NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Greenpro Capital Corp. (the “Company” or “GRNQ”) was incorporated on July 19, 2013 in the state of Nevada. The Company currently provides a wide range of business consulting and corporate advisory services, including cross-border listing advisory services, tax planning, advisory and transaction services, record management services, and accounting outsourcing services. Our focus is on companies located in Asia and Southeast Asia, including Hong Kong, Malaysia, China, Thailand, and Singapore. As part of our business consulting and corporate advisory business segment, Greenpro Venture Capital Limited provides a business incubator for start-up companies and focuses on investments in select start-up and high growth potential companies. In addition to our business consulting and corporate advisory business segment, we operate another business segment that focuses on the acquisition and rental of real estate properties held for investment and the acquisition and sale of real estate properties held for sale.

Basis of presentation and principles of consolidation

The accompanying unaudited condensed consolidated financial statements as of and for the three months ended March 31, 2024 and 2023 have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”) that permit reduced disclosure for interim periods. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”) have been condensed or omitted. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the period ended March 31, 2024 are not necessarily indicative of the results that may be expected for the year ending December 31, 2024. The Condensed Consolidated Balance Sheet information as of December 31, 2023 was derived from the Company’s audited Consolidated Financial Statements as of and for the year ended December 31, 2023 included in the Company’s Annual Report on Form 10-K filed with the SEC on March 28, 2024. These financial statements should be read in conjunction with that report.

The accompanying unaudited condensed consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries and majority-owned subsidiaries which the Company controls and entities for which the Company is the primary beneficiary. For those consolidated subsidiaries where the Company’s ownership is less than 100%, the outside shareholders’ interests are shown as non-controlling interests in equity. Acquired businesses are included in the consolidated financial statements from the date on which control is transferred to the Company. Subsidiaries are deconsolidated from the date that control ceases. All inter-company accounts and transactions have been eliminated in consolidation.

Going concern

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. During the three months ended March 31, 2024, the Company incurred a net loss of \$272,910 and net cash used in operations of \$540,043, and as of March 31, 2024, the Company incurred accumulated deficit of \$36,814,612. These factors raise substantial doubt about the Company's ability to continue as a going concern within one year of the date that the financial statements are issued. In addition, the Company's independent registered public accounting firm, in its report on the Company's December 31, 2023 financial statements, has expressed substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

The Company's ability to continue as a going concern is dependent upon improving its profitability and the continuing financial support from its major shareholders. Management believes the existing shareholders or external financing will provide the additional cash to meet the Company's obligations as they become due. Despite the amount of funds that we have raised in the past, no assurance can be given that any future financing, if needed, will be available or, if available, that it will be on terms that are satisfactory to the Company. Even if the Company is able to obtain additional financing, if needed, it may contain undue restrictions on its operations, in the case of debt financing, or cause substantial dilution for its stockholders, in the case of equity financing.

Certain effects of reverse stock split

On July 19, 2022, the Company filed a Certificate of Change with the Secretary of State of the State of Nevada (the "Certificate of Change") to effect a reverse split of the Company's Common Stock at a ratio of 10-for-1 (the "Reverse Stock Split"), effective as of July 28, 2022. On that date, every 10 issued and outstanding shares of the Company's Common Stock were automatically converted into one outstanding share of Common Stock. As a result of the Reverse Stock Split, the number of the outstanding shares of Common Stock decreased from 78,671,688 (pre-split) shares to 7,875,813 (post-split) shares. In addition, by reducing the number of outstanding shares, the Company's loss per share in all prior periods increased by a factor of 10. The Reverse Stock Split affected all shares of Common Stock outstanding immediately prior to the effective time of the Reverse Stock Split.

In addition, the Reverse Stock Split effected a reduction in the number of shares of Common Stock issuable upon the exercise of the warrants outstanding immediately prior to the effectiveness of the Reverse Stock Split, resulting in a reduction from 53,556 (pre-split) shares to 5,356 (post-split) shares. On June 12, 2023 (the "Expiration"), no warrants were exercised. Since the Expiration, all warrants expired, no warrants are outstanding and exercisable (see Note 5).

No fractional shares are issued in connection with the Reverse Stock Split. Stockholders who otherwise would be entitled to receive fractional shares because they hold a number of pre-reverse stock split shares of the Company's Common Stock not evenly divisible by 10, in lieu of a fractional share, are entitled the number of shares rounded up to the nearest whole share. The Company will issue one whole share of the post-Reverse Stock Split Common Stock to any stockholder who otherwise would have received a fractional share as a result of the Reverse Stock Split.

The Reverse Stock Split affected all holders of Common Stock uniformly and did not affect any stockholder's percentage of ownership interest. The par value of the Company's Common Stock remained unchanged at \$0.0001 per share and the number of authorized shares of Common Stock remained the same after the Reverse Stock Split.

As the par value per share of the Company's Common Stock remained unchanged at \$0.0001 per share, the change in the Common Stock recorded at par value has been reclassified to additional paid-in-capital on a retroactive basis. All references to shares of Common Stock and per share data for all periods presented in the accompanying condensed consolidated financial statements and notes thereto have been adjusted to reflect the Reverse Stock Split on a retroactive basis.

COVID-19 pandemic and other global risks

Although the COVID-19 pandemic appears to have abated, its long-term effects on the global economy, including elevated inflation, continued to affect our business. Furthermore, should there be a resurgence of the COVID-19 or new variants of COVID-19 pandemic, or should another pandemic arise, this could further affect our business. Moreover, a prolonged outbreak of any health epidemic or other adverse public health developments could create significant macroeconomic uncertainty, volatility and disruption, which may adversely affect our business operations.

On March 10, 2023, the Federal Deposit Insurance Corporation took control and was appointed receiver of Silicon Valley Bank. While we did not have deposits at Silicon Valley Bank, if other banks and financial institutions enter receivership or become insolvent in the future in response to financial conditions affecting the banking system and financial markets, our ability to access our existing cash, cash equivalents and investments may be threatened and could have a material adverse effect on our business and financial condition. It is possible that further deterioration in credit and financial markets and confidence in economic conditions will occur. If equity and credit markets deteriorate, it may affect our ability to raise equity capital, borrow on our existing facilities, access our existing cash, or make any additional necessary debt or equity financing more difficult to obtain, more costly and/or more dilutive.

Management regularly monitors the economic and other factors listed above. We develop strategic and tactical plans designed to improve performance and maximize our competitive position. Our ability to achieve our financial objectives is dependent upon our ability to effectively execute these plans and to appropriately respond to emerging economic and company-specific trends.

Use of estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Significant accounting estimates include certain assumptions related to, among others, the allowance for doubtful accounts receivable, impairment analysis of real estate assets and other long-term assets including goodwill, estimates inherent in recording purchase price allocation, valuation allowance on deferred income taxes, the assumptions used in the valuation of the derivative liability, and the accrual of potential liabilities. Actual results may differ from these estimates.

Credit losses

The Company estimates and records a provision for its expected credit losses related to its financial instruments, including its trade receivables. Management considers historical collection rates, the current financial status of the Company's customers, macroeconomic factors, and other industry-specific factors when evaluating current expected credit losses. Forward-looking information is also considered in the evaluation of current expected credit losses. However, because of the short time to the expected receipt of accounts receivable, management believes that the carrying value, net of expected losses, approximates fair value and therefore, relies more on historical and current analysis of such financial instruments, including its trade receivables.

To determine the provision for credit losses for accounts receivable, the Company has disaggregated its accounts receivable by class of customer at the business component level, as management determined that risk profile of the Company's customers is consistent based on the type and industry in which they operate. Each business component is analyzed for estimated credit losses individually. In doing so, the Company establishes a historical loss matrix, based on the previous collections of accounts receivable by the age of such receivables, and evaluates the current and forecasted financial position of its customers, as available. Further, the Company considers macroeconomic factors and the status of the relevant industry to estimate if there are current expected credit losses within its trade receivables based on the trends of the Company's expectation of the future status of such economic and industry-specific factors. Also, specific allowance amounts are established based on review of outstanding invoices to record the appropriate provision for customers that have a higher probability of default.

Accounts receivable at March 31, 2024 and December 31, 2023 are net of allowances for credit losses of \$734,729 and \$610,599, respectively. The following table provides a roll-forward of the allowance for credit losses that is deducted from the amortized cost basis of accounts receivable to present the net amount expected to be collected at March 31, 2024 and December 31, 2023:

Revenue recognition

The Company follows the guidance of Accounting Standards Codification (ASC) 606, *Revenue from Contracts with Customers*. ASC 606 creates a five-step model that requires entities to exercise judgment when considering the terms of contracts, which includes (1) identifying the contracts or agreements with a customer, (2) identifying our performance obligations in the contract or agreement, (3) determining the transaction price, (4) allocating the transaction price to the separate performance obligations, and (5) recognizing revenue as each performance obligation is satisfied. The Company only applies the five-step model to contracts when it is probable that the Company will collect the consideration it is entitled to in exchange for the services it transfers to its clients (see Note 2).

Cash and cash equivalents

Cash consists of funds on hand and held in bank accounts. Cash equivalents includes time deposits placed with banks or other financial institutions and all highly liquid investments with original maturities of three months or less, including money market funds.

At March 31, 2024 and December 31, 2023, cash included funds held by employees of \$9,712 and \$0, respectively, was to facilitate payment of expenses in local currencies or to facilitate third-party online payment platforms which the Company had not set up a corporate account, such as WeChat Pay or Alipay.

Investments

Investments in equity securities

The Company accounts for its investments that represent less than 20% ownership, and for which the Company does not have the ability to exercise significant influence, using ASU 2016-01, *Financial Instruments – Overall: Recognition and Measurement of Financial Assets and Financial Liabilities*. The Company measure investments in equity securities without a readily determinable fair value using a measurement alternative that measures these securities at the cost method minus impairment, if any, plus or minus changes resulting from observable price changes on a non-recurring basis. Gains and losses on these securities are recognized in other income and expenses.

On March 31, 2024, the Company had total twenty-four (24) investments in equity securities without readily determinable fair values, all were related party investments with aggregate value of \$99,586. In which, thirteen (13) investments in equity securities without readily determinable fair values were fully impaired and with \$nil value (see Note 3).

On December 31, 2023, the Company had total twenty-five (25) investments in equity securities without readily determinable fair values, all were related party investments with aggregate value of \$100,106. In which, thirteen (13) investments in equity securities without readily determinable fair values were fully impaired and with \$nil value (see Note 3).

Leases

The Company determines if a contract is or contains a lease at inception of the contract or modification of the contract. A contract is or contains a lease if the contract conveys the right to control the use of an identified asset for a period in exchange for consideration. Control over the use of the identified asset means the lessee has both (a) the right to obtain substantially all the economic benefits from the use of the asset and (b) the right to direct the use of the asset.

Finance and operating lease right-of-use (“ROU”) assets and liabilities are recognized based on the present value of future minimum lease payments over the expected lease term at commencement date. As the implicit rate is not determinable in most of the Company’s leases, management uses the Company’s incremental borrowing rate based on the information available at commencement date in determining the present value of future payments. The expected lease term includes options to extend or terminate the lease when it is reasonably certain the Company will exercise such option. Lease expense for minimum lease payments is recognized on a straight-line basis over the expected lease term.

The Company’s lease arrangements have lease and non-lease components. Leases with an expected term of 12 months or less are not accounted for on the balance sheet and the related lease expense is recognized on a straight-line basis over the expected lease term.

The Company’s lease agreements do not contain any material residual value guarantees or material restrictive covenants.

See Note 4 for more information regarding leases.

Derivative financial instruments

Derivative financial instruments consist of financial instruments that contain a notional amount and one or more underlying variables such as interest rate, security price, variable conversion rate or other variables, require no initial net investment and permit net settlement. The derivative financial instruments may be free-standing or embedded in other financial instruments. The Company evaluates its financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives. The Company follows the provision of ASC 815, *Derivatives and Hedging* for derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value and is then re-valued at each reporting date, with changes in the fair value reported in the statements of operations. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period. Derivative instrument liabilities are classified in the balance sheet as current or non-current based on whether net-cash settlement of the derivative instrument could be required within 12 months of the balance sheet date. At each reporting date, the Company reviews its convertible securities to determine that their classification is appropriate.

Net income (loss) per share

Basic net income (loss) per share is computed by dividing the net income (loss) available to common stockholders by the weighted average number of common shares outstanding during the period. Diluted net income (loss) per share is calculated by dividing the net income (loss) by the weighted average number of common shares outstanding, adjusted for the dilutive effect of outstanding Common Stock equivalents.

On March 31, 2024, there were no dilutive shares outstanding, while on March 31, 2023, the only outstanding Common Stock equivalents were the outstanding warrants of 5,356 potentially dilutive shares. These warrants have been excluded from the calculation of weighted average shares as the effect would have been anti-dilutive and therefore basic and diluted net income (loss) per share were the same.

Foreign currency translation

The consolidated financial statements are presented in United States Dollar (“US\$”), which is the functional and reporting currency of the Company. In addition, the Company’s operating subsidiaries maintain their books and records in their respective functional currency, which consists of the Malaysian Ringgit (“MYR”), Chinese Renminbi (“RMB”) and Hong Kong Dollar (“HK\$”).

In general, for consolidation purposes, assets and liabilities of the Company’s subsidiaries whose functional currency is not the US\$, are translated into US\$ using the exchange rate on the balance sheet date. Revenues and expenses are translated at average rates prevailing during the period. The gains and losses resulting from translation of financial statements of a foreign subsidiary are recorded as a separate component of accumulated other comprehensive income or loss within stockholders’ equity.

Translation of amounts from the local currencies of the Company into US\$ has been made at the following exchange rates for the respective periods:

	As of and for the three months ended	
	March 31,	
	2024	2023
Period-end MYR : US\$1 exchange rate	4.72	4.42
Period-average MYR : US\$1 exchange rate	4.73	4.39
Period-end RMB : US\$1 exchange rate	7.22	6.87
Period-average RMB : US\$1 exchange rate	7.18	6.85
Period-end HK\$: US\$1 exchange rate	7.83	7.85
Period-average HK\$: US\$1 exchange rate	7.82	7.85

Fair value of financial instruments

The Company follows the guidance of ASC 820-10, “*Fair Value Measurements and Disclosures*” (“ASC 820-10”), with respect to financial assets and liabilities that are measured at fair value. ASC 820-10 establishes a three-tier fair value hierarchy that prioritizes the inputs used in measuring fair value as follows:

- *Level 1* : Observable inputs such as quoted prices in active markets;
- *Level 2* : Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and
- *Level 3* : Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions

The Company believes the carrying amount reported in the balance sheet for cash and cash equivalents, accounts receivable, prepaids and other current assets, accounts payable and accrued liabilities, income tax payable, deferred cost of revenue, deferred revenue, and due to related parties, approximate their fair values because of the short-term nature of these financial instruments.

Concentrations of risks

For the three months ended March 31, 2024, three customers accounted for 49% (22%, 15% and 12%, respectively) of revenues, as compared to the three months ended March 31, 2023, one customer accounted for 50% of revenues.

Two customers accounted for 47% (25% and 22%, respectively) and three customers accounted for 39% (14%, 13% and 12%, respectively) of net accounts receivable as of March 31, 2024 and December 31, 2023, respectively.

For the three months ended March 31, 2024, no vendor accounted for 10% or more of the Company's cost of revenues, while for the three months ended March 31, 2023, one vendor accounted for 21% of the Company's cost of revenues.

Two vendors accounted for 65% (42% and 23%, respectively) and three vendors accounted for 73% (52%, 11% and 10%, respectively) of accounts payable as of March 31, 2024 and December 31, 2023, respectively.

Exchange rate risk

The Company's reporting currency is US\$ but its major revenues and costs, and a significant portion of its assets and liabilities are also denominated in MYR, RMB or HK\$. As a result, the Company is exposed to a foreign exchange risk as its revenues and the results of operations may be affected by fluctuations in the exchange rate between US\$ and MYR, US\$ and RMB or US\$ and HK\$. If MYR, RMB or HK\$ depreciates against US\$, the values of its revenues and assets in MYR, RMB or HK\$ may decline accordingly when in translation to the Company's reporting currency, as its financial statements are presented in US\$. The Company does not hold any derivative or other financial instruments that may expose it to a substantial market risk.

Risks and uncertainties

Substantially all the Company's services are conducted in Hong Kong, China, Malaysia, Thailand, Taiwan, and the South-East Asia region. The Company's operations are subject to various political and economic risks, including the risks of restrictions on transfer of funds, export duties, quotas and embargoes, changing taxation policies, and political conditions and governmental regulations, and the adverse impact of the coronavirus outbreak.

Recent accounting pronouncements

In August 2020, the FASB issued ASU 2020-06, Debt – Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging – Contracts in Entity's Own Equity (Subtopic 815-40). This ASU reduces the number of accounting models for convertible debt instruments and convertible preferred stock and amends the guidance for the derivatives scope exception for contracts in an entity's own equity to reduce form-over-substance-based accounting conclusions. In addition, this ASU improves and amends the related earnings per share guidance. This standard became effective for the Company beginning on January 1, 2023. Adoption is either a modified retrospective method or a fully retrospective method of transition. The Company adopted this guidance effective January 1, 2023, and the adoption of this standard did not have a material impact on its consolidated financial statements.

In November 2019, the FASB issued ASU No. 2019-10, which to update the effective date of ASU No. 2016-13 for private companies, not-for-profit organizations and certain smaller reporting companies applying for credit losses, leases, and hedging standard. The new effective date for these preparers is for fiscal years beginning after December 15, 2022. ASU 2019-05 is effective for the Company for annual and interim reporting periods beginning January 1, 2023, as the Company is qualified as a smaller reporting company. The Company has accordingly adopted ASUs 2019-05 in the preparation of its consolidated financial statements from January 1, 2023. Based on the composition of the Company's accounts receivable, investment portfolio, and other financial assets, including current market conditions and historical credit loss activity, the adoption of this accounting standard did not have a material impact on the Company's consolidated financial statements or disclosures. Specifically, the Company's estimate of expected credit losses as of January 1, 2023, using its expected credit loss evaluation process described above, resulted in no adjustments to the provision for credit losses and no cumulative-effect adjustment to accumulated deficit on the adoption date of this standard.

Other recent accounting pronouncements issued by the FASB, including its Emerging Issues Task Force, the American Institute of Certified Public Accountants, and the Securities and Exchange Commission did not or are not believed by management to have a material impact on the Company's present or future financial statements.

NOTE 2 - REVENUE FROM CONTRACTS WITH CUSTOMERS

The Company's revenues consist of revenue from provision of business consulting and corporate advisory services ("service revenue"), and revenue from leasing or trading of real estate properties ("real estate revenue").

Revenue from services

For certain service contracts, we assist or provide advisory to clients in capital market listings ("listing services"), our services provided to clients are considered as our performance obligations. Revenue and expenses are deferred until the performance obligation is complete and collectability of the consideration is probable. For service contracts where the performance obligation has not been completed, deferred cost of revenue is recorded as incurred and deferred revenue is recorded for any payments received on such yet to be completed performance obligations. On an ongoing basis, management monitors these contracts for profitability and when needed may record a liability if a determination is made that costs will exceed revenue.

For other services such as company secretarial, accounting, financial analysis, insurance brokerage services, and other related services ("non-listing services"), upon our completion of such services, representing our performance obligations are satisfied, and hence, the relevant revenue is recognized. For contracts in which we act as an agent, the Company reports revenue net of expenses paid.

The Company offers no discounts, rebates, rights of return, or other allowances to clients which would result in the establishment of reserves against service revenue. Additionally, to date, the Company has not incurred incremental costs in obtaining a client contract.

Revenue from leasing of real estate properties

Rental revenue represents lease rental income from the Company's tenants. The tenants pay in accordance with the terms in the lease agreements and the Company recognizes the income ratably over the lease term as this is the most representative of the pattern in which the benefit is expected to be derived from the underlying asset.

Revenue from trading of real estate properties

The Company follows the guidance of ASC 610-20, *Other Income - Gains and Losses from the Derecognition of Nonfinancial Assets* ("ASC 610-20"), which applies to sales or transfers to noncustomers of nonfinancial assets. Generally, the Company's sales of its real estate properties are considered a sale of a nonfinancial asset. Under ASC 610-20, the Company derecognizes its asset and recognizes a gain or loss on the sale of the real estate when control of the underlying asset transfers to the buyer.

During the three months ended March 31, 2024, and 2023, no real estate property was sold.

Cost of revenues

Cost of service revenue primarily consists of employee compensation and related payroll benefits, company formation costs, and other professional fees directly attributable to the services rendered.

Cost of rental revenue primarily includes costs associated with repairs and maintenance, property management fees, insurance, depreciation, and other related administrative costs. Utility expenses are paid directly by tenants.

Cost of real estate properties sold primarily consists of the purchase price of property, legal fees, improvement costs to the building structure, and other acquisition costs. Selling and advertising costs are expensed as incurred.

The following table provides information about disaggregated revenue based on revenue by service lines and revenue by geographic area:

Deferred cost of revenue

For a service contract where the performance obligation has not been completed, deferred cost of revenue is recorded for any costs incurred in advance before completion of the performance obligation.

Deferred revenue

For a service contract where the performance obligation has not been completed, deferred revenue is recorded for any payments received in advance before completion of the performance obligation.

As of March 31, 2024, and December 31, 2023, deferred cost of revenue or deferred revenue is classified as current assets or current liabilities and totaled, respectively:

Total	<u>\$ 99,586</u>	<u>\$ 100,106</u>

Investments in equity securities without readily determinable fair values of affiliates (related parties):

Equity securities without readily determinable fair values are investments in privately held companies without readily determinable market values. The Company adopted the guidance of ASC 321, Investments - Equity Securities, which allows an entity to measure investments in equity securities without a readily determinable fair value using a measurement alternative that measures these securities at cost minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions for identical or similar investment of same issuer (the "Measurement Alternative"). The fair value of equity securities without readily determinable fair values that has been remeasured due to impairments is classified within Level 3. Management assesses each of these investments on an individual basis. Additionally, on a quarterly basis, management is required to make a qualitative assessment of whether the investment is impaired.

For the three months ended March 31, 2024, the Company did not recognize any impairment or reversal of impairment whereas for the three months ended March 31, 2023, the Company recognized a reversal of impairment of \$123,000 for one of the investments in equity securities without readily determinable fair values.

During the year ended December 31, 2023, the Company recognized impairment of \$4,982,000 for three of its total investments in equity securities without readily determinable fair values and recorded a reversal of impairment of \$6,882,000 for one of the total investments in equity securities without readily determinable fair values.

In addition, the Company recorded its equity securities without readily determinable fair values at cost. For these cost method investments, we recorded as other investments in our condensed consolidated balance sheets. We reviewed all our cost method investments quarterly to determine if impairment indicators were present; however, we were not required to determine fair value of these investments unless impairment indicators exist. When impairment indicators exist, we generally adopt the valuation methods allowed under ASC820 Fair Value Measurement to evaluate the fair values of our cost method investments approximated or exceeded their carrying values as of March 31, 2024. Our cost method investments had a carrying value of \$99,586 as of March 31, 2024.

(a) Agape ATP Corporation:

On April 14, 2017, our wholly owned subsidiary, Greenpro Venture Capital Limited ("GVCL") acquired 17,500,000 shares of common stock of Agape ATP Corporation, a Nevada corporation ("Agape"), par value of \$0.0001 per share, for \$1,750. Agape is principally engaged in provision of health and wellness products and advisory services to clients in Malaysia. Effective on November 9, 2017, Agape's common stock was registered under OTC Markets Group, Inc. ("OTC"). As of December 31, 2021, GVCL holds approximately 5% of the total outstanding shares of Agape and recognized the investment at historical cost of \$1,750 under other investments.

On January 21, 2022, GVCL entered into a forfeiture agreement with Agape. Pursuant to the agreement, GVCL agreed to transfer 16,500,000 shares out of its total invested 17,500,000 shares of Agape's common stock to Agape for nil consideration. As a result, GVCL holds approximately 1% of the total outstanding shares of Agape and recognized a loss on forfeiture of other investment of \$1,650.

Since October 10, 2023, Agape's common stock has been uplisted from OTC to The Nasdaq Stock Market LLC ("NASDAQ").

As of December 31, 2023, GVCL owns 1,000,000 shares of Agape's common stock and recognized our investment in Agape under a historical cost of \$100 or \$0.0001 per share.

On February 16, 2024, GVCL sold 200,000 shares of Agape's common stock through a broker at a price of \$180,000. As a result, GVC recognized a gain on disposal of other investment of \$179,980.

As of March 31, 2024, GVCL still owns 800,000 shares of Agape's common stock and recognized the investment under a historical cost of \$80 or \$0.0001 per share.

(b) Celmonze Wellness Corporation:

On February 8, 2023, GVCL entered into a subscription agreement with Celmonze Wellness Corporation, a Nevada corporation, which provides beauty and wellness solutions to clients ("Celmonze"). Pursuant to the agreement, GVCL acquired 5,000,000 shares of common stock of Celmonze at a price of \$500 or \$0.0001 per share. The investment was recognized at a historical cost of \$500 under other investments.

On January 17, 2024, GVCL entered a repurchase agreement with Celmonze. Pursuant to the agreement, GVCL agreed to sell back all our 5,000,000 owned Celmonze shares to Celmonze at \$500. We received cash of \$500 from Celmonze in exchange for our return of Celmonze shares.

The Company had cost method investments without readily determinable fair values with a carrying value of \$99,586 and \$100,106 as of March 31, 2024, and December 31, 2023, respectively.

On March 31, 2024 and December 31, 2023, the carrying values of equity securities without readily determinable fair values are as follows:

	As of March 31, 2024 (Unaudited)	As of December 31, 2023 (Audited)
<u>Original cost</u>		
Balance, beginning of period/year	\$ 8,331,964	\$ 15,537,964

Accumulated impairment of other investments

As of March 31, 2024 and December 31, 2023, the accumulated impairment loss of other investments was \$8,231,858 and \$8,231,858, respectively.

NOTE 4 - LEASES

As of March 31, 2024, the Company has an operating lease agreement for one office space in Hong Kong with a term of two years and has a finance lease for a motor vehicle in Malaysia with a term of five years, respectively. Other than these leases, the Company does not have any other leases over the term of one year. Leases with an initial term of 12 months or less are not recorded on the balance sheet. The Company accounts for the lease and non-lease components of its leases as a single lease component. Lease expense is recognized on a straight-line basis over the lease term.

Operating lease right-of-use (“ROU”) assets and liabilities are recognized at commencement date based on the present value of lease payments over the lease term. ROU assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Generally, the implicit rate of interest (“discount rate”) in arrangements is not readily determinable and the Company utilizes its incremental borrowing rate in determining the present value of lease payments. The Company’s incremental borrowing rate is a hypothetical rate based on its understanding of what its credit rating would be. The operating lease ROU asset includes any lease payments made and excludes lease incentives.

The components of lease expense and supplemental cash flow information related to operating leases and finance leases for the periods are as follows:

NOTE 5 - WARRANTS

In 2018, the Company issued warrants exercisable into 53,556 shares of Common Stock at an exercise price of \$7.20 per share and will expire in 2023. The warrants were fully vested when issued.

On July 19, 2022, the Company filed a Certificate of Change with the Secretary of State of the State of Nevada (the "Certificate of Change") to effect a reverse split of the Company's Common Stock at a ratio of 10-for-1 (the "Reverse Stock Split"), effective as of July 28, 2022. The Reverse Stock Split effected a reduction in the number of shares of Common Stock issuable upon the exercise of the warrants outstanding immediately prior to the effectiveness of the Reverse Stock Split. As a result of the Reverse Stock Split, the number of the outstanding warrants exercisable into the Company's Common Stock was reduced from 53,556 (pre-split) shares to 5,356 (post-split) shares and the exercise price of the warrants was adjusted from \$7.2 (pre-split) per share to \$72 (post-split) per share.

Warrant activity including the number of shares and the exercise price per share has been adjusted for all periods presented in this Quarterly Report to reflect the Reverse Stock Split effected on July 28, 2022 on a retroactive basis.

On June 12, 2023 (the "Expiration"), no warrants were exercised as the trading price of the Company's Common Stock was at or below the exercise price of \$72 (post-split) per share or \$7.2 (pre-split) per share. At the Expiration, the closing price of the Company's Common Stock was \$1.78 per share.

Since the Expiration, all warrants expired, no warrants are outstanding and exercisable.

NOTE 7 - SEGMENT INFORMATION

ASC 280, "Segment Reporting" establishes standards for reporting information about operating segments on a basis consistent with the Company's internal organization structure as well as information about services categories, business segments and major customers in financial statements.

The Company has two reportable segments that are based on the following business units: service business and real estate business. In accordance with the "Segment Reporting" Topic of the ASC, the Company's chief operating decision maker has been identified as the Chief Executive Officer and President, who reviews operating results to make decisions about allocating resources and assessing performance for the entire Company.

Existing guidance, which is based on a management approach to segment reporting, establishes requirements to report selected segment information quarterly and to report annually entity-wide disclosures about products and services, major customers, and the countries in which the entity holds material assets and reports revenue. All material operating units qualify for aggregation under "Segment Reporting" due to their similar customer base and similarities in economic characteristics; nature of products and services; and procurement, manufacturing, and distribution processes. The Company operates two reportable business segments:

- Service business - provision of corporate advisory and business solution services
- Real estate business - leasing or trading of commercial real estate properties in Hong Kong and Malaysia

The Company had no inter-segment sales for the periods presented. Summarized financial information concerning the Company's reportable segments is shown as below:

We strongly encourage investors to carefully read the factors described in our Form 10-K in the section entitled "Risk Factors" for a description of certain risks that could, among other things, cause actual results to differ from these forward-looking statements. We assume no responsibility to update the forward-looking statements contained in this Quarterly Report on Form 10-Q. The following should also be read in conjunction with the unaudited Financial Statements and notes thereto that appear elsewhere in this report.

Company Overview

Greenpro Capital Corp. (the "Company" or "Greenpro"), was incorporated in the State of Nevada on July 19, 2013. We provide cross-border business solutions and accounting outsourcing services to small and medium-size businesses located in Asia, with an initial focus on Hong Kong, China and Malaysia. Greenpro provides a range of services as a package solution (the "Package Solution") to our clients, and we believe that our clients can reduce their business costs and improve their revenues.

In addition to our business solution services, we also operate a venture capital business through Greenpro Venture Capital Limited, an Anguilla corporation. One of our venture capital business segments focuses on (1) establishing a business incubator for start-up and high growth companies to support such companies during critical growth periods, which will include education and support services, and (2) searching the investment opportunities in selected start-up and high growth companies, which may generate significant returns to the Company. Our venture capital business focuses on companies located in South-East Asia and East Asia, including Hong Kong, China, Malaysia, Thailand, and Singapore. Another venture capital business segment focuses on rental activities of commercial properties and the sale of investment properties.

Results of Operations

During the three months ended March 31, 2024 and 2023, we operated in three regions: Hong Kong, China and Malaysia. We derived revenue from the provision of services and the rental activities of our commercial properties.

Comparison of the three months ended March 31, 2024 and 2023

Total revenue

Total revenue was \$658,399 and \$637,735 for the three months ended March 31, 2024 and 2023, respectively. The increase of \$20,664 was primarily due to an increase of service business revenue. We expect revenue from both service business and real estate business segments to steadily improve in the following years.

Service business revenue

Revenue from the provision of business services was \$633,792 and \$615,604 for the three months ended March 31, 2024 and 2023, respectively. It was derived principally from the provision of business consulting and advisory services as well as company secretarial, accounting, and financial analysis services. We experienced a slight increase in service revenue as more non-listing advisory services were rendered during the same period in 2024.

Real estate business

Rental revenue

Revenue from rentals was \$24,607 and \$22,131 for the three months ended March 31, 2024 and 2023, respectively. It was derived principally from leasing properties in Malaysia and Hong Kong. We believe our rental income will be stable.

Sale of real estate properties

There was no revenue generated from the sale of real estate properties for the three months ended March 31, 2024 and 2023, respectively.

Total operating costs and expenses

Total operating costs and expenses were \$1,132,112 and \$969,748 for the three months ended March 31, 2024 and 2023, respectively. They consist of cost-of-service revenue, cost of rental revenue, and general and administrative expenses.

Loss from operations for the three months ended March 31, 2024 and 2023 was \$473,713 and \$332,013, respectively. An increase in loss from operations was mainly due to an increase of general and administrative expenses of \$159,674 in the three months ended March 31, 2024.

Cost of service revenue

Cost of revenue on provision of services was \$74,698 and \$68,461 for the three months ended March 31, 2024 and 2023, respectively. It primarily consists of employee compensation and related payroll benefits, company formation costs, and other professional fees directly attributable to costs related to the services rendered.

An increase of cost-of-service revenue was mainly due to an increase of other professional fees directly attributable to the provision of services for the three months ended March 31, 2024.

Cost of rental revenue

Cost of rental revenue was \$6,176 and \$9,723 for the three months ended March 31, 2024 and 2023, respectively. It includes the costs associated with governmental charges, repairs and maintenance, property management fees and insurance, depreciation, and other related administrative costs. Utility expenses are borne and paid directly by individual tenants.

Cost of real estate properties sold

During the three months ended March 31, 2024 and 2023, no real estate property was sold, and hence no cost was incurred.

General and administrative expenses

General and administrative (“G&A”) expenses were \$1,051,238 and \$891,564 for the three months ended March 31, 2024 and 2023, respectively. For the three months ended March 31, 2024, G&A expenses primarily consisted of employees’ salaries and allowances of \$353,318, directors’ salaries and compensation of \$170,300, advertising and promotion expenses of \$49,790, consulting fee of \$50,396, computer and IT expenses of \$42,619, legal service fee of \$50,072, other professional fees of \$23,291, provision for credit losses of \$127,763, and rent and rates of \$29,112. For the three months ended March 31, 2023, G&A expenses primarily consisted of employees’ salaries and allowances of \$364,949, directors’ salaries and compensation of \$163,017, advertising and promotion expenses of \$53,215, consulting fee of \$26,406, legal service fee of \$41,487, other professional fees of \$23,213, and rent and rates of \$29,409. The increased G&A expense of \$159,674 was mainly derived from the increment of provision for credit losses from \$27,062 to \$127,763 during the same period from 2023 to 2024. We expect our G&A expenses will continue to increase as we integrate our business acquisitions, explore and expand our businesses into new jurisdictions.

Other income

Net other income was \$202,209 and \$354,462 for the three months ended March 31, 2024 and 2023, respectively. For the three months ended March 31, 2024, net other income mainly consisted of gain on disposal of investment of \$179,980 and interest income of \$9,889. For the three months ended March 31, 2023, net other income mainly consisted of reversal of impairment of other investment of \$123,000, reversal of write-off notes receivable of \$200,000, and interest income of \$10,815.

Net income or loss

Net loss was \$272,910 for the three months ended March 31, 2024, while net income was \$21,936 for the three months ended March 31, 2023. In 2023, net income was mainly derived from reversal of impairment of other investment of \$123,000 and reversal of write-off notes receivable of \$200,000, but no such reversals occurred during the same period in 2024.

Net loss attributable to non-controlling interests

The Company recorded net losses attributable to non-controlling interests in the consolidated statements of operations for the non-controlling interests of a consolidated subsidiary.

At March 31, 2024, the non-controlling interests are related to the Company’s 60% ownership of Forward Win International Limited (“FWIL”), which is principally engaged in trading and leasing properties in Hong Kong.

For the three months ended March 31, 2024 and 2023, we recorded net losses attributable to non-controlling interests of \$7,393 and \$9,153, respectively.

There were no seasonal aspects that had a material effect on the financial condition or results of operations of the Company.

Other than as disclosed elsewhere in this Quarterly Report, we are not aware of any trends, uncertainties, demands, commitments or events for the three months ended March 31, 2024 that are reasonably likely to have a material adverse effect on our financial condition, changes in our financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources, or that would cause the disclosed financial information to be not necessarily indicative of future operating results or financial conditions.

Off-Balance Sheet Arrangements

We have no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in our financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to our stockholders as of March 31, 2024.

Contractual Obligations

As of March 31, 2024, one of our subsidiaries, leases one office in Hong Kong under a non-cancellable operating lease, with a term of two years commencing from March 15, 2023, to March 14, 2025.

Critical Accounting Policies and Estimates

Use of estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Significant accounting estimates include certain assumptions related to, among others, the allowance for doubtful accounts receivable, impairment analysis of real estate assets and other long-term assets including goodwill, valuation allowance on deferred income taxes, and the accrual of potential liabilities. Actual results may differ from these estimates.

Revenue recognition

The Company follows the guidance of Accounting Standards Codification (ASC) 606, *Revenue from Contracts*. ASC 606 creates a five-step model that requires entities to exercise judgment when considering the terms of contracts, which includes (1) identifying the contracts or agreements with a customer, (2) identifying our performance obligations in the contract or agreement, (3) determining the transaction price, (4) allocating the transaction price to the separate performance obligations, and (5) recognizing revenue as each performance obligation is satisfied. The Company only applies the five-step model to contracts when it is probable that the Company will collect the consideration it is entitled to in exchange for the services it transfers to its clients.

The Company's revenue consists of revenue from providing business consulting and corporate advisory services ("service revenue"), revenue from the rental of real estate properties and revenue from the sale of real estate properties.

Impairment of long-lived assets

Long-lived assets primarily include real estate held for investment, property and equipment, and intangible assets. In accordance with the provision of ASC 360, the Company generally conducts its annual impairment evaluation of its long-lived assets in the fourth quarter of each year, or more frequently if indicators of impairment exist, such as a significant sustained change in the business climate. The recoverability of long-lived assets is measured at the reporting unit level. If the total of the expected undiscounted future net cash flows is less than the carrying amount of the asset, a loss is recognized for the difference between the fair value and carrying amount of the asset. In addition, for real estate held for sale, an impairment loss is the adjustment to fair value less estimated cost to dispose of the asset.

Goodwill

Goodwill is the excess of cost of an acquired entity over the fair value of amounts assigned to assets acquired and liabilities assumed in a business combination. Under the guidance of ASC 350, goodwill is not amortized, rather it is tested for impairment annually, and will be tested for impairment between annual tests if an event occurs or circumstances change that would indicate the carrying amount may be impaired. An impairment loss generally would be recognized when the carrying amount of the reporting unit's net assets exceeds the estimated fair value of the reporting unit and would be measured as the excess carrying value of goodwill over the derived fair value of goodwill. The Company's policy is to perform its annual impairment testing for its reporting units on December 31, of each fiscal year.

Derivative financial instruments

Derivative financial instruments consist of financial instruments that contain a notional amount and one or more underlying variables such as interest rate, security price, variable conversion rate or other variables, require no initial net investment and permit net settlement. The derivative financial instruments may be free-standing or embedded in other financial instruments. The Company evaluates its financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives. The Company follows the provision of ASC 815, *Derivatives and Hedging* for derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value and is then re-valued at each reporting date, with changes in the fair value reported in the statements of operations. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period. Derivative instrument liabilities are classified in the balance sheet as current or non-current based on whether net-cash settlement of the derivative instrument could be required within 12 months of the balance sheet date. At each reporting date, the Company reviews its convertible securities to determine that their classification is appropriate.

Recent accounting pronouncements

Refer to Note 1 in the accompanying financial statements.

Liquidity and Capital Resources

Our cash balance on March 31, 2024, was \$1,654,243, as compared to \$2,223,197 on December 31, 2023, decrease of \$568,954. We estimate the Company has sufficient cash available to meet its anticipated working capital for the next twelve months.

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. During the three months ended March 31, 2024, the Company incurred a net loss of \$272,910 and net cash used in operations of \$540,043, and as of March 31, 2024, the Company incurred an accumulated deficit of \$36,814,612. These factors raise substantial doubt about the Company's ability to continue as a going concern within one year of the date that the financial statements are issued. In addition, the Company's independent registered public accounting firm, in its report on the Company's December 31, 2023 financial statements, has expressed substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

The Company's ability to continue as a going concern is dependent upon improving its profitability and the continuing financial support from its major shareholders. Management believes the existing shareholders or external financing will provide the additional cash to meet the Company's obligations as they become due.

Despite the amount of funds that the Company has raised in the past, no assurance can be given that any future financing, if needed, will be available or, if available, that it will be on terms that are satisfactory to the Company. Even if the Company is able to obtain additional financing, if needed, it may contain undue restrictions on its operations, in the case of debt financing, or cause substantial dilution for its shareholders, in the case of equity financing.

Operating activities

Net cash used in operating activities was \$540,043 and \$751,522 for the three months ended March 31, 2024 and 2023, respectively. The net cash used in operating activities in 2024 primarily consisted of an increase in accounts receivable of \$139,827 and a decrease in accounts payable and accrued liabilities of \$273,025. For the three months ended March 31, 2024, non-cash adjustments totaled \$9,112, which was comprised of non-cash income from gain on disposal of investment of \$179,980, offset by non-cash expenses from the provision for credit losses of \$127,763 and depreciation and amortization of \$61,329.

Investing activities

Net cash provided by investing activities was \$176,100 for the three months ended March 31, 2024, while net cash used in investing activities was \$500 for the three months ended March 31, 2023.

Cash provided by investing activities was composed of the proceeds from disposal of other investments of \$180,500, offset by the purchase of equipment of \$4,400.

Financing activities

Net cash used in financing activities was \$206,090 and \$128,702 for the three months ended March 31, 2024 and 2023, respectively.

Cash used in financing activities in 2024 was mainly due to advances to related parties of \$205,281.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

As a “smaller reporting company” as defined by Rule 12b-2 of the Securities Exchange Act of 1934, the Company is not required to provide the information under this item.

Item 4. Controls and Procedures.**Evaluation of Disclosure Controls and Procedures**

Our management, with the participation of our principal executive officer and principal financial officer, evaluated the effectiveness of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended (“Exchange Act”). Based on such evaluation, our principal executive officer and principal financial officer have concluded that the disclosure controls and procedures were effective as of March 31, 2024 to ensure that information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time period specified in the U.S. Securities and Exchange Commission’s (“SEC”) rules and forms, and to ensure that information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is accumulated and communicated to the Company’s management, including its principal executive and principal financial officers, as appropriate, to allow timely decisions regarding disclosure.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting for the three months ended March 31, 2024 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations on Effectiveness of Controls

Our management, including each of our Chief Executive Officer and Chief Financial Officer, intends that our disclosure controls and procedures and internal control over financial reporting are designed to provide reasonable assurance of achieving their objectives. However, our management does not expect that our disclosure controls and procedures or our internal control over financial reporting will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of a simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people or by management override of the controls. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings.

On August 24, 2021, Plaintiff Millennium Fine Art Inc. (“MFAI”) filed a Complaint against the Company, alleging that on or about April 21, 2021, MFAI and the Company entered into a contract (the “Contract”), by which MFAI agreed to create 7,700 non-fungible tokens (“NFT”) in exchange for sixteen million dollars (\$16,000,000) worth of shares of the Company. MFAI claims that the Company breached the Contract by refusing delivery of the NFTs and not delivering \$16 million worth of shares to MFAI. The Complaint asserts causes of action for breach of contract, special damages and promissory estoppel, and seeks sixty-six million dollars (\$66,000,000) in damages, specific performance by Company according to the terms of the Contract, and MFAI’s attorney’s fees and costs.

On October 18, 2021, the Company filed a motion, denying all the material allegations of the Complaint, and seeking to stay the case and compel arbitration pursuant to the purported Contract. In its motion, the Company only sought to enforce the terms of the Contract as it relates to arbitration, but otherwise denied the existence of a valid and binding contract. Over MFAI’s opposition, the Court granted the Company’s motion, and stayed the case, pending the resolution of the Parties’ arbitration of the dispute.

On or about April 1, 2022, MFAI filed a Request for Arbitration with JAMS dispute resolution services, in response to which the Company filed a Statement of Answer, denying the material allegations of the Complaint, which the Company deems to be without merit. The matter is currently in the discovery phase, and the Company intends to continue vigorously defending this matter. The arbitration final hearing has been scheduled for April 1-4, 2025.
