to fund its operations in the ordinary course of business through at least the next twelve months. Moreover, there can be no assurance that the anticipated sales level will be achieved.

#### Investing activities

The Company's net loss was \$222,323 and \$383,772 for the years ended December 31, 2016 and 2015, respectively. The Company's comprehensive loss was \$193,928 and \$299,728 for the years ended December 31, 2016 and 2015, respectively. The decrease in net loss and comprehensive loss were due to a significant increase in revenue from the service income as a result of the acquisitions in 2016.

As of December 31, 2016, the Company had cash on hand of \$1,021,351 and expects to be able to maintain its basic operating requirements for approximately twelve months and to meet its current obligations.

2018	14,085
2019	14,762
2020	15,402
2021	16,212
Thereafter	493,668
Total	\$ 567,171

We believe the long maturity and relatively small amount outstanding for the current portion of bank loans will not impair our ability to improve our operating margins and regain profitability, and we therefore believe they do not cause the substantial doubt over going concern.

#### Operating activities

Net cash used in operating activities was \$502,390 for the year ended December 31, 2016 as compared to net cash used in operating activities of \$3,390,397 for the year ended December 31, 2015. The decrease in cash used in operations is because we did not purchase property in 2016, as we did in 2015.

The cash used in operating activities in 2016 was mainly from the net loss for the year, increase in accounts receivable and decrease in other payable and accrued liabilities. Non-cash expenses totaled \$153,385 and \$128,083 for the years ended December 31, 2016 and 2015, respectively, which were primarily composed of depreciation and amortization of \$167,204, a surrender charge on life insurance of \$19,226 and a share of loss on investments in unconsolidated entities of \$9,007 for the year ended December 31, 2016.

The Company has incurred operating losses and used cash in its operating activities for the past two years. Cash was mainly used to acquire the inventory and repay the liabilities in 2015 and 2016, respectively. In fiscal 2015, the Company initiated and executed a plan to acquire several properties as inventory, which the Company paid the purchase price of the properties, legal fees, improvement costs to the building structure, and other acquisition costs. All properties were finished and ready for sale. In fiscal 2016, the Company suffered an increase in accounts receivable and decrease in other payable and accrued liabilities and deferred revenue, which resulted in negative operating cash flow. The increase in accounts receivable was due to pending receipt of service income, but at least half of the accounts receivable were collected after December 31, 2016. The Company believes it will have an improvement in accounts receivable turnover and accounts payable turnover ratios in fiscal 2017. Nevertheless, the cash inflow may be still insufficient to fund its operations in the ordinary course of business through at least the next twelve months. Moreover, there can be no assurance that the anticipated sales level will be achieved.

#### Investing activities

Net cash used in investing activities was \$14,566 and \$151,774 for the years ended December 31, 2016 and December 31, 2015, respectively.

The cash used in investing activities were mainly for the purchase of property, plant and equipment of \$16,126 in 2016 and \$20,846 in 2015.

#### Financing activities

Net cash used in financing activities was \$46,162 for the year ended December 31, 2016 and net cash provided by financing activities was \$4,548,865 for the year ended December 31, 2015. The cash used in financing activities was mainly resulted from the repayment of a loan to shareholders and directors of \$787,008 in 2016.

We believe the factors of the long maturity and relatively small amount for current portion of bank loans will not impair our ability to improve our operating margins and regain profitability, and we therefore believe they do not cause the substantial doubt over going concern

Below is the tabular summary of the financing activities of the Company during 2016 and 2015:

There is a growing market in East Asia and South-East Asia, and to an extent this trend continues worldwide, of companies who are seeking to go public and become listed on a recognized exchange in a foreign jurisdiction. With respect to cross border listing advisory services, we are assisting private companies in their desire to list and trade on public exchanges, including the U.S. OTC markets. The Jumpstart Our Business Startups Act, or JOBS Act, signed in 2012, eases the initial public offering (“IPO”) process for “emerging growth companies” and reduces their regulatory burden, (2) improves the ability of these companies to access capital through private offerings and small public offerings without SEC registration, and (3) allows private companies with a substantial shareholder base to delay becoming a public reporting company.

Through our cross border listing advisory services, we seek to form the bridge between these companies seeking to conduct their IPO (or in some cases self-directed public offerings), and their goal of becoming a listed company on a recognized U.S. national exchange, such as NASDAQ and the NYSE.

While there are several alternatives for companies seeking to go public and trade on the U.S. OTC markets, we primarily focus on three methods:

- Registration Statement on Form S-1
- Regulation A+ offering
- The Form 10 shell company

The manner in which the OTC markets are structured provides companies the ability to “move up” in the marketplace as they provide better transparency. These markets include:

- OTCQX Best Marketplace: offers transparent and efficient trading of established, investor-focused U.S. and global companies.
- OTCQB Venture Marketplace: for early-stage and developing U.S. and international companies that are not yet able to qualify for OTCQX.
- OTC Pink Open Marketplace: offers trading in a wide spectrum of securities through any broker. With no minimum financial standards, this market includes foreign companies that limit their disclosure, penny stocks and shells, as well as distressed, delinquent, and dark companies not willing or able to provide adequate information to investors.

We act as a case reference for our clients, in which we first list on OTC market and subsequently uplist to a U.S. national exchange.

With growing competition and increasing economic sophistication, we believe more companies need strategies for cross-border restructuring and other corporate matters. Our plan is to bundle our Cross Border Business Solution services with our Cloud Accounting Solution and Accounting Outsourcing Services described below.

#### *Accounting Outsourcing Services*

We intend to develop relationships with professional firms from Hong Kong, Malaysia and China that can provide company secretarial, business centers and virtual offices, book-keeping, tax compliance and planning, payroll management, business valuation, and wealth management services to our clients. We intend to include local accounting firms within this network to provide general accounting, financial evaluation and advisory services to our clients. Our expectation is that firms within our professional network will refer their international clients to us that may need our book-keeping, payroll, company secretarial and tax compliance services. We believe that this accounting outsourcing service arrangement will be beneficial to our clients by providing a convenient, one-stop firm for their local and international business and financial compliance and governance needs.

## Our Service Rates

We intend to have a two-tiered rate system based upon the type of services being offering. We may impose project-based fees, where we charge 10% - 25% of the revenues generated by the client on projects that are completed using our services, such as transaction projects, contract compliance projects, and business planning projects. We may also charge a flat rate fee or fixed fee based on the estimated complexity and timing of a project when our professionals provide specified expertise to our clients on a project. For example, for the Cross-Border Business Solutions, we plan to charge our client a monthly fixed fee.

## Our Venture Capital Business Segment

### *Venture Capital Investment*

As a result of our acquisition of Greenpro Venture Capital Limited (“GPVC”) in 2015, we entered the venture capital business in Hong Kong with a focus on companies located in Asia and South-East Asia, including Hong Kong, Malaysia, China, Thailand and Singapore. Our venture capital business is focused on (1) establishing a business incubator for start-up and high growth companies to support such companies during critical growth periods and (2) investment opportunities in select start-up and high growth companies.

We believe that a company’s life cycle can be divided into five stages, including the seed stage, start up stage, expansion stage, mature stage and decline stage.

- Seed stage: Financing is needed for assets, and research and development of an initial business concept. The company usually has relatively low costs in developing the business idea. The ownership model is considered and implemented.
- Start-up stage: Financing is needed for product development and initial marketing. Firms in this phase may be in the process of setting up a business or they might have been in operating the business for a short period of time, but may not have sold their products commercially. In this phase, costs are increasing due to product development, market research and the need to recruit personnel. Low levels of revenues are starting to generate.
- Expansion stage: Financing is needed for growth and expansion. Capital may be used to finance increased production capacity, product or marketing development or to hire additional personnel. In the early expansion phase, sales and production increases but there is not yet any profit. In the later expansion stage, the business typically needs extra capital in addition to organically generated profit, for further development, marketing or product development.

We anticipate that most of a company’s funding needs will occur during these first three stages.

We intend for our business incubators to provide valuable support to young, emerging growth and potential high growth companies at critical junctures of their development. For example, our incubators will offer office space at a below market rental rate. We will also provide our expertise, business contacts, introductions and other resources to assist their development and growth. Depending on each individual circumstance, we may also take an active advisory role in our venture capital companies including board representation, strategic marketing, corporate governance, and capital structuring. We believe that there will be potential investment opportunities for us in these start-up companies.

In addition to our business incubator, we have also taken an equity position in the following companies that we believe have high growth potential.

Name	Equity Ownership	Business Line
Rito Group Corp.(Nevada, USA)	29.5 %	Providing an online platform for merchants and customers to facilitate transactions
Forward Win International Limited(Hong Kong)	60 %	Holding Hong Kong real estate for investment purpose

Our business processes for our investment strategy in select start-up and high growth companies is as follows:

- Step 1. Generating Deal Flow: We expect to actively search for entrepreneurial firms and to generate deal flow through our business incubator and the personal contacts of our executive team. We also anticipate that entrepreneurs will approach us for financing.
- Step 2. Investment Decision: We will evaluate, examine and engage in due diligence of a prospective portfolio company, including but not limited to product/services viability, market potential and integrity as well as capability of the management. After that both parties arrive at an agreed value for the deal. Following that is a process of negotiation, which if successful, ends with capital transformation and restructuring.
- Step 3. Business Development and Value Adding: In addition to capital contribution, we expect to provide expertise, knowledge and relevant business contacts to the company.
- Step 4. Exit: There are several ways to exit an investment in a company. Common exits are:
  - IPO (Initial Public Offering): The company's shares are offered in a public sale on an established securities market.
  - Trade sale (Acquisition): The entire company is sold to another company.
  - Secondary sale: The company's firm sells only part of its shares..
  - Buyback or MBO: Either the entrepreneur or the management of the company buys back the company's shares of the firm.
  - Reconstruction, liquidation or bankruptcy: If the project fails the company will restructure or close down the operations.

Our objective is to achieve a superior rate of return through the eventual and timely disposal of investments. We intend to invest in businesses that meet the following criteria:

- high growth prospects;
- ambitious teams;
- viability of product or service;
- experienced management;
- ability to convert plans into reality; and
- justification of venture capital investment and investment criteria.

#### *Our Venture Capital Related Education and Support Services.*

In addition to providing venture capital services through GPVC, we also provide educational and support services that we believe will be synergistic with our venture capital business. We have arranged few seminars called the CEO & Business Owners Strategic Session (“CBOSS”) in Malaysia and Singapore for business owners who are interested in the following:

- Developing their business globally;
- Expanding business with increased capital funding;
- Creating a sustainable SME business model;
- Accelerating the growth of the business; or
- Significantly increasing company cash flows.

The objective the CBOSS seminar is to educate the chief executive officers or business owners on how to acquire “smart capital” and the considerations involved. The seminar includes an introduction to the basic concepts of “smart capital,” “wealth and value creation,” recommendation and planning and similar topics. We believe that this seminar will synergistically support our venture capital business segment.

#### Sales and Marketing

We plan to deploy three strategies to market the Greenpro brand: leadership, market segmentation and sales management process development.

- *Building Brand Image:* Greenpro’s marketing efforts will focus on building the image of our extensive expertise and knowledge of our professionals. We intend to conduct a marketing campaign through media visibility, seminars, webinars, and the creation of a wide variety of white papers, newsletters, books, and other information.
- *Market segmentation:* We plan to devote marketing resources to the highly measurable and high return on investment tactics that specifically target those industries and areas where Greenpro has particularly deep experience and capabilities. These efforts typically involve local, regional or national trade show and event sponsorships, targeted direct mail, email, and telemarketing campaigns, and practice and industry specific micro-sites and newsletters in the Asia region.
- *Social Media:* We plan to begin a social media campaign utilizing blogs, Twitter, Facebook and LinkedIn after we secure sufficient financing. A targeted campaign will be made to the following groups of clients: law firms, auditing firms, consulting firms and small to medium-size enterprises in different industries, including biotechnology, intellectual property, information technologies and real estate.

## Market Opportunities

We believe the main drivers for the growth of our business are the products and services together with the resources such as an office network, professional staff members and operational tools to make the advisory and consulting business more competitive.

We intend to assist our clients in the cost-effective preparation of their financial statements and provide security based on such financial information since the data will be stored in the cloud system. We anticipate a market with growing needs in East Asia and South-East Asia. We believe that there is currently an increasing need for enterprises in different industries to maximize their performance with cost-effective methods. We believe our services will create numerous competitive advantages for our clients. We believe that with us handling the administrative and logistic support, our clients can focus on developing their businesses and expanding their own client portfolio.

## Customers

Our revenues are generated from clients located globally, including those from Hong Kong, China, Malaysia, Singapore, Indonesia, Thailand, Australia, Japan, Taiwan, Russia and the United States. Our venture capital business segment will initially focus on Hong Kong and South-East Asia start-ups and high growth companies. We hope to generate deal flow through personal contacts of our management team as well as through our business incubator.

We generated net revenues of \$2,776,435 during the fiscal year ended December 31, 2016 and \$775,323 for the three-month period ended March 31, 2017. Our venture capital business accounted for approximately two percent of our net revenue. We are not a party to any long-term agreements with our customers.

## Competition

We operate in a mature, competitive industry. We consider our focus to be on a niche market of small and medium-sized businesses. Competition in the general field of business advisory services is quite intense, particularly in Hong Kong. We face competition principally from established law firms and consulting service providers in the corporate finance industry, such as Marbury, King & Wood Mallesons, QMIS Financial Group, First Asia Finance Group Limited and their respective affiliates, as well as from certain accounting firms, including those that specialize in a tax planning and corporate restructuring. The competition in China and Malaysia is not as fierce as in Hong Kong. Our major competitors in China are JP Investment Group and QMIS Financial Group while our major competitors in Malaysia are Global Bridge Management Sdn Bhd and QMIS Financial Group. These competitors generate significant traffic and have established brand recognition and financial resources. New or existing competition that uses a business model that is different from our business model may apply pressure on us to change so that we can remain competitive.

We believe that the principal competitive factors in our market include quality of analysis; applicability and efficacy of recommendations; strength and depth of relationships with clients; ability to meet the changing needs of current and prospective clients; and service scope. By utilizing our competitive strengths, we believe that we have a competitive edge over other competitors due to the breadth of our service offerings, one stop convenience, pricing, marketing expertise, coverage network, service levels, track record, brand and reputation. We are confident we can retain and enlarge our market share.

## Intellectual Property

We intend to protect our investment in the research and development of our products and technologies. We intend to seek the widest possible protection for significant product and process developments in our major markets through a combination of trade secrets, trademarks, copyrights and patents, if applicable. We anticipate that the form of protection will vary depending upon the level of protection afforded by a particular jurisdiction. Currently, our revenue is derived principally from our operations in Hong Kong, China and Malaysia, where intellectual property protection may be limited and difficult to enforce. In such instances, we may seek protection of our intellectual property through measures taken to increase the confidentiality of intellectual property.

We have registered trademarks as a means of protecting the brand names of our companies and products. We intend to protect our trademarks against infringement and also seek to register design protection where appropriate. Currently, there are six trademarks registered under the name of Greenpro Resources (HK) Limited.

Trademark Owner	Country / Territory	Registration Date	Brief Description
Greenpro Resources (HK) Limited	Hong Kong	August 11, 2010 and June 25, 2013	Advertising, business management, business administration, office functions, research services, education, training
	The U.S.	February 2, 2016	Business administration services, Business assistance, management and information services, Business knowledge management and consulting services
	China	December 28, 2014	Advertising, business management, business administration, office functions and research services
	Singapore	July 22, 2013	Advisory services related to business management and administration, computer software and security

We rely on trade secrets and un-patentable know-how that we seek to protect, in part, by confidentiality agreements. Our policy is to require all employees to execute confidentiality agreements upon the commencement of employment with us. These agreements provide that all confidential information developed or made known to the individual during the course of the individual's relationship with us is to be kept confidential and not disclosed to third parties except in specific limited circumstances. The agreements also provide that all inventions conceived by the individual while rendering services to us shall be assigned to us as the exclusive property of our company. There can be no assurance, however, that all persons who we desire to sign such agreements will sign, or if they do, that these agreements will not be breached, that we would have adequate remedies for any breach, or that our trade secrets or unpatentable know-how will not otherwise become known or be independently developed by competitors.

#### Government Regulation

We provide our Package Solution initially in Hong Kong, China and Malaysia, which we believe are locations that would need outsourcing support services. Further, we believe these markets are the central and regional markets for many customers doing cross border business in Asia. We target those customers from East Asia and South-East Asia doing international business and plan to provide our Package Solution to meet their needs. Our planned Packaged Solution will be structured in Hong Kong but services may be outsourced to lower cost jurisdictions such as Malaysia and China, which encourage and welcome outsourcing services.

The following regulations are the laws and regulations that may be applicable to us:

#### *Hong Kong*

Our businesses located in Hong Kong are subject to the general laws in Hong Kong governing businesses, including labor, occupational safety and health, general corporations, intellectual property and other similar laws. Because our website is maintained through the server in Hong Kong, we expect that we will be required to comply with the rules of regulations of Hong Kong governing the data usage and regular terms of service applicable to our potential customers. As the information of our potential customers is preserved in Hong Kong, we will need to comply with the Hong Kong Personal Data (Privacy) Ordinance (Cap 486).

The Employment Ordinance is the main piece of legislation governing conditions of employment in Hong Kong. It covers a comprehensive range of employment protection and benefits for employees, including Wage Protection, Rest Days, Holidays with Pay, Paid Annual Leave, Sickness Allowance, Maternity Protection, Statutory Paternity Leave, Severance Payment, Long Service Payment, Employment Protection, Termination of Employment Contract, Protection Against Anti-Union Discrimination.

An employer must also comply with all legal obligations under the Mandatory Provident Fund Schemes Ordinance, (Cap 485). These include enrolling all qualifying employees in Mandatory Provident Fund ("MPF") schemes and making MPF contributions for them. Except for exempt persons, employer should enroll both full-time and part-time employees who are at least 18 but under 65 years of age in an MPF scheme within the first 60 days of employment. The 60-day employment rule does not apply to casual employees in the construction and catering industries.

We are required to make MPF contributions for our Hong Kong employees once every contribution period (generally the wage period). Employers and employees are each required to make regular mandatory contributions of 5% of the employee's relevant income to an MPF scheme, subject to the minimum and maximum relevant income levels. For a monthly-paid employee, the minimum and maximum relevant income levels are \$7,100 and \$30,000 respectively.

We are in compliance with the above applicable ordinances and regulations in Hong Kong and have not involved any lawsuit or prosecuted by the local authority resulting from any breach of the ordinances and regulations.

#### *Malaysia*

Our businesses located in Malaysia are subject to the general laws in Malaysia governing businesses including labor, occupational safety and health, general corporations, intellectual property and other similar laws including the Computer Crime Act 1997 and The Copyright (Amendment) Act 1997. We believe that the focus of these laws is censorship in Malaysia, however we believe this does not impact our businesses because the censorship focus is on media controls and does not relate to cloud based technology we plan to use.

Our real estate investments are subject to extensive local, city, county and state rules and regulations regarding permitting, zoning, subdivision, utilities and water quality as well as federal rules and regulations regarding air and water quality and protection of endangered species and their habitats. Such regulation may result in higher than anticipated administrative and operational costs.

We are in compliance with the above applicable ordinances and regulations in Malaysia and have not involved any lawsuit or prosecuted by the local authority resulting from any breach of the ordinances and regulations.

#### *China*

A portion of our acquired businesses is located in China and subject to the general laws in China governing businesses including labor, occupational safety and health, general corporations, intellectual property and other similar laws.

#### Employment Contracts

The Employment Contract Law was promulgated by the National People's Congress' Standing Committee on June 29, 2007 and took effect on January 1, 2008. The Employment Contract Law governs labor relations and employment contracts (including the entry into, performance, amendment, termination and determination of employment contracts) between domestic enterprises (including foreign-invested companies), individual economic organizations and private non-enterprise units (collectively referred to as the "employers") and their employees.

##### a. Execution of employment contracts

Under the Employment Contract Law, an employer is required to execute written employment contracts with its employees within one month from the commencement of employment. In the event of contravention, an employee is entitled to receive double salary for the period during which the employer fails to execute an employment contract. If an employer fails to execute an employment contract for more than 12 months from the commencement of the employee's employment, an employment contract would be deemed to have been entered into between the employer and employee for a non-fixed term.

##### b. Right to non-fixed term contracts

Under the Employment Contract Law, an employee may request for a non-fixed term contract without an employer's consent to renew. In addition, an employee is also entitled to a non-fixed term contract with an employer if he has completed two fixed term employment contracts with such employer; however, such employee must not have committed any breach or have been subject to any disciplinary actions during his employment. Unless the employee requests to enter into a fixed term contract, an employer who fails to enter into a non-fixed term contract pursuant to the Employment Contract Law is liable to pay the employee double salary from the date the employment contract is renewed.

##### c. Compensation for termination or expiry of employment contracts

Under the Employment Contract Law, employees are entitled to compensation upon the termination or expiry of an employment contract. Employees are entitled to compensation even in the event the employer (i) has been declared bankrupt; (ii) has its business license revoked; (iii) has been ordered to cease or withdraw its business; or (iv) has been voluntarily liquidated. Where an employee has been employed for more than one year, the employee will be entitled to such compensation equivalent to one month's salary for every completed year of service. Where an employee has employed for less than one year, such employee will be deemed to have completed one full year of service.

d. Trade union and collective employment contracts

Under the Employment Contract Law, a trade union may seek arbitration and litigation to resolve any dispute arising from a collective employment contract; provided that such dispute failed to be settled through negotiations. The Employment Contract Law also permits a trade union to enter into a collective employee contract with an employer on behalf of all the employees.

Where a trade union has not been formed, a representative appointed under the recommendation of a high-level trade union may execute the collective employment contract. Within districts below county level, collective employment contracts for industries such as those engaged in construction, mining, food and beverage and those from the service sector, etc., may be executed on behalf of employees by the representatives from the trade union of each respective industry. Alternatively, a district-based collective employment contract may be entered into.

As a result of the Employment Contract Law, all of our employees have executed standard written employment agreements with us. We have not experienced any significant labor disputes or any difficulties in recruiting staff for our operations.

On October 28, 2010, the National People's Congress of China promulgated the PRC Social Insurance Law, which became effective on July 1, 2011. In accordance with the PRC Social Insurance Law, the Interim Regulations on the Collection and Payment of Social Security Fund and other relevant laws and regulations, China establishes a social insurance system including basic pension insurance, basic medical insurance, work-related injury insurance, unemployment insurance and maternity insurance. An employer shall pay the social insurance for its employees in accordance with the rates provided under relevant regulations and shall withhold the social insurance that should be assumed by the employees. The authorities in charge of social insurance may request an employer's compliance and impose sanctions if such employer fails to pay and withhold social insurance in a timely manner. Under the Regulations on the Administration of Housing Fund effective in 1999, as amended in 2002, PRC companies must register with applicable housing fund management centers and establish a special housing fund account in an entrusted bank. Both PRC companies and their employees are required to contribute to the housing funds.

The Ministry of Human Resources and Social Security promulgated the Interim Provisions on Labor Dispatch on January 24, 2014. The Interim Provisions on Labor Dispatch, which became effective on March 1, 2014, sets forth that labor dispatch should only be applicable to temporary, auxiliary or substitute positions. Temporary positions shall mean positions subsisting for no more than six months, auxiliary positions shall mean positions of non-major business that serve positions of major businesses, and substitute positions shall mean positions that can be held by substitute employees for a certain period of time during which the employees who originally hold such positions are unable to work as a result of full-time study, being on leave or other reasons. The Interim Provisions further provides that, the number of the dispatched workers of an employer shall not exceed 10% of its total workforce, and the total workforce of an employer shall refer to the sum of the number of the workers who have executed labor contracts with the employer and the number of workers who are dispatched to the employer.

Foreign Exchange Control and Administration

Foreign exchange in China is primarily regulated by:

- The Foreign Currency Administration Rules (1996), as amended; and
- The Administration Rules of the Settlement, Sale and Payment of Foreign Exchange (1996), or the Administration Rules.

Under the Foreign Currency Administration Rules, if documents certifying the purposes of the conversion of RMB into foreign currency are submitted to the relevant foreign exchange conversion bank, the RMB will be convertible for current account items, including the distribution of dividends, interest and royalties payments, and trade and service-related foreign exchange transactions. Conversion of RMB for capital account items, such as direct investment, loans, securities investment and repatriation of investment, however, is subject to the approval of SAFE or its local counterpart.

Under the Administration Rules for the Settlement, Sale and Payment of Foreign Exchange, foreign-invested enterprises may only buy, sell and/or remit foreign currencies at banks authorized to conduct foreign exchange business after providing valid commercial documents and, in the case of capital account item transactions, obtaining approval from SAFE or its local counterpart.

As an offshore holding company with a PRC subsidiary, we may (i) make additional capital contributions to our PRC subsidiaries, (ii) establish new PRC subsidiaries and make capital contributions to these new PRC subsidiaries, (iii) make loans to our PRC subsidiaries or consolidated affiliated entities, or (iv) acquire offshore entities with business operations in China in offshore transactions. However, most of these uses are subject to PRC regulations and approvals. For example:

- Capital contributions to our PRC subsidiaries, whether existing or newly established ones, must be approved by the Ministry of Commerce or its local counterparts;
- Loans by us to our PRC subsidiaries, each of which is a foreign-invested enterprise, to finance their activities cannot exceed statutory limits and must be registered with SAFE or its local branches; and
- Loans by us to our consolidated affiliated entities, which are domestic PRC entities, must be approved by the National Development and Reform Commission and must also be registered with SAFE or its local branches.

On August 29, 2008, SAFE promulgated the Circular on the Relevant Operating Issues concerning the Improvement of the Administration of Payment and Settlement of Foreign Currency Capital of Foreign-invested Enterprises, or “Circular 142”. ## **Family Relationships**

There are no family relationships between any of our directors or executive officers.

## **Board of Directors**

All directors hold office until the next annual meeting of shareholders and until their successors have been duly elected and qualified. Directors are elected at the annual meetings to serve for one-year terms. Officers are elected by, and serve at the discretion of, the board of directors. Our board of directors shall hold meetings on at least a quarterly basis.

The board of directors has determined to comply with the NASDAQ Listing Rules with respect to certain corporate governance matters. As a smaller reporting company, under the NASDAQ rules we are only required to maintain a board of directors comprised of at least 50% independent directors, and an audit committee of at least two members, comprised solely of independent directors who also meet the requirements of Rule 10A-3 under the Securities Exchange Act of 1934.

## **Director Independence**

Based on this review, the board of directors determined that each of Chuchottaworn Srirat, Hee Chee Keong, Shum Albert, Chin Kiew Kwong and How Kok Choong are independent within the meaning of the NASDAQ rules. In making this determination, our board of directors considered the relationships that each of these non-employee directors has with us and all other facts and circumstances our board of directors deemed relevant in determining their independence. ### **Audit Committee**

Our Audit Committee was established on March 23, 2016 and is comprised of three of our independent directors: Hee Chee Keong (Chairman), Shum Albert and Chin Kiew Kwong. Hee Chee Keong qualifies as the Audit Committee financial expert as defined in Item 407(d)(5) of Regulation S-K promulgated under the Securities Act.

According to its charter, the Audit Committee consists of at least three members, each of whom shall be a non-employee director who has been determined by the Board to meet the independence requirements of NASDAQ, and also Rule 10A-3(b)(1) of the SEC, subject to the exemptions provided in Rule 10A-3(c). We do not have a website containing a copy of the Audit Committee Charter. The Audit Committee Charter describes the primary functions of the Audit Committee, including the following:

- Oversee the Company's accounting and financial reporting processes;
- Oversee audits of the Company's financial statements;
- Discuss policies with respect to risk assessment and risk management, and discuss the Company's major financial risk exposures and the steps management has taken to monitor and control such exposures;

## **Board Leadership Structure and Role in Risk Oversight**

Mr. Lee Chong Kuang holds the positions of chief executive officer and chairman of the board of the Company. The board believes that Mr. Lee's services as both chief executive officer and chairman of the board is in the best interest of the Company and its shareholders. Mr. Lee possesses detailed and in-depth knowledge of the issues, opportunities and challenges facing the Company in its business and is thus best positioned to develop agendas that ensure that the Board's time and attention are focused on the most critical matters relating to the business of the Company. His combined role enables decisive leadership, ensures clear accountability, and enhances the Company's ability to communicate its message and strategy clearly and consistently to the Company's shareholders, employees and customers.

The board has not designated a lead director. Given the limited number of directors comprising the Board, the independent directors call and plan their executive sessions collaboratively and, between meetings of the Board, communicate with management and one another directly. Under these circumstances, the directors believe designating a lead director to take on responsibility for functions in which they all currently participate might detract from rather than enhance performance of their responsibilities as directors.

Management is responsible for assessing and managing risk, subject to oversight by the board of directors. The board oversees our risk management policies and risk appetite, including operational risks and risks relating to our business strategy and transactions. Various committees of the board assist the board in this oversight responsibility in their respective areas of expertise.

- The Audit Committee assists the board with the oversight of our financial reporting, independent auditors and internal controls. It is charged with identifying any flaws in business management and recommending remedies, detecting fraud risks and implementing anti-fraud measures. The audit committee further discusses Greenpro policies with respect to risk assessment and management with respect to financial reporting.
- The Compensation Committee oversees compensation, retention, succession and other human resources-related issues and risks.
- The Corporate Governance and Nominating Committee overviews risks relating to our governance policies and initiatives.

#### **Code of Business Conduct and Ethics**

Our board of directors has adopted a code of ethics that applies to all of our directors, officers and employees, including our principal executive officer, principal financial officer and principal accounting officer. The code addresses, among other things, honesty and ethical conduct, conflicts of interest, compliance with laws, regulations and policies, including disclosure requirements under the federal securities laws, confidentiality, trading on inside information, and reporting of violations of the code. The code of ethics is available on the Company's website at [www.greenprocapital.com](http://www.greenprocapital.com).

## SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth, as of August 2, 2017, certain information concerning the beneficial ownership of our common stock by (i) each stockholder known by us to own beneficially five percent or more of our outstanding common stock or series a common stock; (ii) each director; (iii) each named executive officer; and (iv) all of our executive officers and directors as a group, and their percentage ownership and voting power.

The information presented below regarding beneficial ownership of our voting securities has been presented in accordance with the rules of the Securities and Exchange Commission and is not necessarily indicative of ownership for any other purpose. Under these rules, a person is deemed to be a “beneficial owner” of a security if that person has or shares the power to vote or direct the voting of the security or the power to dispose or direct the disposition of the security. A person is deemed to own beneficially any security as to which such person has the right to acquire sole or shared voting or investment power within sixty (60) days through the conversion or exercise of any convertible security, warrant, option, or other right. More than one (1) person may be deemed to be a beneficial owner of the same securities. The percentage of beneficial ownership by any person as of a particular date is calculated by dividing the number of shares beneficially owned by such person, which includes the number of shares as to which such person has the right to acquire voting or investment power within sixty (60) days, by the sum of the number of shares outstanding as of such date. Consequently, the denominator used for calculating such percentage may be different for each beneficial owner. Except as otherwise indicated below and under applicable community property laws, we believe that the beneficial owners of our common stock listed below have sole voting and investment power with respect to the shares shown.

The column entitled “Percentage of Shares Beneficially Owned — Before Offering” is based on a total of 53,233,960 shares of our common stock outstanding on August 2, 2017. ### **Control Share Acquisitions**

The "control share" provisions of Sections 78.378 to 78.3793, inclusive, of the NRS, apply to "issuing corporations" that are Nevada corporations with at least 200 stockholders of record, including at least 100 stockholders of record who are Nevada residents, and that conduct business directly or indirectly in Nevada, unless the corporation has elected to not be subject to these provisions. The control share statute prohibits an acquirer of shares of an issuing corporation, under certain circumstances, from voting its shares of a corporation's stock after crossing certain ownership threshold percentages, unless the acquirer obtains approval of the target corporation's disinterested stockholders. The statute specifies three thresholds: (a) one-fifth or more but less than one-third, (b) one-third but less than a majority, and (c) a majority or more, of the outstanding voting power. Generally, once a person acquires shares in excess of any of the thresholds, those shares and any additional shares acquired within 90 days thereof become "control shares" and such control shares are deprived of the right to vote until disinterested stockholders restore the right. These provisions also provide that if control shares are accorded full voting rights and the acquiring person has acquired a majority or more of all voting power, all other stockholders who do not vote in favor of authorizing voting rights to the control shares are entitled to demand payment for the fair value of their shares in accordance with statutory procedures established for dissenters' rights. A corporation may elect to not be governed by, or "opt out" of, the control share provisions by making an election in its articles of incorporation or bylaws, provided that the opt-out election must be in place on the 10th day following the date an acquiring person has acquired a controlling interest, that is, crossing any of the three thresholds described above. We have not opted out of these provisions and will be subject to the control share provisions of the NRS if we meet the definition of an issuing corporation upon an acquiring person acquiring a controlling interest unless we later opt out of these provisions and the opt out is in effect on the 10th day following such occurrence.

The effect of the Nevada control share statute is that the acquiring person, and those acting in association with the acquiring person, will obtain only such voting rights in the control shares as are conferred by a resolution of the stockholders at an annual or special meeting. The Nevada control share law, if applicable, could have the effect of discouraging takeovers of our company.

## **SHARES ELIGIBLE FOR FUTURE SALE**

Prior to this offering, only a limited public market for our common stock existed on the OTCQB. Future sales of substantial amounts of our common stock in the public market, including shares issued upon exercise of outstanding warrants, or the anticipation of such sales, could adversely affect prevailing market prices of our common stock from time to time and could impair our ability to raise equity capital in the future.

Upon the closing of this offering, assuming a public offering price of \$[●] per share, which is set forth on the cover page of this prospectus, we will have [●] shares of our common stock issued and outstanding assuming the minimum offering amount is sold and [●] shares of our common stock issued and outstanding assuming the maximum offering amount is sold. In addition we will have outstanding [●] shares of common stock issuable upon the exercise of the Placement Agent's Warrants assuming the minimum offering amount is sold and [●] shares of our common stock issued and outstanding assuming the maximum offering amount is sold.

All of the shares sold in this offering will be freely tradable unless purchased by our "affiliates," as that term is defined in Rule 144 under the Securities Act of 1933, as amended, or the Securities Act.

### **Lock-Up**

For further details on the lock-up agreements, see the section entitled "Plan of Distribution — Lock Up Agreements."

### **Rule 144**

In general, under Rule 144 of the Securities Act, as in effect on the date of this prospectus, any person who is not our affiliate at any time during the preceding three months, and who has beneficially owned their shares for at least six months, including the holding period of any prior owner other than one of our affiliates, would be entitled to sell an unlimited number of shares of our common stock provided current public information about us is available, and, after owning such shares for at least one year, including the holding period of any prior owner other than one of our affiliates, would be entitled to sell an unlimited number of shares of our common stock without restriction.

A person who is our affiliate or who was our affiliate at any time during the preceding three months, and who has beneficially owned restricted securities for at least six months, including the holding period of any prior owner other than one of our affiliates, is entitled to sell within any three-month period a number of shares that does not exceed the greater of:

- one percent (1%) of the number of shares of our common stock then outstanding, which will equal approximately [●] shares assuming all of the shares of common stock offered hereby are sold, or
- the average weekly trading volume of our common stock during the four calendar weeks preceding the filing of a Notice of Proposed Sale of Securities pursuant to Rule 144 with respect to the sale.

Sales under Rule 144 by our affiliates are also subject to manner of sale provisions and notice requirements and to the availability of current public information about us.

## PLAN OF DISTRIBUTION

In connection with this offering, we will enter into a placement agency agreement with Network 1 Financial Securities, Inc., which we sometimes refer to herein as the Placement Agent. The Placement Agent is not purchasing or selling any securities offered by this prospectus but will assist us in this offering on a "best efforts" basis. The Placement Agent is no obligation to buy any of the common stock from us nor are they required to arrange the purchase or sale of any specific number or dollar amount of the common stock, but have agreed to use their "best efforts" to arrange for the sale of a minimum of [●] shares of common stock and a maximum of [●] shares of common stock. The Placement Agent may retain other brokers or dealers to act as sub-agents on its behalf in connection with this offering and may pay any sub-agent a solicitation fee with respect to any securities placed by it. Affiliates of the company and affiliates and associated persons of the Placement Agent may invest in this offering on the same terms and conditions as the public investors participating in this offering, and any common stock purchased will make up a portion of the minimum offering needed to complete this offering.

The shares of common stock are being offered on a "best efforts" basis, meaning that the Placement Agent is not obligated to purchase any common stock. No common stock will be sold unless at least a minimum of [●] shares of common stock have been sold no later than \_\_\_\_\_. All monies collected for subscriptions will be held in a separate escrowed bank account at \_\_\_\_\_, which is serving as escrow agent, until the total amount of [●] shares of common stock have been sold. Any checks for the purchase of shares should be made payable to "\_\_\_\_\_ Escrow Account." The Placement Agent will instruct their customers to transfer funds from their respective accounts directly to the escrow agent by wire transfer and will instruct other purchasers of the shares to make checks payable to "\_\_\_\_\_ Escrow Account." Upon receipt of funds sufficient for the sale of [●] shares and satisfaction of all other closing conditions, the funds may be transferred to our business account. In the event the minimum total of [●] shares is not sold prior to \_\_\_\_\_, all monies will be returned to investors, without interest or deduction, within one business day.

### **Fees and Expenses**

The following table shows the public offering price, placement agent commissions and proceeds, before expenses, to us.

	<b>Price per Share</b>	<b>Commission per Share</b>	<b>Proceeds to Greenpro</b>
Minimum Offering ([●] shares)	\$ [●]	\$ [●]	\$ [●]
Maximum Offering ([●] shares)	\$ [●]	\$ [●]	\$ [●]

We and the placement agent have agreed to pay commissions of 5.5% per share (or \$[●] per share) on the offering proceeds. We have agreed to pay to the placement agent upon the consummation of the offering, a non-accountable expense allowance equal to 1.5% of the gross proceeds of the offering. We have also agreed to pay the placement agent reasonable out-of-pocket expenses including but not limited to, (i) reasonable travel and out-of-pocket expenses, including clearing charges; (ii) reasonable fees of legal counsel incurred by the placement agent in connection with the offering. The total accountable expenses shall not exceed \$100,000. We have paid an advance of \$50,000 to the placement agents to be applied to the placement agent's anticipated out-of-pocket expenses. The advance will be returned to us to the extent such out-of-pocket accountable expenses are not actually incurred in accordance with FINRA Rule 5110(f)(2)(C).

### **Terms of the Offering**

We are offering, on a best efforts basis, a minimum of US\$[\_\_\_\_\_] and a maximum of US\$[\_\_\_\_\_]. The offering is being made without a firm commitment by the placement agent, which has no obligation or commitment to purchase any securities. The placement agent is not required to sell any specific number of dollar amount of the common stock but will use its best efforts to sell of the common stock offered. The common stock is being offered for a period not to exceed 180 days. If the minimum offering amount is not raised prior to [\_\_\_\_\_), all subscription funds from the escrow account will be returned to investors promptly without interest (since the funds are being held in a non-interest bearing account) or deduction of fees. The offering may terminate on the earlier of (i) any time after the minimum offering amount of our common stock is raised, or (ii) 180 days from the date of this prospectus, unless extended by our board of directors for an additional 90 days. Reasons the board may consider in determining whether to extend or terminate the offering may include, but are not limited to: amount of funds raised, potential to raise additional capital, and response to the offering as of that date. If we can successfully raise the minimum offering amount within the offering period, the proceeds from the offering will be released to us.

## **Escrow Agent and Deposit of Offering Proceeds**

The placement agent and the Company have agreed in accordance with the provisions of SEC Rule 15c2-4 to cause all funds received by the placement agent for the sale of the common stock to be promptly deposited in a non-interest bearing escrow account (“Escrow Account”) maintained by \_\_\_\_\_ Bank (the “Escrow Agent”) as escrow agent for the investors in the offering. The purpose of the Escrow Account is for (i) the deposit of all subscription monies (checks or wire transfers) which are received by the underwriter from prospective purchasers of our offered common stock and are delivered by the underwriter to the Escrow Agent, (ii) the holding of amounts of subscription monies which are collected through the banking system, and (iii) the disbursement of collected funds. The Escrow Agent will exercise signature control on the escrow account and will act based on joint instructions from our Company and the placement agent. On the closing date for the offering, and presuming that all conditions to closing have been satisfied (such as NASDAQ approval and other conditions described herein), proceeds in the escrow account maintained by the Escrow Agent will be delivered to our company.

The placement agent shall promptly deliver to the Escrow Agent all funds in the form of checks or wire transfers which it receives from prospective purchasers of our common stock by noon of the next business day following receipt where internal supervisory review is conducted at the same location at which subscription documents and funds are received. Simultaneously with each deposit to the Escrow Account, the placement agent shall inform the Escrow Agent about the subscription information for each prospective purchaser. Upon the Escrow Agent’s receipt of such monies, they shall be credited to the Escrow Account. All checks delivered to the Escrow Agent shall be made payable to “\_\_\_\_\_ Bank, as Escrow Agent for Greenpro Capital Corp.” The Escrow Agent shall not be required to accept for credit to the Escrow Account or for deposit into the Escrow Account checks which are not accompanied by the appropriate subscription information. Wire transfers representing payments by prospective purchasers shall not be deemed deposited in the Escrow Account until the Escrow Agent has received in writing the subscription information required with respect to such payments.

No interest will be available for payment to either us or the investors (since the funds are being held in a non-interest bearing account). All subscription funds will be held in trust pending the raising of the minimum offering amount and no funds will be released to us until the completion of the offering. Release of the funds to us is based upon the Escrow Agent reviewing the records of the depository institution holding the escrow to verify that the funds received have cleared the banking system prior to releasing the funds to us. All subscription information and subscription funds through checks or wire transfers should be delivered to the Escrow Agent. Failure to do so will result in subscription funds being returned to the investor. In event that the offering is terminated, all subscription funds from the escrow account will be returned to investors.

If we terminate this offering, all amounts will be promptly returned to the investors as described below. In the event of any dispute between us and the placement agent, including whether and how funds are to be reimbursed, the Escrow Agent is entitled to petition a court of competent jurisdiction to resolve any such dispute.

Investors must pay in full for the common stock at the time of investment. Payment for the shares may be made (i) by check, bank draft or money order made payable to “\_\_\_\_\_ Bank, as Escrow Agent for Greenpro Capital Corp.” and delivered to the placement agent no less than four business days before the date of closing, or (ii) by wire made payable to “\_\_\_\_\_ Bank, as Escrow Agent for Greenpro Capital Corp.” The checks, bank drafts and money orders will be forwarded/returned by the placement agent and their dealers to the Escrow Agent by noon of the following business day. The placement agent will inform prospective purchasers of the anticipated date of closing.

Proceeds deposited in escrow with the Escrow Agent may not be withdrawn by investors prior to the earlier of the closing of the offering or the date the offering is terminated. If the offering is withdrawn or canceled or terminated and proceeds therefrom are not received by us on or prior to the date the offering is terminated, all proceeds will be promptly returned by the Escrow Agent without interest or deduction to the persons from which they are received (within one business day) in accordance with applicable securities laws. All such proceeds will be placed in a non-interest bearing account pending such time.

## **Electronic Offer, Sale and Distribution of Ordinary Shares**

A prospectus in electronic format may be made available on the websites maintained by the placement agent. In addition, the common stock may be sold by the placement agent to securities dealers who resell the common stock to online brokerage account holders. ## **Lock-up Agreements**

We, each of our directors and officers and holders of ten percent or more of our common stock on a fully diluted basis immediately prior to the consummation of this offering have agreed or are otherwise contractually restricted for a period of 180 days after the date of this prospectus, without the prior written consent of the placement agent not to directly or indirectly:

- enter into any swap or other agreement, arrangement, hedge or transaction that transfers to another, in whole or in part, directly or indirectly, any of the economic consequences of ownership of our common stock or other capital stock or any securities convertible into or exercisable or exchangeable for our common stock or other capital stock,

whether any transaction described in any of the foregoing bullet points is to be settled by delivery of our common stock or other capital stock, other securities, in cash or otherwise, or publicly announce an intention to do any of the foregoing.

There are no existing agreements between the placement agent and any person who will execute a lock-up agreement in connection with this offering providing consent to the sale of shares prior to the expiration of the lock-up period. The lock up does not apply to the issuance of shares upon the exercise of rights to acquire shares of common stock pursuant to any existing stock option or the conversion of any of our preferred convertible stock.

Greenpro, Inc. (the “Company” or “GRNQ”) was incorporated on July 19, 2013 in the state of Nevada. On May 6, 2015, the Company changed its name to Greenpro Capital Corp. The Company currently operates and provides a wide range of business solution services to small and medium-size businesses located in Asia, with an initial focus on Hong Kong, China and Malaysia. Our comprehensive range of services includes cross-border business solutions, record management services, and accounting outsourcing services. Our cross border business services include, among other services, tax planning, trust and wealth management, cross border listing advisory services and transaction services.

In addition to our business solution services, we also operate a venture capital business through Greenpro Venture Capital Limited, an Anguilla corporation. One of our venture capital business segments is focused on establishing a business incubator for start-up and high growth companies to support them during their critical growth periods and investing in select start-up and high growth companies. Our venture capital business is focused on companies located in Asia and Southeast Asia including Hong Kong, Malaysia, China, Thailand and Singapore. One of our venture capital business segments is focused on rental activities of commercial properties and the sale of investment properties.

On July 29, 2015, the Company entered into a Sale and Purchase Agreement (the “Agreement”) with Greenpro Resources Limited (“GRBV”), a company incorporated in the British Virgin Islands, and the stockholders of GRBV to purchase 100% of the issued and outstanding shares and the assets of GRBV. Pursuant to the Agreement, GRNQ agreed to issue 9,070,000 shares of its restricted common stock at \$0.35 per share to the stockholders of GRBV and pay \$25,500 in cash, representing an aggregate purchase consideration of \$3,200,000. Mr. Lee Chong Kuang and Mr. Loke Che Chan Gilbert, the directors of the Company, are the stockholders and directors of GRBV each with 50% shareholdings.

On July 31, 2015, the Company further entered into various Sale and Purchase Agreements to purchase the following companies:

- (i) 100% of the issued and outstanding shares and the assets of A&G International Limited (“A&G”), a company incorporated in Belize. GRNQ agreed to issue 1,842,000 shares of its restricted common stock at \$0.52 per share to the stockholder of A&G, representing an aggregate purchase consideration of \$957,840. On September 30, 2015, the Company further entered into a Sale and Purchase Agreement to purchase the following company:

- (iv) 100% of the issued and outstanding shares and the assets of Greenpro Venture Capital Limited ("GPVC"), a company incorporated in Anguilla. GRNQ agreed to issue 13,260,000 shares of its restricted common stock at \$0.60 per share to the stockholders of GPVC and pay \$6,000 in cash, representing an aggregate purchase consideration of \$7,962,000. Mr. Lee Chong Kuang and Mr. Loke Che Chan Gilbert, the directors of the Company, are the stockholders and directors of GPVC each with 50% shareholdings.

These share exchange transactions between GRNQ and GRBV, A&G, and GPVC resulted in the owners of these companies obtaining over 89% voting interest in GRNQ at that time. The merger of GRBV, A&G, and GPVC into GRNQ, which has nominal net assets, is considered to be acquisition transactions under common control. For accounting purposes, GRNQ presents unaudited condensed interim consolidated financial statements as of the beginning of the period as though the share exchanges had occurred at the beginning of the period. Financial statements of all prior periods are retrospectively adjusted to furnish comparative information. No goodwill was recognized for these acquisition transactions under common control.

The acquisition of F&A and Yabez is considered as a business combination using the acquisition method of accounting under ASC 805 "*Business Combinations*", which requires all the assets acquired and liabilities assumed, including amounts attributable to non-controlling interest, be recorded at their respective fair values at the date of acquisition. Any excess of purchase price over the fair value of the assets acquired and liabilities assumed is allocated to goodwill.

On October 1, 2015, QSC Asia Sdn. Bhd., an unaffiliated third party, acquired 49% of Greenpro Capital Village Sdn. Bhd. (Formerly known as Greenpro Global Advisory Sdn. Bhd.) in consideration of \$11,000 (MYR 49,000) from Greenpro Financial Consulting Limited. Concurrently with such sale, Greenpro Financial Consulting Limited transferred 51% of Greenpro Capital Village Sdn. Bhd. to Greenpro Holding Limited, our subsidiary. This subsidiary became the new business arm which provides educational and support services.

On May 11, 2016, Greenpro Capital Pty Ltd was formed with 50% held by Greenpro Holding Limited ("GPH"), one of our subsidiaries, and 50% was held by Mohammad Reza Masoumi Al Agha.

On May 23, 2016, our subsidiary, Greenpro Holding Limited (GPHL), acquired 400 shares of Greenpro Wealthon Sdn Bhd. from Mr. Lee Chong Kuang with MYR 1 (approximately US\$0.25). On June 7, 2016, GPHL acquired an additional 200 shares of Greenpro Wealthon Sdn Bhd for MYR120,000 (approximately US\$30,000), resulting in GPHL owing 60% of Greenpro Wealthon Sdn Bhd. The remaining 40% of Greenpro Wealthon Sdn. Bhd. is held by Mr. Yiap Soon Keong.

Greenpro Synergy Network Ltd ("GSN") was incorporated in Hong Kong on March 2, 2016, as a variable interest entity ("VIE") that is subject to consolidation with the Company. GSN's principal activities are to hold certain of our universal life insurance policies. Loke Che Chan Gilbert, our Chief Financial Officer, Secretary, Treasurer and director and Lee Chong Kuang, our Chief Executive Officer, President and director are the shareholders of GSN. We control GSN through a series of contractual arrangements (the "VIE Agreements") between GPHL and GSN. **NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accompanying unaudited condensed interim consolidated financial statements reflect the application of certain significant accounting policies as described in this note and elsewhere in the accompanying unaudited condensed interim consolidated financial statements and notes.

● Basis of presentation

The accompanying unaudited condensed interim consolidated financial statements are prepared in accordance with generally accepted accounting principles in the United States of America ("US GAAP"). These unaudited interim consolidated financial statements are condensed and should be read in conjunction with the audited consolidated financial statements of the Company and subsidiaries as of and for the year ended December 31, 2016. These unaudited interim statements include all normal recurring adjustments that are, in the opinion of management, necessary for a fair presentation of the results for the periods presented. The results for the three month period may not be indicative of a full year's result.

● Basis of consolidation

The unaudited condensed interim consolidated financial statements include the accounts of the Company and include the assets, liabilities, revenues and expenses of all majority-owned subsidiaries over which the Company exercises control and, when applicable, entities for which the Company has a controlling financial interest or is the primary beneficiary. All inter-company accounts and transactions have been eliminated in consolidation. The Company records income attributable to non-controlling interest in the consolidated statements of operations for any non-owned portion of consolidated subsidiaries. Non-controlling interest is recorded within the equity section but separate from GRNQ's equity in the consolidated balance sheets.

● Use of estimates

In preparing these unaudited condensed interim consolidated financial statements, management makes estimates and assumptions that affect the reported amounts of assets and liabilities in the balance sheets and revenues and expenses during the periods reported. Actual results may differ from these estimates. The following are some of the areas requiring significant judgments and estimates: determinations of the useful lives of assets, estimates of allowances for doubtful accounts, cash flow and valuation assumptions in performing asset impairment tests of long-lived assets.

● Cash and cash equivalents

Cash and cash equivalents are carried at cost and represent cash on hand, demand deposits placed with banks or other financial institutions and all highly liquid investments with an original maturity of three months or less as of the purchase date of such investments.

● Accounts receivable

Accounts receivable are recorded at the invoiced amount less an allowance for any uncollectible accounts and do not bear interest, which are due on demand. Management reviews the adequacy of the allowance for doubtful accounts on an ongoing basis, using historical collection trends and aging of receivables. Management also periodically evaluates individual customer's financial condition, credit history, and the current economic conditions to make adjustments in the allowance when it is considered necessary. Account balances are charged off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote.

The allowance for any uncollectible accounts for three months ended March 31, 2017 was zero.

● Inventory – finished property

Inventory – finished property represents a multi-unit property developed for resale on a unit by unit basis. Inventory is stated at cost unless the inventory is determined to be impaired in which case the impaired inventory is written down to fair value. The cost of inventory – finished property includes the purchase price of property, legal fees, improvement costs to the building structure, and other acquisition costs. Project wide costs such as land acquisition and certain development costs are allocated to the specific units based upon their relative fair value before construction. All property is finished and ready for sale.

In conducting its reviews for indicators of impairment, the Company evaluates, among other things, the margins on units already sold within the project, margins on units under contract but not closed (none as of March 31, 2017), and projected margin on future unit sales. The Company pays particular attention to discern if inventory is moving at a slower than expected pace or where margins are trending downward. As at March 31, 2017, the Company determined inventory – finished property was not impaired.

- Investment Property

Investment Property is stated at cost less accumulated depreciation and accumulated impairment losses, if any. Depreciation is calculated on the straight-line basis over the following expected useful lives from the date on which they become fully operational and after taking into account their estimated residual values:

Categories	Expected useful life	Residual value
Leasehold land and buildings	50 years	-
Furniture and fixtures	3 - 10 years	5%
Office equipment	3 - 10 years	5% - 10%
Leasehold improvement	Over the shorter of estimated useful life or term of lease	-

The cost of leasehold land and buildings includes the purchase price of property, legal fees, and other acquisition costs.

Depreciation expense, classified as cost of rental, for the three months ended March 31, 2017 and 2016 were \$7,122 and \$7,899, respectively.

- Plant and equipment

Plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Depreciation is calculated on the straight-line basis over the following expected useful lives from the date on which they become fully operational and after taking into account their estimated residual values:

Categories	Expected useful life	Residual value
Furniture and fixtures	3 - 10 years	5%
Office equipment	3 - 10 years	5% - 10%
Leasehold improvement	Over the shorter of estimated useful life or term of lease	-

Expenditures for maintenance and repairs are expensed as incurred. The gain or loss on the disposal of plant and equipment is the difference between the net sales proceeds and the carrying amount of the relevant assets and is recognized in the statement of operations.

Depreciation expense, classified as operating expenses, for the three months ended March 31, 2017 and 2016 were \$3,203 and \$3,789, respectively.

● Intangible assets

Intangible assets are stated at cost less accumulated amortization. Intangible assets represented the registration costs of trade marks registered in Hong Kong, the PRC, and Malaysia, which are amortized on a straight-line basis over a useful life of ten year. Intangible assets acquired in business combinations are provisionally considered customer lists amortized on a straight-line basis over a useful life of five year.

The Company follows ASC Topic 350 in accounting for intangible assets, which requires impairment losses to be recorded when indicators of impairment are present and the undiscounted cash flows estimated to be generated by the assets are less than the assets' carrying amounts. There were no impairment losses recorded on intangible assets for the three months ended March 31, 2017 and 2016.

Amortization expense for the three months ended March 31, 2017 and 2016 were \$31,353 and \$27,818 respectively.

● Goodwill

Goodwill is the excess of cost of an acquired entity over the fair value of amounts assigned to assets acquired and liabilities assumed in a business combination. With the provision of ASC 350 "Goodwill and Other", goodwill is not amortized, rather it is tested for impairment annually, and will be tested for impairment between annual tests if an event occurs or circumstances change that would indicate the carrying amount may be impaired. An impairment loss generally would be recognized when the carrying amount of the reporting unit's net assets exceeds the estimated fair value of the reporting unit and would be measured as the excess carrying value of goodwill over the derived fair value of goodwill. The Company's policy is to perform its annual impairment testing for its reporting units on December 31, of each fiscal year.

● Impairment of long-lived assets

Long-lived assets primarily include property, plant and equipment and intangible assets. In accordance with the provision of ASC Topic 360-10-5, "Impairment or Disposal of Long-Lived Assets", the Company generally conducts its annual impairment evaluation to its long-lived assets, usually in the fourth quarter of each year, or more frequently if indicators of impairment exist, such as a significant sustained change in the business climate. The recoverability of long-lived assets is measured at the reporting unit level. If the total of the expected undiscounted future net cash flows is less than the carrying amount of the asset, a loss is recognized for the difference between the fair value and carrying amount of the asset. There has been no impairment charge for the periods presented.

● Cash value of life insurance

The cash value of life insurance relates to the Company-owned life insurance policies on the general manager and executive corporate advisor of the Company, which is stated at the cash surrender value of the contract.

● Investments in unconsolidated entities

Under the equity method of accounting, investments in unconsolidated entities are initially recognized in the consolidated balance sheet at cost and are subsequently adjusted to reflect the Company's proportionate share of net earnings or losses of the entity, distributions received, contributions and certain other adjustments, as appropriate. The Company's share of the income or loss of the unconsolidated entity is reflected in the consolidated statements of operations and will increase or decrease, as applicable, the carrying value of the Company's investments in unconsolidated entities on the consolidated balance sheet.

When the investment cost in an unconsolidated entity is reduced to zero, the Company records no further losses in its consolidated statements of operations unless the Company has an outstanding guarantee obligation or has committed additional funding to the entity. When such entity subsequently reports income, the Company will not record its share of such income until it exceeds the amount of the Company's share of losses not previously recognized.

● Comprehensive income

Comprehensive income is defined as the change in equity of a business enterprise during a period from transactions and other events and circumstances from non-owner sources. The Company's accumulated other comprehensive income consists of cumulative foreign currency translation adjustments.

● Revenue recognition

The Company recognizes its revenue in accordance with ASC Topic 605, “*Revenue Recognition*”, upon the delivery of its products when: (1) delivery has occurred or services rendered; (2) persuasive evidence of an arrangement exists; (3) there are no continuing obligations to the customer; and (4) the collection of related accounts receivable is probable.

(a) Rental income

Revenue from rental of leasehold land and buildings are recognized on a straight-line basis over the lease term when collectability is reasonably assured and the tenant has taken possession or controls the physical use of the leased assets.

The Company leases its commercial office premises in Malaysia and Hong Kong under various non-cancelable operating leases with terms of two to three years and renewal options. For the three months ended March 31, 2017, the Company has recorded \$29,156 in rental revenue, based upon its annual rental over the life of the lease under operating lease, using straight-line method.

(b) Service income

Revenue from the provision of (i) business consulting and advisory services and (ii) company secretarial, accounting and financial review services are recognized when there is (i) an existence of contract or an arrangement (ii) services are rendered, (iii) the service price is fixed or determinable, and (iv) collectability is reasonable assured.

(c) Sale of properties

Revenue from the sale of properties is recognized at the time each unit is delivered and title and possession are transferred to the buyer. Specifically, the Company utilizes the full accrual method where recognition occurs when (i) the collectability of the sales price is reasonably assured, (ii) the seller is not obligated to perform significant activities after the sale, (iii) the initial investment from the buyer is sufficient, and (iv) the Company recognizes revenue when it satisfies a performance obligation by transferring control of a promised property to a customer.

Revenue on sales of properties may be deferred in whole or in part until the requirements for revenue recognition have been met.

- Cost of revenues

Cost of revenue on rental shown on the accompanying statements of operations include costs associated with government rent and rates, repairs and maintenance, property insurance, depreciation and other related administrative costs. Property management fee and utility expenses are paid directly by tenants.

Costs of revenue on provision of services primarily consist of employee compensation and related payroll benefits, company formation cost and other professional fees directly attributable to cost in related to the services rendered.

Cost of revenues on sale of properties primary consist of the purchase price of property, legal fees, improvement costs to the building structure, and other acquisition costs. Selling and advertising costs are expensed as incurred.

- Non-controlling interest

Non-controlling interest represents the capital contribution, income and loss attributable to the shareholders of less than wholly-owned and consolidated entities.

- Income taxes

Income taxes are determined in accordance with the provisions of ASC Topic 740, “*Income Taxes*” (“ASC 740”). Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted income tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Any effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

ASC 740 prescribes a comprehensive model for how companies should recognize, measure, present, and disclose in their financial statements uncertain tax positions taken or expected to be taken on a tax return. Under ASC 740, tax positions must initially be recognized in the financial statements when it is more likely than not the position will be sustained upon examination by the tax authorities. Such tax positions must initially and subsequently be measured as the largest amount of tax benefit that has a greater than 50% likelihood of being realized upon ultimate settlement with the tax authority assuming full knowledge of the position and relevant facts.

The Company conducts major businesses in Hong Kong, Malaysia and China and is subject to tax in its own jurisdiction. As a result of its business activities, the Company will file separate tax returns that are subject to examination by the foreign tax authorities.

- Foreign currencies translation

Transactions denominated in currencies other than the functional currency are translated into the functional currency at the exchange rates prevailing at the dates of the transaction. Monetary assets and liabilities denominated in currencies other than the functional currency are translated into the functional currency using the applicable exchange rates at the balance sheet dates. The resulting exchange differences are recorded in the statement of operations.

The reporting currency of the Company is the United States Dollars (“US\$”) and the accompanying financial statements have been expressed in US\$. In addition, the Company’s operating subsidiaries maintain their books and records in their respective local currency, Malaysian Ringgit (“MYR”), Renminbi (“RMB”), and Hong Kong Dollars (“HK\$”), which is also the respective functional currencies for each subsidiary as they are the primary currency of the economic environment in which each subsidiary operates.

In general, for consolidation purposes, assets and liabilities of its subsidiaries whose functional currency is not the US\$ are translated into US\$, in accordance with ASC Topic 830-30, “*Translation of Financial Statement*”, using the exchange rate on the balance sheet date. Revenues and expenses are translated at average rates prevailing during the period. The gains and losses resulting from translation of financial statements of a foreign subsidiary are recorded as a separate component of accumulated other comprehensive income within the statement of stockholders’ equity.

Translation of amounts from the local currencies of the Company into US\$ has been made at the following exchange rates for the respective periods:

	As of and for the three months ended March 31,

- Related parties

Parties, which can be a corporation or individual, are considered to be related if the Company has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Companies are also considered to be related if they are subject to common control or common significant influence.

- Segment reporting

ASC Topic 280, “*Segment Reporting*” establishes standards for reporting information about operating segments on a basis consistent with the Company’s internal organization structure as well as information about services categories, business segments and major customers in financial statements. The Company operates in three reportable operating segments, being service business, real estate business and corporate business.

- Fair value of financial instruments

The carrying value of the Company’s financial instruments: cash and cash equivalents, accounts receivable, deposits, prepayments and other receivables, accounts payable, receipts in advance, bank loan (current and long term), loan from shareholders, amounts due to directors, amount due to related companies, amount due to non-controlling interest party, and other payables and accrued liabilities approximate at their fair values because of the short-term nature of these financial instruments.

The Company follows the guidance of the ASC Topic 820-10, “*Fair Value Measurements and Disclosures*” (“ASC 820-10”), with respect to financial assets and liabilities that are measured at fair value. ASC 820-10 establishes a three-tier fair value hierarchy that prioritizes the inputs used in measuring fair value as follows:

- *Level 1* : Observable inputs such as quoted prices in active markets;
- *Level 2* : Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and
- *Level 3* : Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions
- Recent accounting pronouncements

In May 2014, the FASB issued Accounting Standards Update No. 2014-09, “Revenue from Contracts with Customers” (“ASU 2014-09”). ASU 2014-09 supersedes the revenue recognition requirements in “Revenue Recognition (Topic 605)”, and requires entities to recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled to in exchange for those goods or services. ASU 2014-09 is effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Early adoption is not permitted. In August 2015, the FASB issued an Accounting Standards Update to defer by one year the effective dates of its new revenue recognition standard until annual reporting periods beginning after December 15, 2017 (2018 for calendar-year public entities) and interim periods therein. Management is currently assessing the impact the adoption of ASU 2014-09 and has not determined the effect of the standard on our ongoing financial reporting.

In August 2014, the FASB issued ASU No. 2014-15, *Presentation of Financial Statements – Going Concern: Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern* (“ASU 2014-15”). ASU 2014-15 requires management to evaluate whether there is substantial doubt about the entity’s ability to continue as a going concern and, if so, provide certain footnote disclosures. ASU 2014-15 is effective for annual periods ending after December 15, 2016, including interim reporting periods thereafter. We adopted ASU 2014-15 as of December 31, 2016, but it did not impact our consolidated financial statements.

In January 2017, the FASB issued Accounting Standards Update No. 2017-01, *Business Combinations (Topic 805): Clarifying the Definition of a Business* (ASU 2017-01), which revises the definition of a business and provides new guidance in evaluating when a set of transferred assets and activities is a business. This guidance will be effective for us in the first quarter of 2018 on a prospective basis, and early adoption is permitted. We do not expect the standard to have a material impact on our consolidated financial statements.

In January 2017, the FASB issued Accounting Standards Update No. 2017-04, *Intangibles - Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment* (ASU 2017-04), which eliminates step two from the goodwill impairment test. Under ASU 2017-04, an entity should recognize an impairment charge for the amount by which the carrying amount of a reporting unit exceeds its fair value up to the amount of goodwill allocated to that reporting unit. This guidance will be effective for us in the first quarter of 2020 on a prospective basis, and early adoption is permitted. We do not expect the standard to have a material impact on our consolidated financial statements.

The Company has reviewed all recently issued, but not yet effective, accounting pronouncements and does not believe the future adoption of any such pronouncements may be expected to cause a material impact on its financial condition or the results of its operations.

(b) Major vendors

For the three months ended March 31, 2017 and 2016, there was no vendor accounted for 10% or more of the Company's cost of revenues with no accounts payable balance at year-end.

(c) Credit risk

Financial instruments that are potentially subject to credit risk consist principally of accounts receivable. The Company believes the concentration of credit risk in its trade receivables is substantially mitigated by its ongoing credit evaluation process and relatively short collection terms. The Company does not generally require collateral from customers. The Company evaluates the need for an allowance for doubtful accounts based upon factors surrounding the credit risk of specific customers, historical trends and other information.

(d) Interest rate risk

As the Company has no significant interest-bearing assets, the Company's income and operating cash flows are substantially independent of changes in market interest rates. The Company's interest-rate risk arises from bank loans. The Company manages interest rate risk by varying the issuance and maturity dates variable rate debt, limiting the amount of variable rate debt, and continually monitoring the effects of market changes in interest rates.

(e) Exchange rate risk

The reporting currency of the Company is US\$, to date the majority of the revenues and costs are denominated in MYR and RMB and a significant portion of the assets and liabilities are denominated in MYR and RMB. As a result, the Company is exposed to foreign exchange risk as its revenues and results of operations may be affected by fluctuations in the exchange rate between US\$, MYR and RMB. If MYR and RMB depreciates against US\$, the value of MYR and RMB revenues and assets as expressed in US\$ financial statements will decline. The Company does not hold any derivative or other financial instruments that expose it to substantial market risk.

(f) Economic and political risks

Substantially all of the Company's services are conducted in Malaysia, the PRC and Asian region. The Company's operations are subject to various political, economic, and other risks and uncertainties inherent in Malaysia. Among other risks, the Company's operations are subject to the risks of restrictions on transfer of funds; export duties, quotas, and embargoes; domestic and international customs and tariffs; changing taxation policies; foreign exchange restrictions; and political conditions and governmental regulations in Malaysia.

The Company's operations in the PRC are subject to special considerations and significant risks not typically associated with companies in North America and

Western Europe. These include risks associated with, among others, the political, economic and legal environment and foreign currency exchange. The Company's results may be adversely affected by changes in the political and social conditions in the PRC, and by changes in governmental policies with respect to laws and regulations, anti-inflationary measures, currency conversion, remittances abroad, and rates and methods of taxation.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

CERTIFIED PUBLIC ACCOUNTANTS

To the Board of Directors  
Greenpro Capital Corp.  
Suite 2201, 22/F., Malaysia Building,  
50 Gloucester Road, Wanchai, Hong Kong

We have audited the accompanying consolidated balance sheets of Greenpro Capital Corp. (the "Company") as of December 31, 2016 and December 31, 2015, and their related consolidated statements of operations, changes in shareholders' equity and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The Company was not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2016 and 2015, and the results of its operations and its cash flows for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The Company currently operates and provides a wide range of business solution services varying from cloud system resolution, financial consulting service and corporate accounting services to small and medium-size businesses located in Asia, with an initial focus in Hong Kong, China, and Malaysia. The Company’s comprehensive range of services cover cloud accounting solutions, cross-border business solutions, record management services, and accounting outsourcing services.

In addition to our business solution services, we also operate a venture capital business through Greenpro Venture Capital Limited, an Anguilla corporation. One of our venture capital business segments is focused on establishing a business incubator for start-up and high growth companies to support them during their critical growth periods and investing in select start-up and high growth companies. Our venture capital business is focused on companies located in Asia and Southeast Asia including Hong Kong, Malaysia, China, Thailand and Singapore. Another one of our venture capital business segments is focused on rental activities of commercial properties, the sale of investment properties.

On July 29, 2015, the Company entered into a Sale and Purchase Agreement (the “Agreement”) with Greenpro Resources Limited (“GRBV”), a company incorporated in British Virgin Islands, and the stockholders of GRBV to purchase 100% of the issued and outstanding shares and the assets of GRBV. Pursuant to the Agreement, GRNQ agreed to issue 9,070,000 shares of its restricted common stock at \$0.35 per share to the stockholders of GRBV and pay \$25,500 in cash, representing an aggregate purchase consideration of \$3,200,000. Mr. Lee Chong Kuang and Mr. Loke Che Chan Gilbert, the directors of the Company, are the stockholders and directors of GRBV each with 50% shareholdings.

On July 31, 2015, the Company further entered into various Sale and Purchase Agreements to purchase the following companies:

- (i) 100% of the issued and outstanding shares and the assets of A&G International Limited (“A&G”), a company incorporated in Belize. GRNQ agreed to issue 1,842,000 shares of its restricted common stock at \$0.52 per share to the stockholder of A&G, representing an aggregate purchase consideration of \$957,840. **FOR THE YEARS ENDED DECEMBER 31, 2016 AND 2015**  
**(Currency expressed in United States Dollars ("US\$"))**

On September 30, 2015, the Company further entered into a Sale and Purchase Agreement to purchase the following company:

- (iv) 100% of the issued and outstanding shares and the assets of Greenpro Venture Capital Limited ("GPVC"), a company incorporated in Anguilla. Mr. Lee Chong Kuang and Mr. Loke Che Chan Gilbert, the directors of the Company, are the stockholders and directors of GPVC each with 50% shareholdings.

These shares exchange transactions between GRNQ and GRBV, A&G, and GPVC resulted in the owners of these companies obtaining a majority of over 89% voting interest in GRNQ. The merger of GRBV, A&G, and GPVC into GRNQ, which has nominal net assets, is considered to be acquisition transactions under common control. For accounting purpose, GRNQ presents consolidated financial statements as of the beginning of the period as though the shares exchanges had occurred at the beginning of the period. Financial statements of all prior periods are retrospectively adjusted to furnish comparative information. No goodwill was recognized for these acquisition transactions under common control.

The acquisition of F&A and Yabez is considered as business combination using the acquisition method of accounting under ASC 805 "*Business Combinations*", which requires all the assets acquired and liabilities assumed, including amounts attributable to non-controlling interest, be recorded at their respective fair values at the date of acquisition. Any excess of purchase price over the fair value of the assets acquired and liabilities assumed is allocated to goodwill.

On October 1, 2015, QSC Asia Sdn. Bhd., an unaffiliated third party, acquired 49% of Greenpro Capital Village Sdn. Bhd. (Formerly known as Greenpro Global Advisory Sdn. Bhd.) in consideration of \$11,000 (MYR 49,000) from Greenpro Financial Consulting Limited. Concurrently with such sale, Greenpro Financial Consulting Limited transferred 51% of Greenpro Capital Village Sdn. Bhd. to Greenpro Holding Limited, our subsidiary. This subsidiary becomes the new business arm which provides educational and support services.

All inter-company accounts and transactions have been eliminated in consolidation. The Company records income attributable to non-controlling interest in the consolidated statements of operations for any non-owned portion of consolidated subsidiaries. Non-controlling interest is recorded within the equity section but separate from GRNQ's equity in the consolidated balance sheets.

- Use of estimates

In preparing these consolidated financial statements, management makes estimates and assumptions that affect the reported amounts of assets and liabilities in the balance sheets and revenues and expenses during the periods reported. Actual results may differ from these estimates. The following are some of the areas requiring significant judgments and estimates: determinations of the useful lives of assets, estimates of allowances for doubtful accounts, cash flow and valuation assumptions in performing asset impairment tests of long-lived assets.

- Cash and cash equivalents

Cash and cash equivalents are carried at cost and represent cash on hand, demand deposits placed with banks or other financial institutions and all highly liquid investments with an original maturity of three months or less as of the purchase date of such investments.

- Accounts receivable

Accounts receivable are recorded at the invoiced amount less an allowance for any uncollectible accounts and do not bear interest, which are due on demand. Management reviews the adequacy of the allowance for doubtful accounts on an ongoing basis, using historical collection trends and aging of receivables. Management also periodically evaluates individual customer's financial condition, credit history, and the current economic conditions to make adjustments in the allowance when it is considered necessary. Account balances are charged off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote.

- Inventory – finished property

Inventory – finished property represents a multi-unit property developed for resale on a unit by unit basis. Inventory is stated at cost unless the inventory is determined to be impaired in which case the impaired inventory is written down to fair value. The cost of inventory – finished property includes the purchase price of property, legal fees, improvement costs to the building structure, and other acquisition costs. Project wide costs such as land acquisition and certain development costs are allocated to the specific units based upon their relative fair value before construction. All property is finished and ready for sale.

In conducting its reviews for indicators of impairment, the Company evaluates, among other things, the margins on units already sold within the project, margins on units under contract but not closed (none as of December 31, 2016), and projected margin on future unit sales. The Company pays particular attention to discern if inventory is moving at a slower than expected pace or where margins are trending downward. As at December 31, 2016, the Company determined inventory – finished property was not impaired.

- Investment Property

Investment Property is stated at cost less accumulated depreciation and accumulated impairment losses, if any. Depreciation is calculated on the straight-line basis over the following expected useful lives from the date on which they become fully operational and after taking into account their estimated residual values:

Categories	Expected useful life	Residual value
Leasehold land and buildings	50 years	-
Furniture and fixtures	3 - 10 years	5%
Office equipment	3 - 10 years	5% - 10%
Leasehold improvement	Over the shorter of estimated useful life or term of lease	-

The cost of leasehold land and buildings includes the purchase price of property, legal fees, and other acquisition costs.

Depreciation expense, classified as cost of rental, for the years ended December 31, 2016 and 2015 were \$30,050 and \$30,975, respectively.

- Plant and equipment

Plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Depreciation is calculated on the straight-line basis over the following expected useful lives from the date on which they become fully operational and after taking into account their estimated residual values:

Categories	Expected useful life	Residual value
Furniture and fixtures	3 - 10 years	5%
Office equipment	3 - 10 years	5% - 10%
Leasehold improvement	Over the shorter of estimated useful life or term of lease	-

Expenditures for maintenance and repairs are expensed as incurred. The gain or loss on the disposal of plant and equipment is the difference between the net sales proceeds and the carrying amount of the relevant assets and is recognized in the statement of operations.

Depreciation expense, classified as operating expenses, for the years ended December 31, 2016 and 2015 were \$15,291 and \$11,809, respectively.

● **Intangible assets**

Intangible assets are stated at cost less accumulated amortization. Intangible assets represented the registration costs of trade marks registered in Hong Kong, the PRC, and Malaysia, which are amortized on a straight-line basis over a useful life of ten year. Intangible assets acquired in business combinations are provisionally considered customer lists amortized on a straight-line basis over a useful life of five year.

The Company follows ASC Topic 350 in accounting for intangible assets, which requires impairment losses to be recorded when indicators of impairment are present and the undiscounted cash flows estimated to be generated by the assets are less than the assets' carrying amounts. There were no impairment losses recorded on intangible assets for the year ended December 31, 2016 and 2015.

Amortization expense for the year ended December 31, 2016 and 2015 were \$121,862 and \$35,164, respectively.

● **Goodwill**

Goodwill is the excess of cost of an acquired entity over the fair value of amounts assigned to assets acquired and liabilities assumed in a business combination. With the provision of ASC 350 "*Goodwill and Other*", goodwill is not amortized, rather it is tested for impairment annually, and will be tested for impairment between annual tests if an event occurs or circumstances change that would indicate the carrying amount may be impaired. An impairment loss generally would be recognized when the carrying amount of the reporting unit's net assets exceeds the estimated fair value of the reporting unit and would be measured as the excess carrying value of goodwill over the derived fair value of goodwill. The Company's policy is to perform its annual impairment testing for its reporting units on December 31, of each fiscal year.

In assessing the fair value of goodwill, we first make a qualitative assessment of whether it is more likely than not that a reporting unit's fair value is less than its carrying amount before applying the two-step goodwill impairment test. If, after completing our qualitative assessment, we determine that it is more likely than not that the carrying value exceeds estimated fair value, we compare the fair value to our carrying value (including goodwill). If the estimated fair value is greater than the carrying value, we conclude that no impairment exists. If the estimated fair value of the reporting unit is less than the carrying value, a second step is performed in which the implied fair value of goodwill is compared to its carrying value. If the implied fair value of goodwill is less than its carrying value, goodwill must be written down to its implied fair value, resulting in goodwill impairment.

The qualitative analysis included assessing the impact of changes in certain factors including: (1) changes in the overall economy, our market share and market interest rates (2) changes in forecasted operating results and a comparison of actual results to projections, (3) changes in the industry or our competitive environment since the acquisition date.

Based on our qualitative assessment performed during the fourth quarter of 2016, we concluded that it was more likely than not that the estimated fair values of our reporting units exceeded their carrying values as of December 31, 2016 and, therefore, determined it was not necessary to perform the two-step goodwill impairment test.

● **Impairment of long-lived assets**

Long-lived assets primarily include property, plant and equipment and intangible assets. In accordance with the provision of ASC Topic 360-10-5, "*Impairment or Disposal of Long-Lived Assets*", the Company generally conducts its annual impairment evaluation to its long-lived assets, usually in the fourth quarter of each year, or more frequently if indicators of impairment exist, such as a significant sustained change in the business climate. The recoverability of long-lived assets is measured at the reporting unit level. If the total of the expected undiscounted future net cash flows is less than the carrying amount of the asset, a loss is recognized for the difference between the fair value and carrying amount of the asset. There has been no impairment charge for the periods presented.

● **Cash value of life insurance**

The cash value of life insurance relates to the Company-owned life insurance policies on the general manager and executive corporate advisor of the Company, which is stated at the cash surrender value of the contract.

- Investments in unconsolidated entities

Under the equity method of accounting, investments in unconsolidated entities are initially recognized in the consolidated balance sheet at cost and are subsequently adjusted to reflect the Company's proportionate share of net earnings or losses of the entity, distributions received, contributions and certain other adjustments, as appropriate. The Company's share of the income or loss of the unconsolidated entity is reflected in the consolidated statements of operations and will increase or decrease, as applicable, the carrying value of the Company's investments in unconsolidated entities on the consolidated balance sheet.

When the investment cost in an unconsolidated entity is reduced to zero, the Company records no further losses in its consolidated statements of operations unless the Company has an outstanding guarantee obligation or has committed additional funding to the entity. When such entity subsequently reports income, the Company will not record its share of such income until it exceeds the amount of the Company's share of losses not previously recognized.

- Comprehensive income

Comprehensive income is defined as the change in equity of a business enterprise during a period from transactions and other events and circumstances from non-owner sources. The Company's accumulated other comprehensive income consists of cumulative foreign currency translation adjustments.

- Revenue recognition

The Company recognizes its revenue in accordance with ASC Topic 605, "*Revenue Recognition*", upon the delivery of its products when: (1) delivery has occurred or services rendered; (2) persuasive evidence of an arrangement exists; (3) there are no continuing obligations to the customer; and (4) the collection of related accounts receivable is probable.

(a) Rental income

Revenue from rental of leasehold land and buildings are recognized on a straight-line basis over the lease term when collectability is reasonably assured and the tenant has taken possession or controls the physical use of the leased assets.

The Company leases its commercial office premises in Malaysia and Hong Kong under various non-cancelable operating leases with terms of two to three years and renewal options. For the year ended December 31, 2016, the Company has recorded \$100,143 in rental revenue, based upon its annual rental over the life of the lease under operating lease, using straight-line method.

(b) Service income

Revenue from the provision of (i) business consulting and advisory services and (ii) company secretarial, accounting and financial review services are recognized when there is (i) an existence of contract or an arrangement (ii) services are rendered, (iii) the service price is fixed or determinable, and (iv) collectability is reasonable assured.

(c) Sale of properties

Revenue from the sale of properties is recognized at the time each unit is delivered and title and possession are transferred to the buyer. Specifically, the Company utilizes the full accrual method where recognition occurs when (i) the collectability of the sales price is reasonably assured, (ii) the seller is not obligated to perform significant activities after the sale, (iii) the initial investment from the buyer is sufficient, and (iv) the Company recognizes revenue when it satisfies a performance obligation by transferring control of a promised property to a customer.

Revenue on sales of properties may be deferred in whole or in part until the requirements for revenue recognition have been met.

Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted income tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Any effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

ASC 740 prescribes a comprehensive model for how companies should recognize, measure, present, and disclose in their financial statements uncertain tax positions taken or expected to be taken on a tax return. Under ASC 740, tax positions must initially be recognized in the financial statements when it is more likely than not the position will be sustained upon examination by the tax authorities. Such tax positions must initially and subsequently be measured as the largest amount of tax benefit that has a greater than 50% likelihood of being realized upon ultimate settlement with the tax authority assuming full knowledge of the position and relevant facts.

The Company conducts major businesses in Hong Kong, Malaysia and China and is subject to tax in its own jurisdiction. As a result of its business activities, the Company will file separate tax returns that are subject to examination by the foreign tax authorities.

The Company follows the guidance of the ASC Topic 820-10, “*Fair Value Measurements and Disclosures*” (“ASC 820-10”), with respect to financial assets and liabilities that are measured at fair value. ASC 820-10 establishes a three-tier fair value hierarchy that prioritizes the inputs used in measuring fair value as follows:

- *Level 1* : Observable inputs such as quoted prices in active markets;
- *Level 2* : Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and
- *Level 3* : Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions
- Recent accounting pronouncements

In May 2014, the FASB issued Accounting Standards Update No. 2014-09, “Revenue from Contracts with Customers” (“ASU 2014-09”). ASU 2014-09 supersedes the revenue recognition requirements in “Revenue Recognition (Topic 605)”, and requires entities to recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled to in exchange for those goods or services. ASU 2014-09 is effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Early adoption is not permitted. In August 2015, the FASB issued an Accounting Standards Update to defer by one year the effective dates of its new revenue recognition standard until annual reporting periods beginning after January December 15, 2017 (2018 for calendar-year public entities) and interim periods therein. Management is currently assessing the impact the adoption of ASU 2014-09 and has not determined the effect of the standard on our ongoing financial reporting.

The Company has reviewed all recently issued, but not yet effective, accounting pronouncements and does not believe the future adoption of any such pronouncements may be expected to cause a material impact on its financial condition or the results of its operations.

(1) Beneficial ownership is determined in accordance with the rules and regulations of the SEC. In computing the number of shares beneficially owned by a person and the percentage ownership of that person, securities that are currently convertible or exercisable into shares of our common stock, or convertible or exercisable into shares of our common stock within 60 days of the date hereof are deemed outstanding. Such shares, however, are not deemed outstanding for the purposes of computing the percentage ownership of any other person. Except as indicated in the footnotes to the following table, each stockholder named in the table has sole voting and investment power with respect to the shares set forth opposite such stockholder's name. The percentage of beneficial ownership is based on 53,233,960 shares of common stock outstanding as of August 2, 2017.

## SELLING STOCKHOLDERS PLAN OF DISTRIBUTION

The selling stockholders and any of their pledges, donees, assignees and successors-in-interest may, from time to time, sell any or all of their shares of common stock being offered under this prospectus on any stock exchange, market or trading facility on which shares of our common stock are traded or in private transactions. These sales may be at fixed or negotiated prices. The selling stockholders may use any one or more of the following methods when disposing of shares:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the shares as agent but may position; and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resales by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- to cover short sales made after the date that the registration statement of which this prospectus is a part is declared effective by the SEC;
- broker-dealers may agree with the selling stockholders to sell a specified number of such shares at a stipulated price per share;
- a combination of any of these methods of sale; and
- any other method permitted pursuant to applicable law.

The shares may also be sold under Rule 144 under the Securities Act of 1933, as amended, if available for a selling stockholder, rather than under this prospectus. The selling stockholders have the sole and absolute discretion not to accept any purchase offer or make any sale of shares if they deem the purchase price to be unsatisfactory at any particular time.

The selling stockholders may pledge their shares to their brokers under the margin provisions of customer agreements. If a selling stockholder defaults on a margin loan, the broker may, from time to time, offer and sell the pledged shares.

Broker-dealers engaged by the selling stockholders may arrange for other broker-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the selling stockholders (or, if any broker-dealer acts as agent for the purchaser of shares, from the purchaser) in amounts to be negotiated, which commissions as to a particular broker or dealer may be in excess of customary commissions to the extent permitted by applicable law.

If sales of shares offered under this prospectus are made to broker-dealers as principals, we would be required to file a post-effective amendment to the registration statement of which this prospectus is a part. In the post-effective amendment, we would be required to disclose the names of any participating broker-dealers and the compensation arrangements relating to such sales.

The selling stockholders and any broker-dealers or agents that are involved in selling the shares offered under this prospectus may be deemed to be "underwriters" within the meaning of the Securities Act in connection with these sales. Commissions received by these broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. Any broker-dealers or agents that are deemed to be underwriters may not sell shares offered under this prospectus unless and until we set forth the names of the underwriters and the material details of their underwriting arrangements in a supplement to this prospectus or, if required, in a replacement prospectus included in a post-effective amendment to the registration statement of which this prospectus is a part.

The selling stockholders and any other persons participating in the sale or distribution of the shares offered under this prospectus will be subject to applicable provisions of the Exchange Act, and the rules and regulations under that act, including Regulation M. These provisions may restrict activities of, and limit the timing of purchases and sales of any of the shares by, the selling stockholders or any other person. Furthermore, under Regulation M, persons engaged in a distribution of securities are prohibited from simultaneously engaging in market making and other activities with respect to those securities for a specified period of time prior to the commencement of such distributions, subject to specified exceptions or exemptions. All of these limitations may affect the marketability of the shares.

Rule 2710 requires members firms to satisfy the filing requirements of Rule 2710 in connection with the resale, on behalf of selling stockholders, of the securities on a principal or agency basis. NASD Notice to Members 88-101 states that in the event a Selling Stockholder intends to sell any of the shares registered for resale in this prospectus through a member of FINRA participating in a distribution of our securities, such member is responsible for insuring that a timely filing, if required, is first made with the Corporate Finance Department of FINRA and disclosing to FINRA the following:

- it intends to take possession of the registered securities or to facilitate the transfer of such certificates;
- the complete details of how the selling stockholders' shares are and will be held, including location of the particular accounts;
- whether the member firm or any direct or indirect affiliates thereof have entered into, will facilitate or otherwise participate in any type of payment transaction with the selling stockholders, including details regarding any such transactions; and
- in the event any of the securities offered by the selling stockholders are sold, transferred, assigned or hypothecated by any Selling Stockholder in a transaction that directly or indirectly involves a member firm of FINRA or any affiliates thereof, that prior to or at the time of said transaction the member firm will timely file all relevant documents with respect to such transaction(s) with the Corporate Finance Department of FINRA for review.

No FINRA member firm may receive compensation in excess of that allowable under FINRA rules, including Rule 2710, in connection with the resale of the securities by the selling shareholders, which total compensation may not exceed 8%.

If any of the shares of common stock offered for sale pursuant to this prospectus are transferred other than pursuant to a sale under this prospectus, then subsequent holders could not use this prospectus until a post-effective amendment or prospectus supplement is filed, naming such holders. We offer no assurance as to whether any of the selling stockholders will sell all or any portion of the shares offered under this prospectus.

We have agreed to pay all fees and expenses we incur incident to the registration of the shares being offered under this prospectus. However, each selling stockholder and purchaser is responsible for paying any discounts, commissions and similar selling expenses they incur.

We and the selling stockholders have agreed to indemnify one another against certain losses, damages and liabilities arising in connection with this prospectus, including liabilities under the Securities Act.

### Item 14. Indemnification of Directors and Officers.

We are a Nevada corporation and generally governed by the Nevada Private Corporations Code, Title 78 of the Nevada Revised Statutes, or NRS.

Section 78.138 of the NRS provides that, unless the corporation's articles of incorporation provide otherwise, a director or officer will not be individually liable unless it is proven that (i) the director's or officer's acts or omissions constituted a breach of his or her fiduciary duties, and (ii) such breach involved intentional misconduct, fraud, or a knowing violation of the law. Our articles of incorporation provide the personal liability of our directors is eliminated to the fullest extent permitted under the NRS.

Section 78.7502 of the NRS permits a company to indemnify its directors and officers against expenses, judgments, fines, and amounts paid in settlement actually and reasonably incurred in connection with a threatened, pending, or completed action, suit, or proceeding, if the officer or director (i) is not liable pursuant to NRS 78.138, or (ii) acted in good faith and in a manner the officer or director reasonably believed to be in or not opposed to the best interests of the corporation and, if a criminal action or proceeding, had no reasonable cause to believe the conduct of the officer or director was unlawful. Section 78.7502 of the NRS requires a corporation to indemnify a director or officer that has been successful on the merits or otherwise in defense of any action or suit. Section 78.7502 of the NRS precludes indemnification by the corporation if the officer or director has been adjudged by a court of competent jurisdiction, after exhaustion of all appeals, to be liable to the corporation or for amounts paid in settlement to the corporation, unless and only to the extent that the court determines that in view of all the circumstances, the person is fairly and reasonably entitled to indemnity for such expenses and requires a corporation to indemnify its officers and directors if they have been successful on the merits or otherwise in defense of any claim, issue, or matter resulting from their service as a director or officer.

Section 78.751 of the NRS permits a Nevada company to indemnify its officers and directors against expenses incurred by them in defending a civil or criminal action, suit, or proceeding as they are incurred and in advance of final disposition thereof, upon determination by the stockholders, the disinterested board members, or by independent legal counsel. If so provided in the corporation's articles of incorporation, bylaws, or other agreement, Section 78.751 of the NRS requires a corporation to advance expenses as incurred upon receipt of an undertaking by or on behalf of the officer or director to repay the amount if it is ultimately determined by a court of competent jurisdiction that such officer or director is not entitled to be indemnified by the company. Section 78.751 of the NRS further permits the company to grant its directors and officers additional rights of indemnification under its articles of incorporation, bylaws, or other agreement.

Section 78.752 of the NRS provides that a Nevada company may purchase and maintain insurance or make other financial arrangements on behalf of any person who is or was a director, officer, employee, or agent of the company, or is or was serving at the request of the company as a director, officer, employee, or agent of another company, partnership, joint venture, trust, or other enterprise, for any liability asserted against him and liability and expenses incurred by him in his capacity as a director, officer, employee, or agent, or arising out of his status as such, whether or not the company has the authority to indemnify him against such liability and expenses.

**Item 17. Undertakings**

The undersigned registrant hereby undertakes to provide to the underwriters at the closing specified in the underwriting agreement, certificates in such denominations and registered in such names as required by the underwriters to permit prompt delivery to each purchaser.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

The undersigned registrant hereby undertakes that:

(1) For purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.

(2) For the purpose of determining any liability under the Securities Act of 1933, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) to include any prospectus required by Section 10(a)(3) of the Securities Act;

(ii) to reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and

(iii) to include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement.

(4) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(5) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(6) That, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.

(7) That, for the purpose of determining liability of the registrant under the Securities Act to any purchaser in the initial distribution of the securities, the undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

(i) any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;

(ii) any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;

(iii) the portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and

(iv) any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

WHEREAS, the Director is willing to accept such appointment and to serve the Company on the terms set forth herein and in accordance with the provisions of this Agreement.

NOW, THEREFORE, in consideration of the mutual covenants contained herein, the parties hereto agree as follows:

1. Position. Subject to the terms and provisions of this Agreement, the Company shall cause the Director to be appointed, and the Director hereby agrees to serve the Company in such position upon the terms and conditions hereinafter set forth, provided, however, that the Director's continued service on the Board of Directors of the Company (the "Board") after the initial one-year term on the Board shall be subject to any necessary approval by the Company's stockholders.

---

## 6. Director Covenants.

(a) Unauthorized Disclosure. The Director agrees and understands that in the Director's position with the Company, the Director has been and will be exposed to and receive information relating to the confidential affairs of the Company, including, but not limited to, technical information, business and marketing plans, strategies, customer information, other information concerning the Company's products, promotions, development, financing, expansion plans, business policies and practices, and other forms of information considered by the Company to be confidential and in the nature of trade secrets. The Director agrees that during the Directorship Term and thereafter, the Director will keep such information confidential and will not disclose such information, either directly or indirectly, to any third person or entity without the prior written consent of the Company; provided, however, that (i) the Director shall have no such obligation to the extent such information is or becomes publicly known or generally known in the Company's industry other than as a result of the Director's breach of his obligations hereunder and (ii) the Director may, after giving prior notice to the Company to the extent practicable under the circumstances, disclose such information to the extent required by applicable laws or governmental regulations or judicial or regulatory process. This confidentiality covenant has no temporal, geographical or territorial restriction. Upon termination of the Directorship Term, the Director will promptly return to the Company and/or destroy at the Company's direction all property, keys, notes, memoranda, writings, lists, files, reports, customer lists, correspondence, tapes, disks, cards, surveys, maps, logs, machines, technical data, other product or document, and any summary or compilation of the foregoing, in whatever form, including, without limitation, in electronic form, which has been produced by, received by or otherwise submitted to the Director in the course or otherwise as a result of the Director's position with the Company during or prior to the Directorship Term, provided that the Company shall retain such materials and make them available to the Director if requested by him in connection with any litigation against the Director under circumstances in which (i) the Director demonstrates to the reasonable satisfaction of the Company that the materials are necessary to his defense in the litigation and (ii) the confidentiality of the materials is preserved to the reasonable satisfaction of the Company.

(b) Non-Solicitation. During the Directorship Term and for a period of three (3) years thereafter, the Director shall not interfere with the Company's relationship with, or endeavor to entice away from the Company, any person who, on the date of the termination of the Directorship Term and/or at any time during the one year period prior to the termination of the Directorship Term, was an employee or customer of the Company or otherwise had a material business relationship with the Company.

(c) Non-Compete. The Director agrees that during the Directorship Term and for a period of three (3) years thereafter, he shall not in any manner, directly or indirectly, through any person, firm or corporation, alone or as a member of a partnership or as an officer, director, stockholder, investor or employee of or consultant to any other corporation or enterprise; engage in the business of developing, marketing, selling or supporting technology to or for businesses in which the Company engages in or in which the Company has an actual intention, as evidenced by the Company's written business plans, to engage in, within any geographic area in which the Company is then conducting such business. (d) Insider Trading Guidelines. Director agrees to execute the Company's Insider Trading Guidelines in the form attached hereto.

The terms of this paragraph shall not prevent the Company from pursuing any other available remedies for any breach or threatened breach hereof, including, but not limited to, the recovery of damages from the Director. The Director acknowledges that the Company would not have entered into this Agreement had the Director not agreed to the provisions of this Section 6.

(f) The provisions of this Section 6 shall survive any termination of the Directorship Term, and the existence of any claim or cause of action by the Director against the Company, whether predicated on this Agreement or otherwise, shall not constitute a defense to the enforcement by the Company of the covenants and agreements of this Section 6.

7. Indemnification. The Company agrees to indemnify the Director for his activities as a member of the Board to the fullest extent permitted under applicable law and shall use its best efforts to maintain Directors and Officers Insurance benefitting the Board.

8. Non-Waiver of Rights. The failure to enforce at any time the provisions of this Agreement or to require at any time performance by the other party hereto of any of the provisions hereof shall in no way be construed to be a waiver of such provisions or to affect either the validity of this Agreement or any part hereof, or the right of either party hereto to enforce each and every provision in accordance with its terms. No waiver by either party hereto of any breach by the other party hereto of any provision of this Agreement to be performed by such other party shall be deemed a waiver of similar or dissimilar provisions at that time or at any prior or subsequent time.

The Director agrees and understands that in the Director's position with the Company, the Director has been and will be exposed to and receive information relating to the confidential affairs of the Company, including, but not limited to, technical information, business and marketing plans, strategies, customer information, other information concerning the Company's products, promotions, development, financing, expansion plans, business policies and practices, and other forms of information considered by the Company to be confidential and in the nature of trade secrets. The Director agrees that during the Directorship Term and thereafter, the Director will keep such information confidential and will not disclose such information, either directly or indirectly, to any third person or entity without the prior written consent of the Company; provided, however, that (i) the Director shall have no such obligation to the extent such information is or becomes publicly known or generally known in the Company's industry other than as a result of the Director's breach of his obligations hereunder and (ii) the Director may, after giving prior notice to the Company to the extent practicable under the circumstances, disclose such information to the extent required by applicable laws or governmental regulations or judicial or regulatory process. This confidentiality covenant has no temporal, geographical or territorial restriction. Upon termination of the Directorship Term, the Director will promptly return to the Company and/or destroy at the Company's direction all property, keys, notes, memoranda, writings, lists, files, reports, customer lists, correspondence, tapes, disks, cards, surveys, maps, logs, machines, technical data, other product or document, and any summary or compilation of the foregoing, in whatever form, including, without limitation, in electronic form, which has been produced by, received by or otherwise submitted to the Director in the course or otherwise as a result of the Director's position with the Company during or prior to the Directorship Term, provided that the Company shall retain such materials and make them available to the Director if requested by him in connection with any litigation against the Director under circumstances in which (i) the Director demonstrates to the reasonable satisfaction of the Company that the materials are necessary to his defense in the litigation and (ii) the confidentiality of the materials is preserved to the reasonable satisfaction of the Company.

(b) Non-Solicitation. During the Directorship Term and for a period of three (3) years thereafter, the Director shall not interfere with the Company's relationship with, or endeavor to entice away from the Company, any person who, on the date of the termination of the Directorship Term and/or at any time during the one year period prior to the termination of the Directorship Term, was an employee or customer of the Company or otherwise had a material business relationship with the Company.

(c) Non-Compete. The Director agrees that during the Directorship Term and for a period of three (3) years thereafter, he shall not in any manner, directly or indirectly, through any person, firm or corporation, alone or as a member of a partnership or as an officer, director, stockholder, investor or employee of or consultant to any other corporation or enterprise; engage in the business of developing, marketing, selling or supporting technology to or for businesses in which the Company engages in or in which the Company has an actual intention, as evidenced by the Company's written business plans, to engage in, within any geographic area in which the Company is then conducting such business. Nothing in this Section 6 shall prohibit the Director from being (i) a stockholder in a mutual fund or a diversified investment company or (ii) a passive owner of not more than three percent of the outstanding stock of any class of securities of a corporation, which are publicly traded, so long as the Director has no active participation in the business of such corporation.

(d) Insider Trading Guidelines. Director agrees to execute the Company's Insider Trading Guidelines in the form attached hereto.

(e) Remedies. The Director agrees that any breach of the terms of this Section 6 would result in irreparable injury and damage to the Company for which the Company would have no adequate remedy at law; the Director therefore also agrees that in the event of said breach or any threat of breach, the Company shall be entitled to an immediate injunction and restraining order to prevent such breach and/or threatened breach and/or continued breach by the Director and/or any and all entities acting for and/or with the Director, without having to prove damages or paying a bond, in addition to any other remedies to which the Company may be entitled at law or in equity. The terms of this paragraph shall not prevent the Company from pursuing any other available remedies for any breach or threatened breach hereof, including, but not limited to, the recovery of damages from the Director. The Director acknowledges that the Company would not have entered into this Agreement had the Director not agreed to the provisions of this Section 6.

(f) The provisions of this Section 6 shall survive any termination of the Directorship Term, and the existence of any claim or cause of action by the Director against the Company, whether predicated on this Agreement or otherwise, shall not constitute a defense to the enforcement by the Company of the covenants and agreements of this Section 6.

7. Indemnification. The Company agrees to indemnify the Director for his activities as a member of the Board to the fullest extent permitted under applicable law and shall use its best efforts to maintain Directors and Officers Insurance benefitting the Board.

8. Non-Waiver of Rights. The failure to enforce at any time the provisions of this Agreement or to require at any time performance by the other party hereto of any of the provisions hereof shall in no way be construed to be a waiver of such provisions or to affect either the validity of this Agreement or any part hereof, or the right of either party hereto to enforce each and every provision in accordance with its terms. No waiver by either party hereto of any breach by the other party hereto of any provision of this Agreement to be performed by such other party shall be deemed a waiver of similar or dissimilar provisions at that time or at any prior or subsequent time.

## INDEPENDENT DIRECTOR AGREEMENT

This INDEPENDENT DIRECTOR AGREEMENT is dated on December 7, 2016 (the "Agreement") by and between GREENPRO CAPITAL CORP., a Nevada corporation (the "Company"), How Kok Choong, an individual resident of Malaysia (the "Director").

WHEREAS, the Company desires to retain the Director for the duties of independent director effective as of the date hereof and member of the audit committee effective as of 23<sup>rd</sup> of March, 2016 (the "Effective Date") and desires to enter into an agreement with the Director with respect to such appointment; and

WHEREAS, the Director is willing to accept such appointment and to serve the Company on the terms set forth herein and in accordance with the provisions of this Agreement.

NOW, THEREFORE, in consideration of the mutual covenants contained herein, the parties hereto agree as follows:

1. Position. Subject to the terms and provisions of this Agreement, the Company shall cause the Director to be appointed, and the Director hereby agrees to serve the Company in such position upon the terms and conditions hereinafter set forth, provided, however, that the Director's continued service on the Board of Directors of the Company (the "Board") after the initial one-year term on the Board shall be subject to any necessary approval by the Company's stockholders.

2. Duties. During the Directorship Term (as defined herein), the Director make reasonable business efforts to attend all Board meetings and quarterly pre-scheduled Board and Management conference calls, serve on appropriate subcommittees as reasonably requested and agreed upon by the Board, make himself available to the Company at mutually convenient times and places, attend external meetings and presentations when agreed on in advance, as appropriate and convenient, and perform such duties, services and responsibilities, and have the authority commensurate to such position.

3. Compensation. For all services to be rendered by the Director in any capacity hereunder, the Compensation Committee of the Board of Directors of the Company would determine the compensation packages of the Directors from time to time. This shall remain in effect until the earlier of the date of the next annual stockholders meeting and the earliest of the following to occur: (a) the death of the Director; (b) the termination of the Director from his membership on the Board by the mutual agreement of the Company and the Director; (c) the removal of the Director from the Board by the majority stockholders of the Company; and (d) the resignation by the Director from the Board.

4. Directorship Term. The "Directorship Term," as used in this Agreement, shall mean the period commencing on the Effective Date and terminating on the earlier of the date of the next annual stockholders meeting and the earliest of the following to occur: (a) the death of the Director; (b) the termination of the Director from his membership on the Board by the mutual agreement of the Company and the Director; (c) the removal of the Director from the Board by the majority stockholders of the Company; and (d) the resignation by the Director from the Board.

5. Director's Representation and Acknowledgment. The Director represents to the Company that his execution and performance of this Agreement shall not be in violation of any agreement or obligation (whether or not written) that he may have with or to any person or entity, including without limitation, any prior or current employer. The Director hereby acknowledges and agrees that this Agreement (and any other agreement or obligation referred to herein) shall be an obligation solely of the Company, and the Director shall have no recourse whatsoever against any stockholder of the Company or any of their respective affiliates with regard to this Agreement.

**6. Director Covenants.**

(a) Unauthorized Disclosure. The Director agrees and understands that in the Director's position with the Company, the Director has been and will be exposed to and receive information relating to the confidential affairs of the Company, including, but not limited to, technical information, business and marketing plans, strategies, customer information, other information concerning the Company's products, promotions, development, financing, expansion plans, business policies and practices, and other forms of information considered by the Company to be confidential and in the nature of trade secrets. The Director agrees that during the Directorship Term and thereafter, the Director will keep such information confidential and will not disclose such information, either directly or indirectly, to any third person or entity without the prior written consent of the Company; provided, however, that (i) the Director shall have no such obligation to the extent such information is or becomes publicly known or generally known in the Company's industry other than as a result of the Director's breach of his obligations hereunder and (ii) the Director may, after giving prior notice to the Company to the extent practicable under the circumstances, disclose such information to the extent required by applicable laws or governmental regulations or judicial or regulatory process. This confidentiality covenant has no temporal, geographical or territorial restriction. Upon termination of the Directorship Term, the Director will promptly return to the Company and/or destroy at the Company's direction all property, keys, notes, memoranda, writings, lists, files, reports, customer lists, correspondence, tapes, disks, cards, surveys, maps, logs, machines, technical data, other product or document, and any summary or compilation of the foregoing, in whatever form, including, without limitation, in electronic form, which has been produced by, received by or otherwise submitted to the Director in the course or otherwise as a result of the Director's position with the Company during or prior to the Directorship Term, provided that the Company shall retain such materials and make them available to the Director if requested by him in connection with any litigation against the Director under circumstances in which (i) the Director demonstrates to the reasonable satisfaction of the Company that the materials are necessary to his defense in the litigation and (ii) the confidentiality of the materials is preserved to the reasonable satisfaction of the Company.

(b) Non-Solicitation. During the Directorship Term and for a period of three (3) years thereafter, the Director shall not interfere with the Company's relationship with, or endeavor to entice away from the Company, any person who, on the date of the termination of the Directorship Term and/or at any time during the one year period prior to the termination of the Directorship Term, was an employee or customer of the Company or otherwise had a material business relationship with the Company.

(c) Non-Compete. The Director agrees that during the Directorship Term and for a period of three (3) years thereafter, he shall not in any manner, directly or indirectly, through any person, firm or corporation, alone or as a member of a partnership or as an officer, director, stockholder, investor or employee of or consultant to any other corporation or enterprise; engage in the business of developing, marketing, selling or supporting technology to or for businesses in which the Company engages in or in which the Company has an actual intention, as evidenced by the Company's written business plans, to engage in, within any geographic area in which the Company is then conducting such business. Nothing in this Section 6 shall prohibit the Director from being (i) a stockholder in a mutual fund or a diversified investment company or (ii) a passive owner of not more than three percent of the outstanding stock of any class of securities of a corporation, which are publicly traded, so long as the Director has no active participation in the business of such corporation.

(d) Insider Trading Guidelines. Director agrees to execute the Company's Insider Trading Guidelines in the form attached hereto.

(e) Remedies. The Director agrees that any breach of the terms of this Section 6 would result in irreparable injury and damage to the Company for which the Company would have no adequate remedy at law; the Director therefore also agrees that in the event of said breach or any threat of breach, the Company shall be entitled to an immediate injunction and restraining order to prevent such breach and/or threatened breach and/or continued breach by the Director and/or any and all entities acting for and/or with the Director, without having to prove damages or paying a bond, in addition to any other remedies to which the Company may be entitled at law or in equity. The terms of this paragraph shall not prevent the Company from pursuing any other available remedies for any breach or threatened breach hereof, including, but not limited to, the recovery of damages from the Director. The Director acknowledges that the Company would not have entered into this Agreement had the Director not agreed to the provisions of this Section 6.

(f) The provisions of this Section 6 shall survive any termination of the Directorship Term, and the existence of any claim or cause of action by the Director against the Company, whether predicated on this Agreement or otherwise, shall not constitute a defense to the enforcement by the Company of the covenants and agreements of this Section 6.

7. Indemnification. The Company agrees to indemnify the Director for his activities as a member of the Board to the fullest extent permitted under applicable law and shall use its best efforts to maintain Directors and Officers Insurance benefitting the Board.

8. Non-Waiver of Rights. The failure to enforce at any time the provisions of this Agreement or to require at any time performance by the other party hereto of any of the provisions hereof shall in no way be construed to be a waiver of such provisions or to affect either the validity of this Agreement or any part hereof, or the right of either party hereto to enforce each and every provision in accordance with its terms. No waiver by either party hereto of any breach by the other party hereto of any provision of this Agreement to be performed by such other party shall be deemed a waiver of similar or dissimilar provisions at that time or at any prior or subsequent time.
